Integrating Family Services Rate Increase

Policy Summary:

The Vermont Medicaid program has increased the rate paid to the Addison County Parent Child Center (ACPCC), one of the Integrating Family Services (IFS) providers. The ACPCC bundled payment increased from \$910.89 to \$1,083.79 per member per month. This change is due to updated annual caseload expectations based on a 36-month weighted average lookback. It is expected that this rate increase will support the program to be fully staffed with qualified providers.

The IFS bundled payment model supports Medicaid services for pregnant individuals and children birth through age 21 across service domains, including: mental and behavioral health, developmental disabilities, and substance use. Services reach across the continuum of prevention, diagnosis, and treatment.
