AGENCY OF HUMAN SERVICES

OFFICE OF THE SECRETARY  
280 State Drive  
Waterbury, Vermont 05671-1000

June 2023

Mr. Darryl Mayes  
Director, Division of Cost Allocation  
Department of Health and Human Services  
26 Federal Plaza, Room 41-122  
New York, New York 10278

Mr. Mayes:

Attached is the Vermont Agency for Human Services' (AHS) cost allocation plan amendment, effective April 1, 2023, with required certifications.

In compliance with the CAS requirements in the Public Assistance Cost Allocation Plan (PACAP) Checklist, changes to the documents from the previous submission have been identified using bold, yellow highlighted font and all deletions have been identified using red, strike-out font. Changes pre-dating the current quarter have been identified using blue font accompanied by an effective date of the change.

This submission includes ongoing cost pools to track allowable expenses for the federal appropriations enacted by P.L. 116-127 (Families First Coronavirus Response Act), P.L. 116-136 (Coronavirus Aid, Relief, and Economic Security Act, known as the "CARES Act"), P.L. 116-260 (Consolidated Appropriations Act, 2021), and P.L. 117-2 (American Rescue Plan Act of 2021), as well as the AHS emergency response to the COVID pandemic. Specific to the Coronavirus Relief Fund (Fund) under section 601(a) of the Social Security Act, as added by section 5001 of the CARES Act, cost allocation methodologies are updated quarterly to reflect the U.S. Treasury's most recent guidance regarding allowable uses of the Fund.

To reduce the size of this document, we will include the SPMP and RMTS material only when there is a change to the materials. We will include a statement in section XI. Time Tracking, Time Study Information and Training Guides and Appendix C. SPMP Job Descriptions and Claiming Methodologies, indicating that there were no changes in the quarter being submitted to affirm this understanding. The time study and SPMP information will be retained in our CAP files and will be available upon request.

Please contact Candace Elmquist 802-241-9056 or [AHS.COCAP@vermont.gov](mailto:AHS.COCAP@vermont.gov) if you have any questions.

Sincerely,

## I. CERTIFICATIONS

### CERTIFICATION OF OUTSIDE COSTS

I hereby certify that wherever costs are claimed for services provided by a governmental agency outside the State of Vermont Agency of Human Services that they will be supported by a written agreement that includes at a minimum: (i) the specific services(s) being purchased; (ii) the basis upon which the billing will be made by the provider agency (e.g., time reports, number of homes inspected, etc.); and (iii) a stipulation that the billing will be based on the actual costs incurred, except where the cost involved are specifically addressed in the State of Vermont Agency of Human Services Public Assistance cost allocation plan. The person signing the certifications must have at least a high-level understanding of the plan and its purpose.

I declare that the foregoing is true and correct.

#### **IV. INTRODUCTION**

The Vermont Agency of Human Services (AHS) mission is to improve the conditions and well-being of Vermonters and protect those who cannot protect themselves. Whether helping a family access health care or child care, protecting a young child from abuse, supporting youth and adults through addiction and recovery, providing essential health promotion and disease prevention services, reaching out to elder Vermonters in need of at-home or nursing home assistance, enabling individuals with disabilities to have greater independence, or supporting victims and rehabilitating offenders, AHS serves Vermonters with compassion, dedication, and professionalism. AHS has operated since 1969 to serve as the umbrella organization for all human service activities within state government.

The Departments under AHS are: Department of Children and Family Services (DCF), Department of Disabilities, Aging and Independent Living (DAIL), Department of Vermont Health Access (DVHA), Vermont Department of Health (VDH), Department of Mental Health (DMH), and the Department of Corrections (DOC). Appropriate costs allocated as benefitting the Secretary's Office are further reallocated across all other agency-specific benefitting objectives, as described throughout this narrative.

For the administration of the CAP, AHS and the Departments use a web-based software tool to calculate the quarterly CAP results. AHS and each of the Departments have their own unique version of the application to run their costs through the software. Effective 7/1/2015, AHS switched to the web-based, proprietary cost allocation software, AlloCAP™; therefore, the quarter ending 9/30/2015 was the first quarter that processed using the software. The software was configured specific to the needs of AHS and each of the Departments' expenditures to appropriately allocate costs as described in the CAP narrative herein. The AlloCAP™ software is hosted on the vendor's server; the vendor is Public Consulting Group, Inc. (PCG). AHS is responsible for processing the CAP and does so at the close of each quarter using the vendor's software.

AlloCAP™ allows the user to import quarterly expenditure data. The data is coded according to the codes assigned to the costs in the state's accounting system and utilized to identify costs in the CAP narrative. These common cost pools are then applied against the appropriate statistics for allocation purposes, as described in the rest of this CAP narrative. Statistics allocate cost pools (Program Codes) using a four step-down methodology. Cost pools and assigned allocation statistics are identified further in this CAP narrative. Statistics used include time study results, total cost methodologies, case counts, position counts, etc. Through AlloCAP™, AHS and the Departments also have access to reports that describe where the money gets allocated to, which allocation methods are used for each cost pool, and what statistics are assigned for each allocation method.

## **IX. COST ALLOCATION METHODOLOGIES AND DEPARTMENTAL ORGANIZATIONAL CHARTS**

### **A. AHS SECRETARY'S OFFICE**

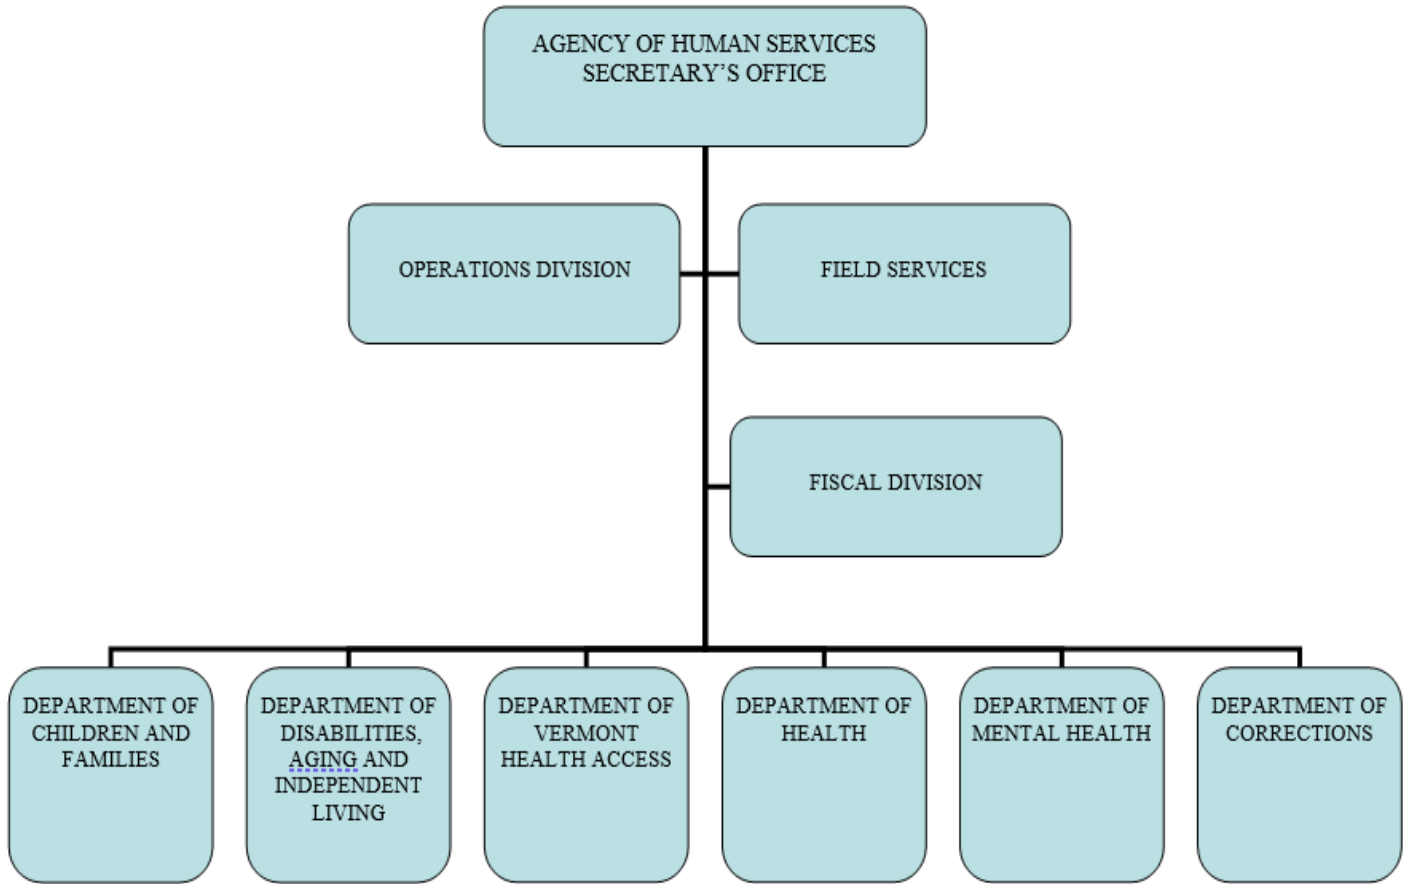

#### **I. Introduction**

The following narrative represents the cost allocation plan (CAP) for the State of Vermont, Agency of Human Services (AHS). For purposes of this narrative, AHS is also referred to as the "Office of the Secretary", as it is the Secretary's Office, which through its six member Departments and a network of community partners and providers, is responsible for the implementation and delivery of all human service programs within the state. Each Department has a distinct area of focus and responsibility and contributes to the creation and sustenance of an entire system of human service supports. As a single entity, the Agency builds a continuum of care that protects and supports vulnerable Vermonters, addresses individual, family and regional crises as they arise, develops and promotes whole population approaches to physical and behavioral health works to build economic self-sufficiency and keeps Vermont communities safe. The Departments are: Department of Children and Family Services (DCF); Department of Disabilities, Aging and Independent Living (DAIL); Department of Vermont Health Access (DVHA); the Vermont Department of Health (VDH); Department of Mental Health (DMH) and the Department of Corrections (DOC). Appropriate costs allocated as benefitting the Secretary's Office are further reallocated across all other agency-specific benefitting objectives.

The Agency of Human Services strives to improve the health and well-being of Vermonters today and tomorrow and to protect those among us who are unable to protect themselves. In carrying out this mission, the Agency vision to ensure this is to:

- The reduction of the impacts of poverty in our state and the creation of pathways out of poverty
- The promotion of health, well-being and safety in our communities
- An enhanced focus on accountability and effectiveness in achieving our goals
- The assurance of high quality health care for all Vermonters

## II. Organizational Chart

### III. Cost Allocation Methodologies

With the January 1, 2017 extension of the Global Commitment to Health 1115 Waiver, administrative costs are not included in the budget neutrality agreement. Administrative costs will be reported on the appropriate CMS-64.10 Base reporting line. However, administrative costs associated with investments that are strictly administrative in nature are subject to the budget neutrality limit and are reported on the “Investments” or “DSR investments” waiver forms. Investment administrative costs for Green Mountain Care Board, Health Research and Statistics, Patient Safety Adverse Events, and Area Health Education Centers (AHEC) receive 50% FFP.

Cost allocation methodologies are updated quarterly to reflect the U.S. Treasury’s most recent guidance regarding allowable uses of the Coronavirus Relief Fund under section 601(a) of the Social Security Act, as added by section 5001 of the Coronavirus Aid, Relief, and Economic Security Act (‘Cares Act’).

#### Organizational Unit 1: Indirect Cost Allocations

Nature and Extent of Services: The Agency of Human Services Secretary’s Office is assessed costs from the State of Vermont, Agency of Administration who negotiates the annual State Wide Indirect Cost Allocation Plan (SWICAP) with the Federal Government. The approved statewide indirect costs applicable to AHS are included in the CAP and allocated to the appropriate benefiting objectives.

Program Code	Program Name	Description	Allocation Method
10000.1	SWICAP- AHS	AHS Allocation of State Wide Indirect Costs	Positions Across AHS
10000.2	SWICAP- DAIL	DAIL Allocation of State Wide Indirect Costs	Direct to DAIL

## Organizational Unit 2: Secretary's Office

Nature and Extent of Services: The Secretary's Office for the Agency of Human Services oversees the operations of the Agency (including Administrative Support), its Divisions, and Departments.

The Health Care Reform unit is responsible for planning, implementing and coordinating health care reform initiatives across state government by overseeing collaborations for health care reform among executive branch agencies, departments, offices and the Green Mountain Care Board. This includes Medicaid policy development and interpretation for eligibility and coverage including the Global Commitment to Health Waiver, Medicaid State Plan and Children's Health Insurance Program; administers grievances, appeals and fair hearings; processes public records requests; and directs quality improvement activities. These efforts are designed around four goals: reducing health care costs and cost growth, assuring that all Vermonters have access to and coverage for high quality care, assuring greater fairness and equity in how we pay for health care, and improving the health of Vermont's population.

The Policy Division is responsible overseeing the direction of policy and planning efforts across the Agency of Human Services and its six departments. Work involves a wide range of complex policy initiatives across the spectrum of health and human services and ensuring a coordinated and integrated approach to policy development, strategic planning and direction setting, and direction setting for Agency priorities and the development, implementation and support of a culture of performance accountability. The division is responsible in defining scope, direction and priorities for AHS major legislative projects and planning.

The State Refugee Office director is a federally mandated position (45 CFR 400.2) and directs the US Resettlement Program for the state, in compliance with federal statutes and regulations.

### Organizational Unit 3: Operations Division

Nature and Extent of Services: The Chief Operations Officer oversees many of the day to day activities of the Secretary's Office, at the direction of the Agency deputy secretary. The duties can vary considerably from working to improve operational efficiency, problem solving and handling logistics to acting as EEO and ADA Officer for the agency. This wide range of responsibilities includes the following Secretary's Office units/operations:

**Boards & Commissions:** Developmental Disabilities Council – The Vermont Developmental Disabilities Council is a state-wide board led by people with developmental disabilities and their families. It is charged with conducting comprehensive review and analysis of services & supports in Vermont and informing the Governor and other policymakers about issues impacting the lives of individuals with developmental disabilities. Human Services Board – The Board is a citizen's panel consisting of seven members. Its duties are to act as a fair hearing board for appeals brought by individuals who are aggrieved by decisions or policies of departments and programs within the Agency of Human Services. SerVermont - SerVermont is Vermont's State Service Commission. Its mission is to support, promote and recognize volunteerism and community service in Vermont. SerVermont is part of the Vermont Agency of Human Services, and national service is the means through which we work on the agency's mission to improve the health and well-being of Vermonters today and tomorrow, and to protect those among us who are unable to protect themselves. Emergency Management – The Director of Emergency Management directs all aspects of activities for State Support Function 6 (mass care, emergency assistance, housing, and human services) and coordinates with all AHS Departments to meet the Agency's responsibilities for all-hazards emergency response.

Facilities – Facilities manages all of the spaces that AHS occupies in both State-owned property and leased space.

Workforce Development – Workforce development provides resources, programs, and training including leadership development, new employee orientation, and process improvement. Included in this effort is engaging the workforce in professional development, continuous improvement and organizational and cultural change.

## **B. DEPARTMENT OF CHILDREN AND FAMILIES (DCF)**

### **I. Introduction**

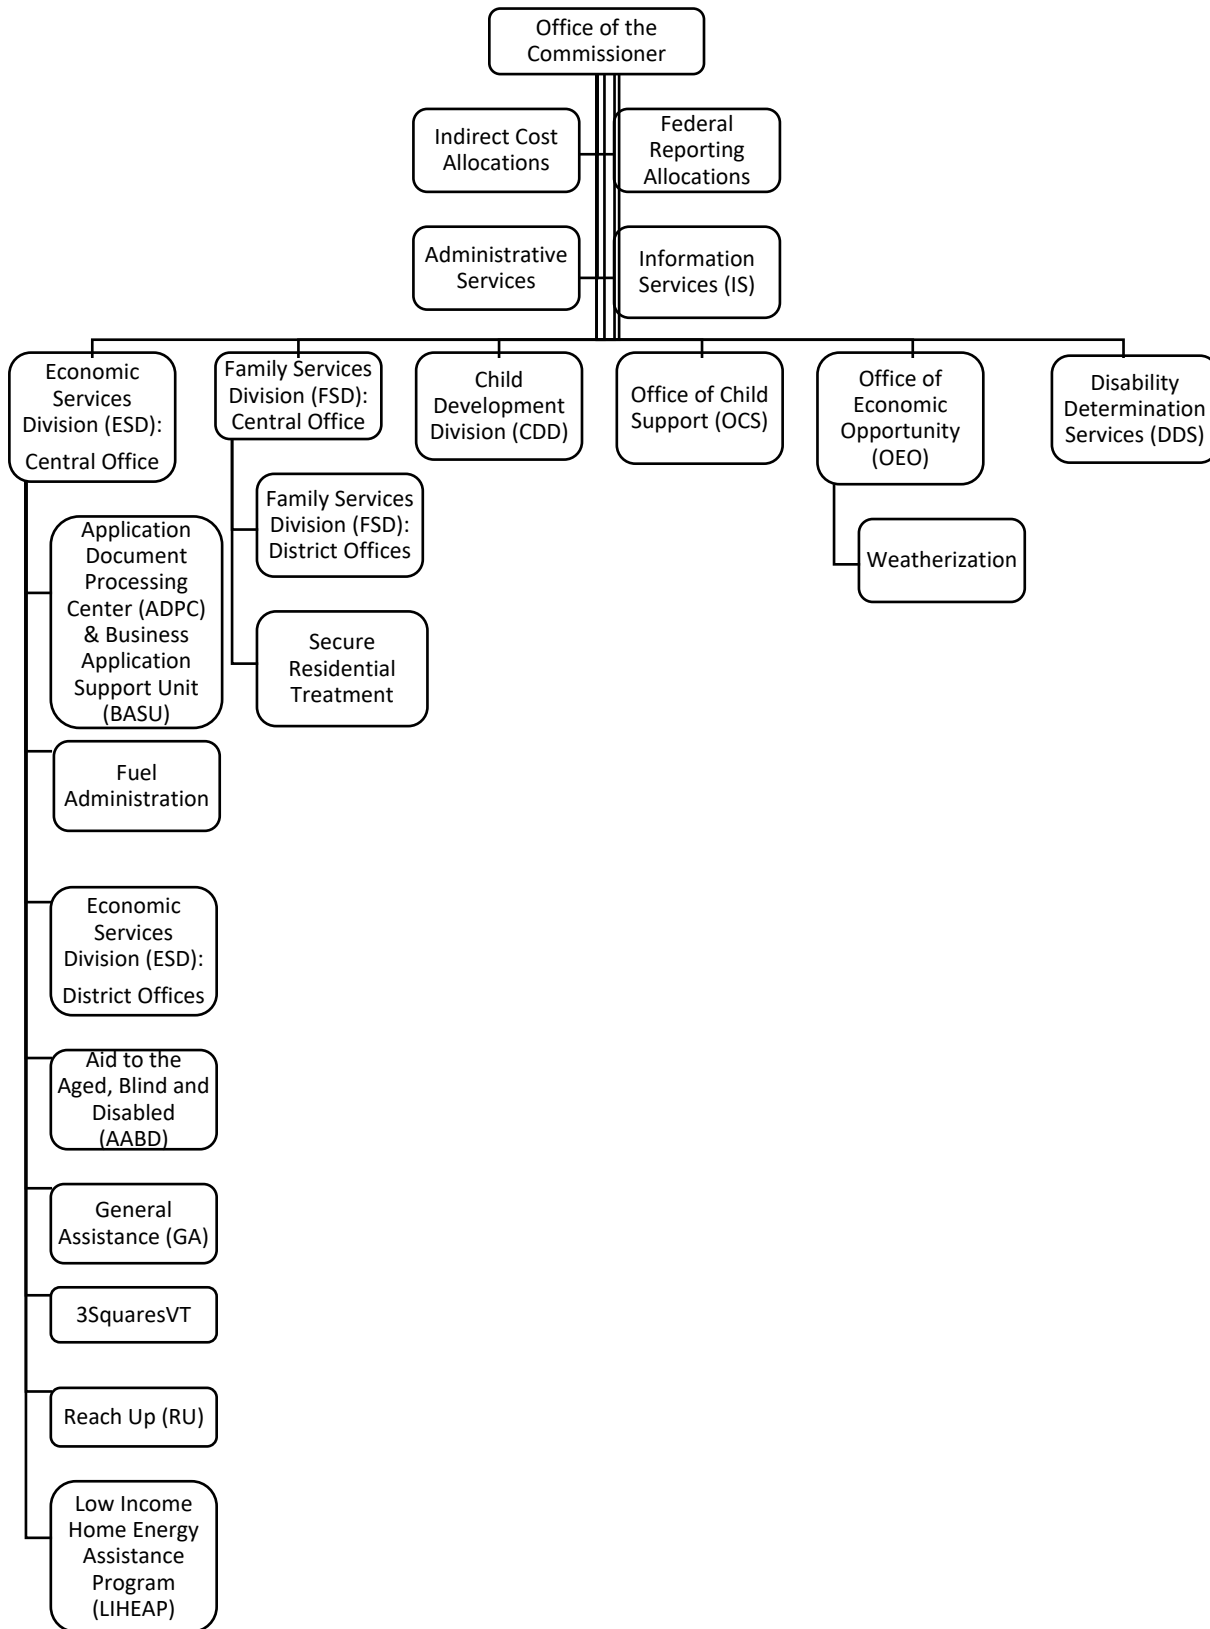

The following narrative and supporting schedules represent the public assistance cost allocation plan for the State of Vermont, Agency of Human Services (AHS), Department for Children and Family Services (DCF). DCF is the “single state agency” for the Title IV-E, Title IV-B, Title IV-D, Temporary Assistance to Needy Families (TANF), Child Care Development Fund (CCDF) and Food Stamps programs.

It is the mission of DCF to promote the social, emotional, physical, and economic wellbeing and safety of Vermont’s children and families. This work is done through the provision of protective, developmental, therapeutic, probation, economic, and other support services for children and families in partnership with schools, businesses, community leaders, service providers, families, and youths statewide.

The major Divisions and Offices within DCF are the Child Development Division (CDD), the Office of Child Support (OCS), the Family Services Division (FSD), Economic Services Division (ESD), Disability Determination Services (DDS), and the Office of Economic Opportunity (OEO).

Within this document, we have included an overview of DCF’s organizational structure and a list of the specific functions performed by DCF, referred to as plan departments or cost pools, and the allocation method for each function. Please note that cost pools are developed based on VISION program codes. VISION is the State of Vermont’s accounting system.

## II. Organizational Chart

### III. Cost Allocation Methodologies

With the January 1, 2017 extension of the Global Commitment to Health 1115 Waiver, administrative costs are not included in the budget neutrality agreement. Administrative costs will be reported on the appropriate CMS-64.10 Base reporting line. However, administrative costs associated with investments that are strictly administrative in nature are subject to the budget neutrality limit and are reported on the “Investments” or “DSR investments” waiver forms. Investment administrative costs for Green Mountain Care Board, Health Research and Statistics, Patient Safety Adverse Events, and Area Health Education Centers (AHEC) receive 50% FFP.

The program codes shown within each organizational unit represent the most likely unit(s) to charge expenses to these cost pools (with the exception of Organizational Units 1 and 10, Indirect Cost Allocations and Federal Reporting Allocations). These organizational units provide general guidance on the appropriate program code usage, but do not limit the use of a program code across Divisions when necessary.

Cost allocation methodologies are updated quarterly to reflect the U.S. Treasury’s most recent guidance regarding allowable uses of the Coronavirus Relief Fund under section 601(a) of the Social Security Act, as added by section 5001 of the Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”).

#### Organizational Unit 1: Indirect Cost Allocations

## **C. DEPARTMENT OF DISABILITIES, AGING AND INDEPENDENT LIVING (DAIL)**

### **I. Introduction**

The following narrative and supporting schedules represent the public assistance cost allocation plan (PCAP) for the State of Vermont, Agency of Human Services (AHS), Department of Disabilities, Aging and Independent Living (DAIL). DAIL is responsible for administering Title III funded programming, Section 110 programming, and developmental disabilities case management services for the State of Vermont.

#### ***DAIL Mission Statement***

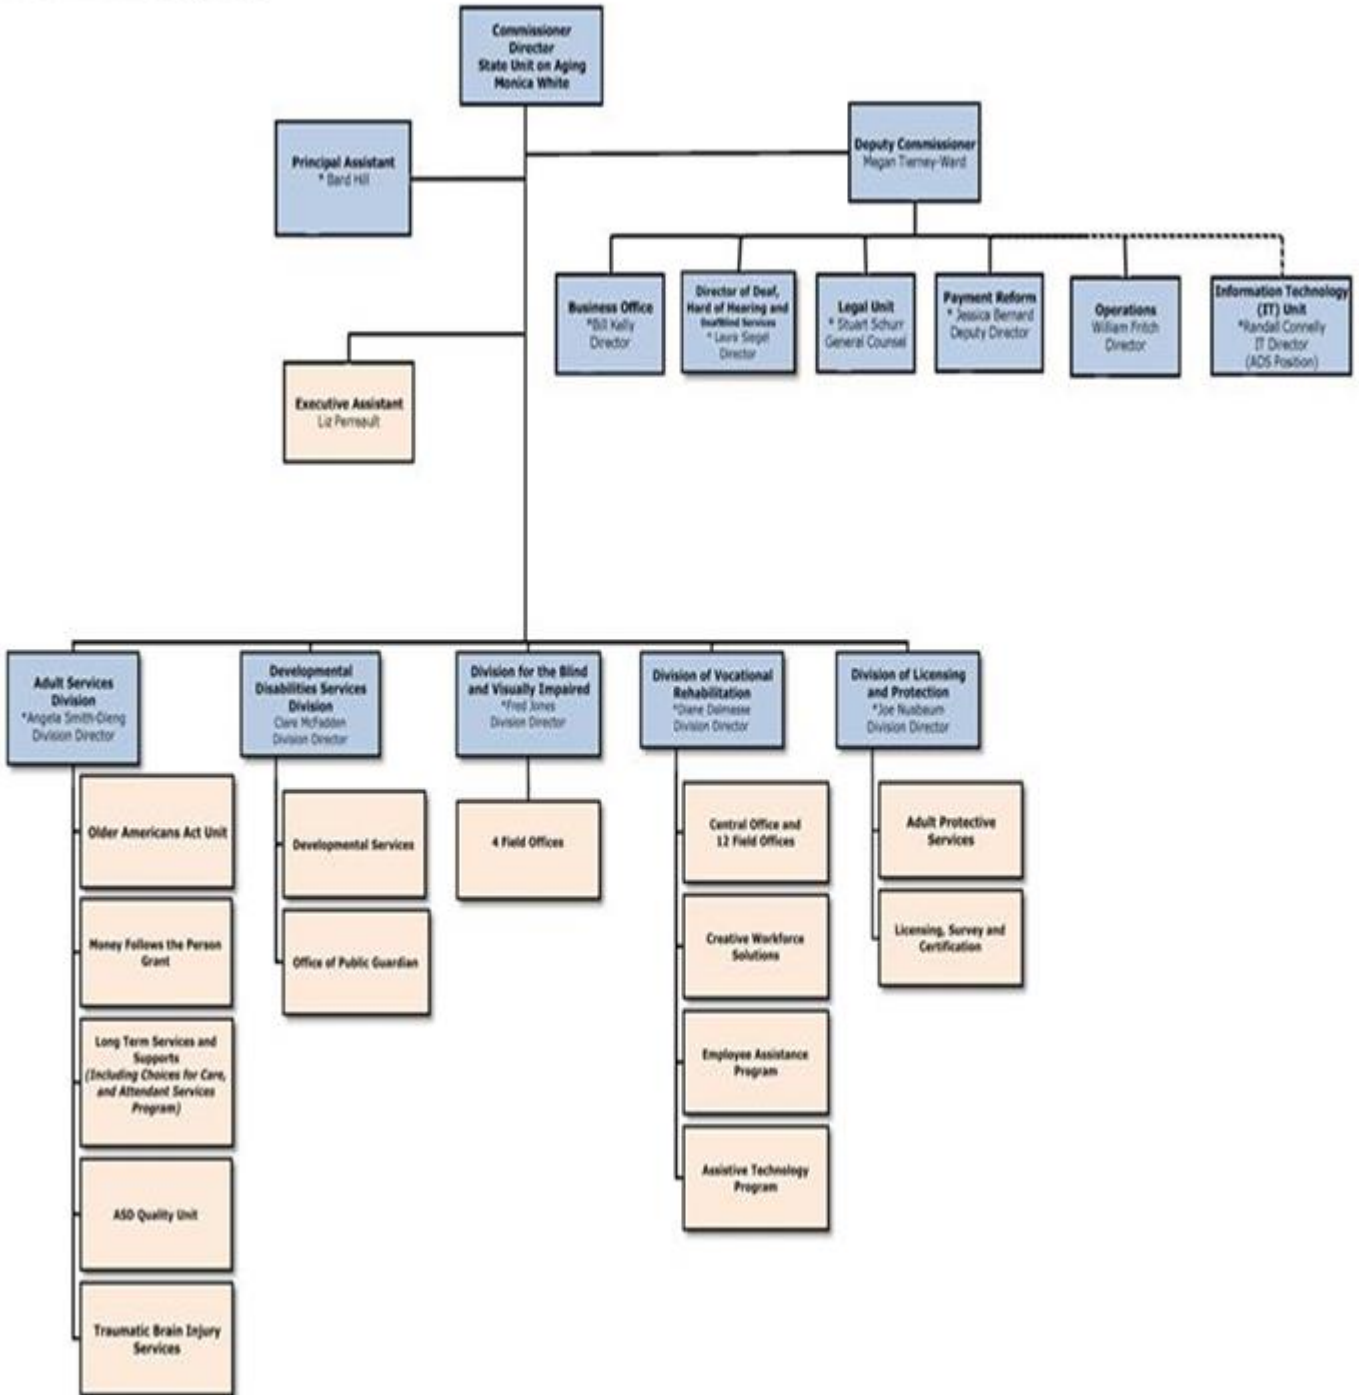

The Department of Aging and Independent Living is the center of the Agency of Human Services' program management and policy development with respect to older persons and persons with disabilities. The Department has the following goals:

- Assist older persons and adults with physical disabilities to live as independently as possible
- Assist persons with disabilities to find and maintain meaningful employment.
- Assure quality of care and life to individuals receiving health care and/or long term care services from licensed or certified health care providers and protect elderly and disabled adults from abuse, neglect and exploitation.

Within this document, we have included an overview of DAIL's organizational structure and a list of the specific functions performed by DAIL, referred to as plan departments or cost pools, and the allocation method for each function.

### III. Cost Allocation Methodologies

With the January 1, 2017 extension of the Global Commitment to Health 1115 Waiver, administrative costs are not included in the budget neutrality agreement. Administrative costs will be reported on the appropriate CMS-64.10 Base reporting line. However, administrative costs associated with investments that are strictly administrative in nature are subject to the budget neutrality limit and are reported on the “Investments” or “DSR investments” waiver forms.

Investment administrative costs for Green Mountain Care Board, Health Research and Statistics, Patient Safety Adverse Events, and Area Health Education Centers (AHEC) receive 50% FFP.

Cost allocation methodologies are updated quarterly to reflect the U.S. Treasury’s most recent guidance regarding allowable uses of the Coronavirus Relief Fund under section 601(a) of the Social Security Act, as added by section 5001 of the Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”).

#### Organizational Unit 1: Indirect Cost Allocations

DAIL is assessed costs from both the State of Vermont, called SWICAP, and the Agency of Human Services Central Office, for activities performed on its behalf.

**Organizational Unit 5: Division of Vocational Rehabilitation (VR)**

The Division of Vocational Rehabilitation administers a wide variety of programs and individual support services to assist Vermonters with a disability to enter or re-enter the work force. The core program (VR Section 110) enables Vermonters with a disability to assess their skills and abilities, identify a vocational goal, develop an Individualized Plan for Employment, and receive services leading to meaningful employment. VR invests heavily to service people with the most significant disabilities through supported employment programs and has developed a network of specialized Transition Counselors to support young adults from school to work. The Division operates the VR Reach Up program to serve TANF recipients with disabilities, a state wide Benefits Counseling Program to support Social Security beneficiaries to work, and the Assistive Technology (AT) Project that provides Vermonters with information and training on AT devices and services.

## **D. DEPARTMENT OF VERMONT HEALTH ACCESS (DVHA)**

### **I. Introduction**

The DVHA is the State office responsible for the management of Medicaid, the State Children's Health Insurance Program (CHIP), and other publicly funded health insurance programs in Vermont. Eligibility and Enrollment into Vermont's publicly funded programs is managed by the DVHA through the Health Access Eligibility and Enrollment Unit (HAEEU). The DVHA is the largest insurer in Vermont in terms of dollars spent and the second largest insurer in terms of covered lives.

The mission of the DVHA is to:

- Assist beneficiaries in accessing clinically appropriate health services.
- Administer Vermont's public health insurance system efficiently and effectively.
- Collaborate with other health care system entities in bringing evidence based practices to Medicaid beneficiaries.

During the fall of 2005, the State received approval from the Centers for Medicare and Medicaid Services (CMS) for a Section 1115 Medicaid Waiver known as "Global Commitment to Health Waiver." The Waiver allows the State to fundamentally restructure the Medicaid program and imposes a cap on the amount of federal funding available for services for the Medicaid population. The State exchanged the risk of operating under a capped funding arrangement for the opportunity to use federal Medicaid funds for non-Medicaid health programs.

The goals of the Waiver include:

1. Financial and programmatic flexibility to help maintain public health care coverage and provide for more effective services.
2. To lead in exploring new ways to reduce the number of uninsured.
3. Foster innovation within health care by focusing on health care outcomes.

The Waiver became effective October 2005, and allows the State to deviate from traditional federal Medicaid law and regulations in the following key ways:

1. Imposes a per member per month cap on federal funds.
2. Establishes the DVHA as a non-risk pre-paid inpatient health plan (PiHP).
3. Allows the State to use federal Medicaid funds for state fiscal relief and non-Medicaid health programs.
4. Provides flexibility to reduce benefits, increase cost sharing, and limit enrollment for optional and expansion populations with some limits.

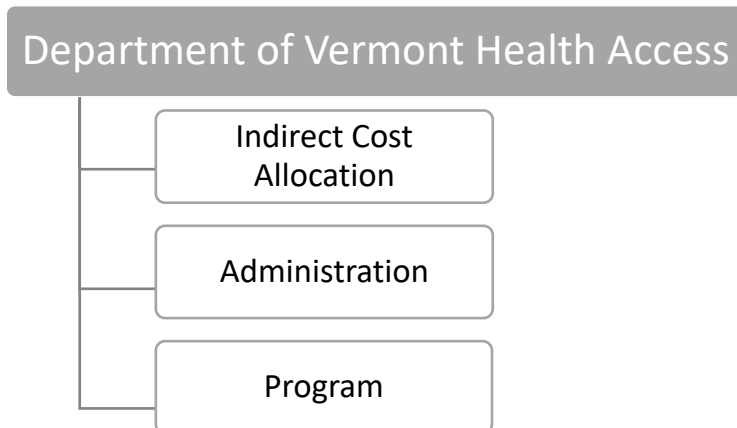

Within the Agency of Human Services (AHS), the Waiver will allow cross-departmental initiatives to obtain the greatest value from scarce health care dollars. The flexibility of the Waiver allows the State to effectively manage public resources, provide the tools necessary to make health care programs fiscally sustainable, and improve the Vermont health care system.

Under the Global Commitment to Health Waiver, the DVHA is a non-risk pre-paid inpatient health and must meet rules for Medicaid managed care. The DVHA has intergovernmental agreements (IGAs) with the AHS and AHS departments that make them part of the non-risk pre-paid inpatient health within the framework of the Global Commitment to Health Waiver. The AHS departments are: DAIL, VDH, DMH, DCF. The State desires to use the Global Commitment to Health Waiver flexibility to integrate a Chronic Care Management Program (CCMP) into a system of care that can be used to benefit Medicaid beneficiaries, providers, and the DVHA.

In FY 2020, the Administration authorized the Long-term care appropriation, the Choices for Care Global Commitment program to transfer to DAIL from DVHA per Sec. B.308 of Act H.542. DVHA has instructed the claims processor to modify the MMIS to support this change. Operationally in SFY 2020, DVHA will continue to pay the claims associated with the Choices for Care Program through an interdepartmental transfer from DAIL. Effective 7/1/2020, DAIL will pay these claims directly and DVHA will have no further Choices for Care costs reflected in its quarterly submissions.

## II. Organizational Chart

### III. Cost Allocation Methodologies

With the January 1, 2017 extension of the Global Commitment to Health 1115 Waiver, administrative costs are not included in the budget neutrality agreement. Administrative costs will be reported on the appropriate CMS-64.10 Base reporting line. However, administrative costs associated with investments that are strictly administrative in nature are subject to the budget neutrality limit and are reported on the “Investments” or “DSR investments” waiver forms.

Investment administrative costs for Green Mountain Care Board, Health Research and Statistics, Patient Safety Adverse Events, and Area Health Education Centers (AHEC) receive 50% FFP.

The program codes shown within each organizational unit represent the most likely unit(s) to charge expenses to these cost pools. These organizational units provide general guidance on the appropriate program code usage, but do not limit the use of a program code across Divisions when necessary.

Cost allocation methodologies are updated quarterly to reflect the U.S. Treasury’s most recent guidance regarding allowable uses of the Coronavirus Relief Fund under section 601(a) of the Social Security Act, as added by section 5001 of the Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”).

#### Organizational Unit 1: Indirect Cost Allocations

Nature and Extent of Services: Department of Vermont Health Access is assessed costs from both the State of Vermont, called the SWICAP, and the Agency of Human Services Central Office, for activities performed on its behalf.

## E. DEPARTMENT OF HEALTH (VDH)

### I. Introduction

The Vermont Department of Health (VDH) has three appropriations, as follows:

#### Administration appropriation

- Administration division

#### Public Health appropriation

- Emergency Preparedness, Response, and Injury Prevention
- Laboratory Sciences and Infectious Disease
- Chief Medical Examiner
- **Maternal Family** and Child Health
- Health Promotion and Disease Prevention
- Office of Local Health
- Medical Practice Board
- Environmental Health
- Health Statistics and Informatics

#### Alcohol and Drug Abuse Programs appropriation

- Division of Substance Use Programs

VDH's mission statement is as follows:

Mission: To protect and promote optimal health for all Vermonters.

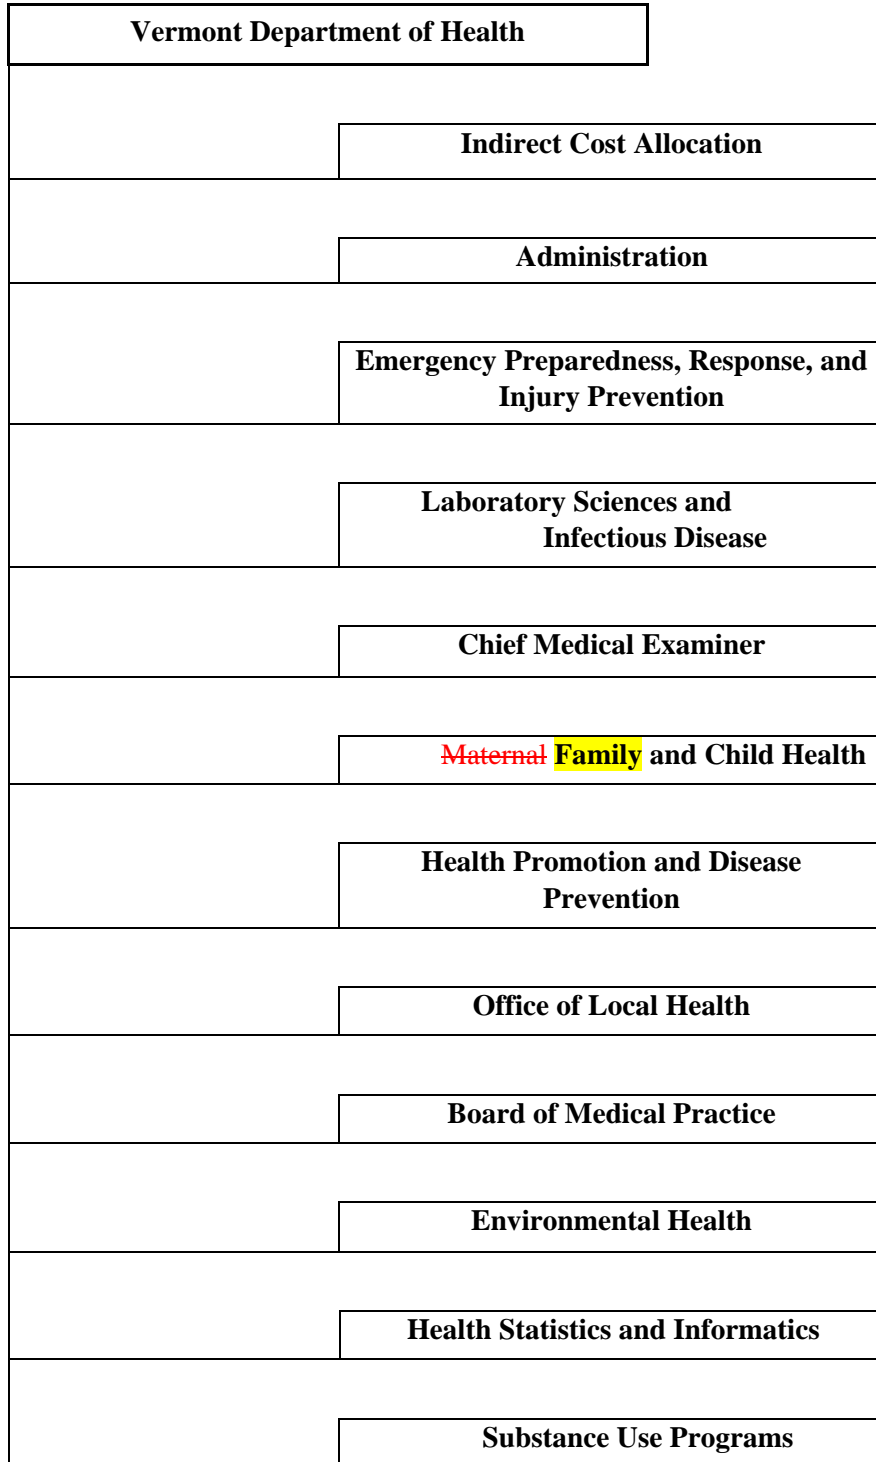

Vision: Healthy Vermonters living in healthy communities.

Goals:

1. Effective and integrated public health programs
2. Communities with the capacity to respond to public health needs
3. Internal systems that provide consistent and responsive support
4. A competent and valued workforce that is supported in promoting and protecting the public's health
5. A public health system that is understood and valued by Vermonters
6. Health equity for all Vermonters

Within this document we have included an overview of VDH's organizational structure and a list of the specific functions performed by VDH, the program code associated with the function, and the allocation method for each function.

## II. Organizational Chart

### III. Cost Allocation Methodologies

With the January 1, 2017 extension of the Global Commitment to Health 1115 Waiver, administrative costs are not included in the budget neutrality agreement. Administrative costs will be reported on the appropriate CMS-64.10 Base reporting line. However, administrative costs associated with investments that are strictly administrative in nature are subject to the budget neutrality limit and are reported on the “Investments” or “DSR investments” waiver forms.

Investment administrative costs for Green Mountain Care Board, Health Research and Statistics, Patient Safety Adverse Events, and Area Health Education Centers (AHEC) receive 50% FFP.

Cost allocation methodologies are updated quarterly to reflect the U.S. Treasury’s most recent guidance regarding allowable uses of the Coronavirus Relief Fund under section 601(a) of the Social Security Act, as added by section 5001 of the Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”).

#### Organizational Unit 1: Indirect Cost Allocations

Nature and Extent of Services: Vermont Department of Health is assessed costs from both the State of Vermont, called the SWICAP, and the Agency of Human Services Central Office, for activities performed on its behalf.

## Organizational Unit 2: Administration

Nature and Extent of Services: The following program codes, descriptions, and allocation methods are for costs associated with the Commissioner's Office; Information Technology Services; Health Planning; Department Operations, and the Business Office. It had been standard practice that any staff person in the department can code costs to any program code in the department if that code is the most appropriate description of the cost until the May 16, 2013 payday. At that time the State of Vermont converted to a new payroll system. The only Cost Allocation implication of this new payroll system is that employees are given a limited number of program codes from which to choose. However, the practice is to add program codes to employees' list of available codes upon request so that any program code is made available to any employee. There have not been changes in the pattern of time reporting as a result. These program codes are shown within this Division as an approximate guide to the most likely users of these codes.

Detailed explanations of individual functions are included below.

## Organizational Unit 6: **Maternal Family** and Child Health

Nature and Extent of Services: The following program codes, descriptions, and allocation methodologies are costs associated with the various programs in support of **Maternal Family** and Child Health, including the following:

- **Maternal Family** and Child Health – administers the Maternal and Child Health federal block grant and monitors and works to improve the system of health care for women, children and families, including the work through the School Based Medicaid Administration Claiming (MAC) and the Vermont Child Health Improvement Project at the University of Vermont;
- Children with Special Health Needs – provides and/or assures that health care and support services are available to children (0-21) who have complex health problems and to their families;
- WIC – federally funded program to enhance the health of infants, young children, pregnant women, and new mothers.
- Family Planning.

(It is standard practice that any staff person in the department can code costs to any program code in the department if that code is the most appropriate description of the cost. These program codes are shown within this Division as an approximate guide to the most likely users of these codes.)

The **Maternal Family** and Child Health Division includes the School Based Medicaid Administration Claiming (MAC) program, code 39758. A key element in this program is the web-based random moment time study (RMTS) designed and implemented by the University of Massachusetts, our contractor, in cooperation with the Vermont Department of Health (VDH). VDH submitted descriptions of the RMTS to the Division of Cost Allocation and then to CMS in 2010 and 2011. There were a series of phone conversations with CMS and revisions and re-submission of documents describing the implementation of the RMTS during 2011. A letter approving Vermont's RMTS was sent by CMS Region I on May 16, 2013. Vermont did not receive this letter, however, until a copy was forwarded by DCA on November 25, 2014. The CMS letter approved the RMTS subject to ten conditions. Vermont accepts these conditions.

Specifically,

1. Vermont agrees to amend this Cost Allocation Plan whenever there is a change from the RMTS methodology approved by CMS.
2. Vermont agrees that any CMS guidelines related to RMTS or other elements of our claims will be promptly incorporated into our program on a prospective basis.
3. Vermont agrees to seek CMS advance review of any forms or documents that are subsequently developed for this program.
4. Vermont agrees to continue to monitor the overall implementation of the RMTS and to review all claims submitted.
5. Vermont agrees to monitor the RMTS for appropriateness of the use of activity codes by coders and for the proper implementation of the RMTS methodology.
6. Vermont agrees to report to CMS any changes in: the number of RMTS moments to be included in the sample (as described in the "VDH Implementation Guide for Statewide RMTS," Section 1(B) and Appendix A, Section II); the statistical validity of the sample selection and sample results; any changes in the criteria for inclusion of contractual staff in the sample; and any changes in services or administrative activities performed.
7. Vermont agrees to provide oversight of any outside entity contracted to operate or monitor the time study, as described in the "VDH Implementation Guide for Statewide RMTS," Section II, "Oversight and Monitoring."
8. Vermont agrees to submit any changes from the approved plan to CMS prior to implementation. Any such changes will be submitted as a change to this Cost Allocation Plan.
9. Vermont agrees that any costs claimed are subject to review or audit.
10. Vermont agrees to monitor the time study to assure proper use of activity codes and proper application of the methodology.

Detailed explanations of individual functions are included below.

## **F. DEPARTMENT OF MENTAL HEALTH (DMH)**

### **I. Introduction**

The Department of Mental Health (DMH) was established by the state legislature effective July 1, 2007.

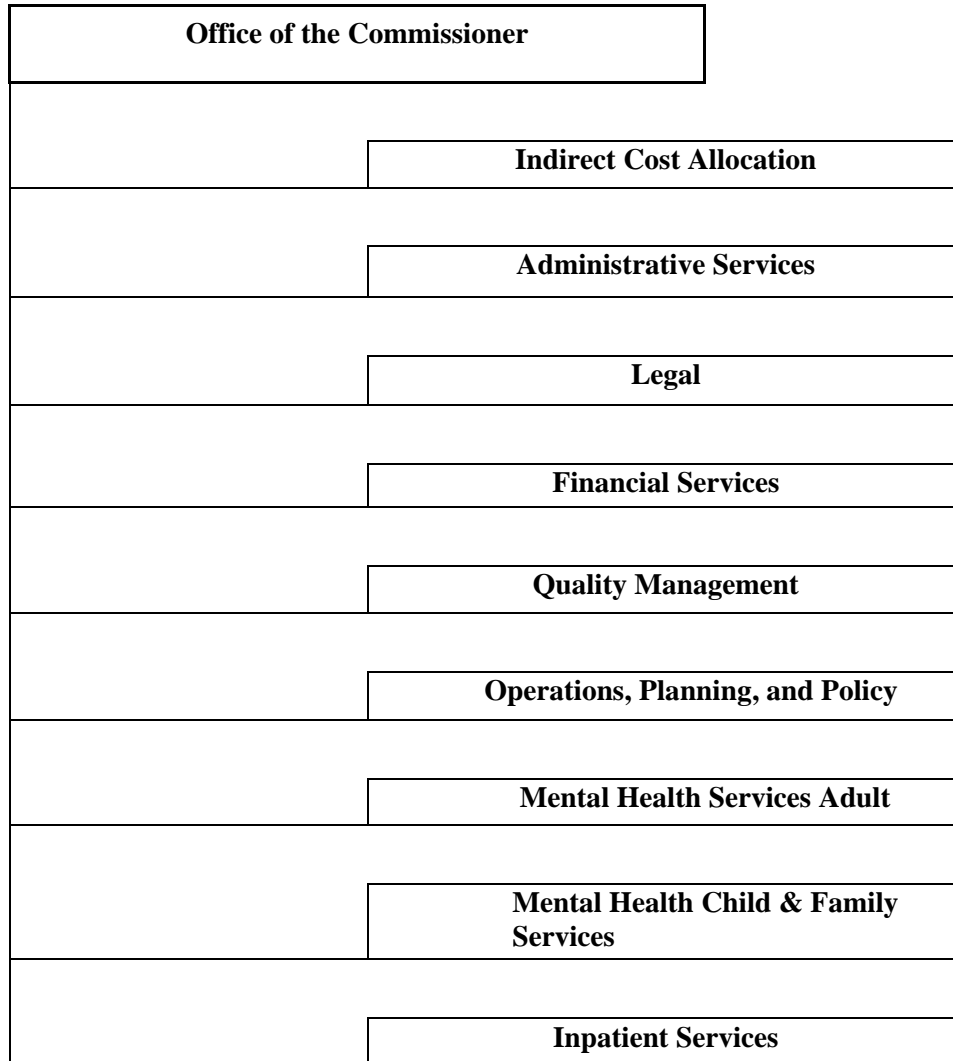

Within this document, we have included an overview of DMH's organizational structure, and a list of the specific functions performed by DMH, referred to as plan departments or cost pools, and the allocation method for each function. Please note that the plan department numbers correspond to internal AHS program codes, from the state accounting system. Our cost allocation plan (CAP) narrative is broken out into organizational areas called "cost centers" that are based on the sections of our organizational chart. Cost centers are comprised of various plan departments or units of cost that fall under each cost center.

Staff at DMH direct code their time to the programs they support throughout their workday. DMH staff enters their time into the state's payroll system. When staff enter timesheet information, they "direct code" their time and the data feeds the VISION accounting system. Staff performing support functions will use their assigned VISION code unless they work on a specific function where they are required to direct code their time to a specific function or program. Staff who works across multiple programmatic and direct service areas will code their time appropriately to multiple VISION codes. 100% of staff time is recorded. As a result, the staff costs in each VISION code are from staff recording their time, and an individual's cost may appear in more than one code, though it cannot exceed the total cost of that employee.

**II. Organizational Chart**

DMH has set up our cost allocation plan narrative to mirror the organizational structure under which it operates. Section VI of this document describes, in narrative form, our cost allocation process. We have included a table that breaks out each of our cost pools, which mimic the boxes below on the organization chart; the narrative and organizational chart crosswalk to one another, and the narrative further describes the programs that the units within DMH administer.

### III. Cost Allocation Methodologies

With the January 1, 2017 extension of the Global Commitment to Health 1115 Waiver, administrative costs are not included in the budget neutrality agreement. Administrative costs will be reported on the appropriate CMS-64.10 Base reporting line. However, administrative costs associated with investments that are strictly administrative in nature are subject to the budget neutrality limit and are reported on the “Investments” or “DSR investments” waiver forms. Investment administrative costs for Green Mountain Care Board, Health Research and Statistics, Patient Safety Adverse Events, and Area Health Education Centers (AHEC) receive 50% FFP.

Cost allocation methodologies are updated quarterly to reflect the U.S. Treasury’s most recent guidance regarding allowable uses of the Coronavirus Relief Fund under section 601(a) of the Social Security Act, as added by section 5001 of the Coronavirus Aid, Relief, and Economic Security Act (‘Cares Act’).

This method is used to allocate costs to the DVHA Pharmacy unit and Pharmacy Benefit Manager. The method is updated quarterly and utilizes pharmacy paid claim count to Global Commitment and CHIP. The data is sourced from an MMIS-based query that is run by the DVHA Business Office.

**QU - Quarterly VHC enrollment for GC, DSHP (75% FMAP), CHIP and QHP:**

This method is similar to “Case Count between CHIP, VHC, and Medicaid 75%” with the exception that the final receiver is labeled “OAPD” and is used for OAPD related contractual and staff costs.

**QU - Quarterly VHC Enrollment for Global Commitment, CHIP, Designated State Health Programs (DSHP) and QHP:**

This method is used to allocate costs to DVHA VHC Operations program codes. This data is updated quarterly according to the average enrollment count for Global Commitment, CHIP and QHP populations with VPA. The source data comes exclusively from the VHC Effectuation Report.

**QU - Quarterly VHC enrollment for MAGI and DSHP (90/10) and QHP Level 1C:**

This allocation method is used for Exchange Level 1 and Level 2 EBCP Contracts and Staff. The data is updated quarterly according to the average enrollment of QHP without VPA (allocating to Level 1C Final Receiver). A second line contains Medicaid, CHIP, and QHP with VPA which allocates to a 90/10 Integrated Eligibility IAPD. The source data comes exclusively from the VHC Effectuation Report.

**Results of HAEEU Random Moment Time Study:**

Due to the varying nature of HAEEU’s work, CMS and AHS Central Office agreed to the utilization of a Random Moment Time Study (RMTS) to allocate staff costs based activity. Each activity corresponds with a specific set of funding sources by population or by direct activity type. Throughout the quarter HAEEU staff are required to populate a randomized study and are prompted with questions about their most recent activities. These Sample Results from EasyRMTS™ feed into a spreadsheet that is used to manually populate intermediate codes in AlloCAP™ by activity type. A designated HAEEU supervisor reviews subsample responses throughout the quarter and invalidates incorrect responses. Based on the percentage splits in the intermediate codes, the funding is broken out by final receiver and program code. The data source for these samples is EasyRMTS™, and the data is uploaded quarterly. It becomes available on the first business day of the month after the end of a quarter.

**Results of HAEEU Random Moment Time Study - Not Enhanced:**

This allocation method is identical to the one described above, with the exception that only non-enhanced Global Commitment activities are included in the data. Some examples of enhanced activities NOT included in the data are VHC eligibility determinations, case reviews, eligibility notices, etc. This method is updated quarterly, and the data source for samples is EasyRMTS™.

**Total hours across all program codes:**

This allocation method is used to distributed indirect costs for AHS Central Office. Based on a distribution of the DVHA staff hours per program code, the AlloCAP™ system is set up to group those codes by the appropriate Final Receiver. This data is updated quarterly and is populated by the State of Vermont’s VTHR system data.

**Total hours across all program - less BO:**

This allocation method is used for the DVHA Business Office and functions as described above, however the hours from the Business Office itself are removed as to not skew the distribution.

**Total hours across all program - less Commissioner's Office:**

This allocation method is used for the DVHA Commissioner's Office and functions as described above, however the hours from the Commissioner's Office itself are removed as to not skew the distribution.

**Total hours across all program - less PI:**

This allocation method is used for the DVHA Program Improvement and functions as described above, however the hours from the Program Improvement itself are removed as to not skew the distribution.

**Total hours across DVHA program - less DVHA Systems Staff:**

This allocation method is used for the DVHA Systems Staff and functions as described above, however the hours from the DVHA Systems Staff itself are removed as to not skew the distribution.

**RMTS DETAILS**

The random moment time study (RMTS) is a survey process that includes all of the activities performed by the Economic Services Division (ESD), Benefit Programs Specialists (BPS) within the Vermont Department for Children and Families (DCF). An updated study begins on July 1, 2015. Participating staff are those who support multiple programs administered by DCF in ESD. Based on these observations, the total effort of a group of employees is determined with a high degree of confidence that approximates the same results as having observed employees for 100% of their time at work. The results of the RMTS are used in the quarterly cost allocation plan (CAP) to allocate department costs to reimbursable and non-reimbursable areas. This level of detail is required for DCF to participate in federal claiming efforts.

The RMTS must be conducted on a continuous basis to support quarterly claiming efforts.

We thank participants in advance for their time and cooperation. Please direct all questions to either Public Consulting Group, Inc. (PCG) at [vtcdfbps@pcgus.com](mailto:vtcdfbps@pcgus.com) or DCF at [AHS.DCFESDOverdueReport@vermont.gov](mailto:AHS.DCFESDOverdueReport@vermont.gov). Participants may also call the PCG hotline at 866-912-2983.

**How to Complete the Random Moment Time Study**

Participants receive an e-mail that directs them to a website via a web link (<https://PCGEasyRMTS.com>). Participants log in to the system and then answer several different questions. Depending on the answers to the questions, they select from a list of individual activity and program codes.

After answering all of the questions provided, the user selects a Submit button to respond to the survey. The surveys must be completed within 72 hours. Participants receive a reminder e-mail 24-hours and 48-hours after each moment if the survey has not yet been completed. If a participant is working on a case, the worker is asked to provide the client's first initial, last name, and client's Case ID as a unique case identifier. If a Case ID isn't available, please include the client's initials.

The RMTS is mandatory and must be completed in a timely manner. Every survey that is assigned must be completed! Moments stay 'live' in the system for 72 hours so if a participant is on leave for a short time, they must still complete the moment upon their return.

**Participants should not consider client eligibility for any specific program when responding to a moment. Moment responses should be chosen based on the activity or function being performed at the time of the moment, not the eligibility of a case or client.**

**RECORDING VHC ACTIVITIES**

DCF BPS staff may connect Medicaid applicants to the Vermont Health Connect (VHC, the State's Health Insurance Exchange) to seek enrollment in a qualified health plan and premium tax credit and cost sharing reduction programs through the federal exchange. Staff activities in support of Medicaid or VHC eligibility determinations are considered to be part of the Medicaid program for the purpose of completing this time study.

For example: If participants direct a client to VHC, provide them with the website or phone number for VHC, connect them with HAEU staff, or provide the applicant with information on how to apply for the health insurance programs offered by the VHC, participants would select the following activity and program code combination:

**ROOT QUESTION**

The following describes each of the activities available to RMTS participants. Activities performed and programs administered on behalf of the client are described below. *Please note that meetings, phone calls, e-mails, filing, driving, and similar other administrative tasks should be tied to the activity that they are in support of; these are not general administrative activities unless they are truly not tied to a case.*

***The first question a participant is asked when completing the time study is: Were you working on a Case or on behalf of a client? The participant responds Yes or No.***

*For the purpose of the RMTS, a case is any client where you are actively working on assisting the client to access or continue accessing state or federal benefit programs. Please review the following examples for clarity.*

1. *If you are performing lobby monitoring to assist a potential client apply for a federal or state assistance program, regardless of whether a case has been opened, it is considered a case-related activity; select the Eligibility Determination and Redetermination activity and then select the federal or state program to which the client is applying.*
2. *If you are performing lobby monitoring and directing a potential client to the Vermont Health Insurance Exchange, it is considered a case-related activity; select the Eligibility Determination and Redetermination activity and then select the Medicaid program.*
3. *If you are performing lobby monitoring and there is no one in the lobby at the time of your assigned moment, it is not considered a case-related activity; select General Administrative and General Training Activities as your activity and you will not be asked to select a program(s) that the effort was in support of.*

**After selecting Yes or No, the participant is asked to first identify their activity, and then select the program(s) the activity is associated with at the time of moment. Example – if activity is related to SNAP, participant should select SNAP even if the case is open to or associated with multiple programs.**

**Please select the activity you are performing at the time of your moment, not the type of case.**

If the participant selects yes to the root question, they are then asked: “Were you performing an activity related to eligibility determination or redetermination? ***The participant responds Yes or No.***

If the participant responds yes, they are asked to choose from a list of eligibility determination or redetermination specific activities. If the participant responds no, they are asked to choose from a list of other case specific activities.

## XII. APPENDICES

### A. ACCOUNTING SYSTEM CHART OF ACCOUNTS

The State of Vermont Financial and accounting system VISION is used to meet the state's accounting and financial reporting responsibilities. VISION is an acronym for Vermont Integrated System for Information and Organizational Needs. VISION is a PeopleSoft product.

VISION-Financials is a Web based Oracle/PeopleSoft enterprise financial management system utilizing the following modules: Travel & Expense, General Ledger, Accounts Payable, Purchasing, Accounts Receivable, Billing, Asset Management, Inventory, and Sub recipient Grant Tracking (VT custom module). The system is managed by the Department of Finance & Management in conjunction with the Department of Information & Innovation.

The Chart of Accounts for VISION include the following fields:

Chartfield Name	Length	Description
Business Unit	5 numeric	Identifies the Governmental Agency/Department established Statutorily or Administratively.
Account	6 numeric	Classifies the nature of the operation transactions. Holds the detail coding values for assets, liabilities, equity, revenues, and expenses/expenditure transactions.
Fund	5 numeric	Maintains the fiscal and accounting entities in which financial resources and the use of those resources are grouped according to Statute, regulation, or current accounting standards.
Dept ID	10 numeric	Identifies Governmental Agency/Department operation unit subdivisions.
Program	5 numeric	Maintains a description and a set of objectives toward which activities and resources are directed. AHS uses this field for CAP cost pools.
Class	5 alpha/numeric	Used to track activities relating to programs across program lines based on departmental, administrative, or legislative needs.
Project	15 alpha/numeric	Captures and controls project or grant information which funding sources are applied.
Affiliate	5 numeric	Reference Business unit for intrastate transactions
