## ***Frequently Asked Questions about the Impact of Premium Pay on Eligibility for Public Benefits***

### **1. What is the Premium Pay for Workforce Recruitment and Retention Grant program?**

It is extra money for people working in health care so that they continue working with their employer. Employers apply for it through the State of Vermont to give to their employees. This extra pay is not counted the same as other income for some public benefit programs. Only some health care and human service employees can get it through their employer. They must agree to continue working for their employer for at least another three months. Their employer can choose to give them the money all at once or over a few pay checks.

### **2. I get Medicaid. Will I lose it if I get this payment?**

Vermont is not stopping anyone's Medicaid during the federal COVID-19 emergency. The emergency is set to end July 15, 2022. It may go on longer than that. When it is over, the State of Vermont may check to see who can keep Medicaid.

### **3. I get public benefits from the Department of Children and Families. Will I lose them if I get this extra pay?**

This hazard pay will **not** make you lose:

- General Assistance
- Fuel Assistance
- Essential Person
- Reach Up (and Reach Up related programs – Reach First, Reach Ahead, and the Postsecondary Education Program)
- Child Care Financial Assistance Program
