

## **I. Introduction**

Under the new Agency of Human Services (AHS) organizational structure, the Department of Health (VDH) will be responsible for the public and mental health of the citizens of Vermont. VDH's mission statement is as follows:

We will have the nation's premier system of public health, enabling Vermonters to lead healthy lives in healthy communities.

- We will lead out state and communities in the development of systematic approaches to health promotion, safety and disease prevention.
- We will continuously assess, vigorously pursue and document measurable improvements to the health and safety of Vermont's population.
- We will succeed through excellence in individual achievement, organizational competence and teamwork within and outside of the Department of Health.

Within this document we have included an overview of VDH's organizational structure and a list of the specific functions performed by VDH, referred to as plan departments or cost pools, and the allocation method for each function. Please note that the plan department numbers correspond to internal AHS program codes, from the state accounting system.

## **II. Organization**

VDH is organized into six divisions. These are Administration; Mental Health; Health Protection; Health Surveillance; Health Improvement; Community Public Health; and Alcohol and Drug Abuse Programs. In addition, the Board of Medical Practice is an office in the Department of Health.

For the implementation of Global Commitment, VDH activities are based on an Inter-Agency Agreement with OVHA. OVHA is the Public Managed Care Organization (Public MCO) for all enrollees under the Global Commitment to Health Waiver. The AHS, as the Single State Agency, will provide oversight of the OVHA in that capacity.

### ***Administration:***

The Administration appropriation includes:

- The Commissioner's Office;
- Information Technology Services;
- Budget and Grants Management;
- Business Office;
- Training and Development.

The Commissioner's Office provides policy direction and guidance to staff and programs of the Department. In addition, the Office keeps the public informed of issues that may affect their health and wellbeing through press releases, press conferences and responding to multiple daily press inquiries seeking information related to matters affecting public health. Information on community health is made available to the public through the periodic release of the *Health Status Report* and through establishing broad health goals such as are included in *Healthy Vermonters 2010*.

Information technology services maintain a 500+ user network serving 15 sites statewide. Staff develop, support and maintain a large number of custom software applications serving department programs. The unit supports a key national public health initiative to develop a national electronic disease surveillance and reporting system.

Budget and grants management staff manage the department's overall budget and spending. The unit manages the budgets for the nearly 100 federal and foundation funding sources that make up two thirds of the department's budget.

The business office provides financial and logistics support for all department operations.

The training and development unit is responsible for department-wide workforce development issues, with particular emphasis on public health preparedness for emergencies.

### ***Division of Mental Health:***

The Division of Mental Health contracts with 11 designated community agencies (DAs) to provide services to adults with severe mental illness and adults with less severe emotional or behavioral problems that still disrupt their lives; children and adolescents experiencing a serious emotional disturbance and their families; and anyone who is experiencing an acute mental-health crisis. Between 20,000 and 25,000 Vermonters currently receive mental health services from public

providers. Approximately 10,350 clients receive community-based mental health services through Community Rehabilitation and Treatment (CRT) programs and Adult Outpatient programs in FY 2003.

Last year, 9,581 Vermont youth (6.4%) were assigned to Children's Services programs in the public mental health system. These young Vermonters were either experiencing a severe emotional disturbance or were at substantial risk.

The contracted designated agencies also operate mental health Emergency Services Programs which are available 24 hours a day, seven days a week, responding to any individual experiencing a mental health crisis and to communities following natural disasters, accidental deaths, suicides and other traumatic events. Emergency programs also screen situations to determine if there is need for admission into involuntary and/or acute care arrangements. Approximately 6,100 Vermonters were served through these Emergency programs last year.

Inpatient services in Vermont State Hospital (VSH) are for involuntary emergency examinations and commitments in which adults have become dangerous to themselves or others or for psychiatric evaluations of competency to stand trial in criminal cases. The State Hospital, which has 56 beds, is Vermont's only public psychiatric inpatient facility. During FY 2003, VSH served 234 individuals, had 216 admissions and an average daily census of 47.

#### ***Health Protection:***

The Health Protection appropriation includes:

- The Office of the Chief Medical Examiner – performs autopsies and investigates unexpected deaths from violence, injury, suicide, drugs or other circumstances;
- Emergency Medical Services – responsible for standard setting, regulation and planning for statewide emergency medical services systems, training, technical assistance and program development for local services and licensing and certification of all personnel and emergency equipment;
- Radiological Health Services – minimizes occupational general public and patient radiation exposure by registering and inspecting radiation sources, conducting environmental surveillance for the Vermont Yankee nuclear power plant and providing technical assistance;
- Food and Lodging Services – inspects and licenses all restaurants, hotels, motels, inns, delis, bakeries, school food service facilities, summer camps and fairs to prevent food borne illness;
- Environmental Health Programs – evaluates the potential risks to health posed by contaminants in housing, food, water and air. Performs toxicological and risk assessment analyses, operates asbestos certification program, childhood lead poisoning prevention program, school indoor air program, coordinates development of state asthma plan and enforces the Clean Indoor Air Act.

#### ***Health Surveillance:***

The Health Surveillance appropriation includes funding for:

- Public Health Laboratory – performs laboratory tests annually to identify infectious disease toxins or contaminants in air, food, water and clinical samples;

- Epidemiology – investigates and monitors reportable diseases and operates programs that provide service and prevention for sexually transmitted disease, HIV/AIDS, hepatitis and tuberculosis;
- Immunizations – provides vaccine to children and adults, assures adherence to vaccination procedures and policies;
- Chronic Disease – investigates and monitors chronic disease and operates screening programs for breast and cervical cancer and other conditions;
- Public Health Statistics – provides statistical and analytical support to all department programs, maintains and analyzes vital records, conducts health surveys and operates the Vermont Cancer Registry.

### ***Health Improvement:***

The Health Improvement appropriation includes funding for:

- Maternal and Child Health – administers the Maternal and Child Health federal block grant and monitors and works to improve the system of health care for women, children and families;
- Children with Special Health Needs – provides and/or assures that health care and support services are available to children (0-21) who have complex health problems and to their families;
- Dental Health – works to improve the oral health of Vermonters by assuring access to preventative dental care and support for fluoridation programs;
- Tobacco Control – work to cut the prevalence of tobacco use by 50% by 2010;
- Health Systems – includes Rural Health, Primary Care, Health Promotion, Diabetes Control and Minority Health Programs, which work to provide or improve access to health care and to raise awareness of the health needs of special populations;
- Family Planning – administers the federal family planning grant;
- Hospital Bioterrorism Preparedness – assists the state’s hospital system to prepare for public health emergencies;

Much of the work of this division is funded by federal grants and to a lesser extent by grants from private foundations. State funds are used primarily to meet federal match requirements. Those general funds not encumbered by federal matching requirements are applied as much as possible to draw down **Global Commitment** funds.

### ***Community Public Health Division:***

The Community Public Health Division provides direct service to Vermonters through district offices. The Community Public Health appropriation funds:

- 12 District Offices Around the State – provide the essential health promotion and disease prevention services necessary for an effective public health system. It is through these district offices that most Health Department programs reach the people of Vermont;
- Healthy Babies, Kids & Families – health care and support services through pregnancy and delivery and for infants and children from birth to 5 years;
- WIC – federally funded program to enhance the health of infants, young children, pregnant women and new mothers;

- EPSDT – consists of two main components: (1) assuring the availability and accessibility of required health care resources; and (2) helping Global Commitment recipients and their parents or guardians effectively use these resources;
- Town Health Officer – coordinates the appointment process for municipal health officers and aids them in carrying out their duties. Produces manuals and newsletters for municipal health officers to keep them informed of recent environmental health issues and regulations; developing and providing training sessions on public health issues relevant to their work.

***Alcohol & Drug Abuse Programs:***

The Alcohol and Drug Abuse Program appropriation funds:

- Alcohol and Drug Research and Planning – conducts surveys and analysis to determine the prevalence of substance abuse and treatment needs of communities. Conducts program and fiscal monitoring data analyses and evaluations of key ADAP prevention, intervention and treatment services to ensure their accessibility, appropriateness, quality and cost effectiveness. Manages and monitors federal data grants and SAPT block grant data reporting.
- Alcohol and Drug Abuse Treatment – manages and provides quality assurance for the state’s substance abuse treatment system including monitoring programs and licensing of substance abuse counselors. Operates the Drinking Driver Rehabilitation (CRASH) program. Manages student assistance programs. Funds treatment services for VHAP and uninsured clients. Manages and monitors Global Commitment funding of treatment providers.
- Alcohol and Drug Prevention – collaborates with the Department of Education to help schools and colleges develop comprehensive alcohol and drug abuse prevention programs. Provides funding for prevention programs through grants to schools and community agencies and monitors implementation and results.

***Board of Medical Practice:***

The Board of Medical Practice licenses physicians, podiatrists and physician assistants. The Board investigates all complaints and charges of unprofessional conduct against any person subject to its jurisdiction. The Board is also required by law to create individual profiles on all health care professionals licensed, certified or registered by the department and make these profiles available to the public.

Please see the attached organizational charts.

### III. Plan Departments and Allocation Methodologies

Plan Department 1:

#### Indirect Cost Allocations

Nature and Extent of Services: The State of Vermont, Agency of Human Services negotiates the annual State Wide Indirect Cost Allocation Plan (SWICAP) with the Federal Government.
