GCR 23-047  
FINAL

## **Residential Substance Use Disorder Treatment Value-Based Payment Model**

### **Policy Summary:**

Vermont Medicaid will continue the value-based purchasing component of the episodic payment model for residential substance use disorder treatment. The value-based payment component consists of up to a 1% payment to providers, which will be paid based on performance in addition to the episodic rates. These measures link payment to performance to support enhanced quality of care for Medicaid members.

Detailed information about the measures and scoring methodology are provided in the Additional Information section below.

### **Effective Date:**

January 1, 2024

### **Authority/Legal Basis:**

[Medicaid State Plan](#)

[Global Commitment to Health Waiver](#): Waiver authority #5 [Section 1902(a)(13), 1902(a)(30)]; Special Term and Condition #6.8.

### **Population Affected:**

All Medicaid

### **Fiscal Impact:**

This policy continuation is expected to be budget neutral.

### **Public Comment Period:**

The public comment period ended on January 22, 2024. No comments were received.

### **Additional Information:**

*Residential Substance Use Disorder Treatment Facilities Value-Based Payment Measures*

<b>Measure #1: % of admissions with a treatment plan within 6 days.<sup>a</sup></b>	
Data Source	Annual Audit results

Data Retrieved By	VDH Division of Substance Use from Providers
Data Schedule	Annual for previous calendar year
Measure Type	Case
Measure Category	How Well & Better Off
Specifications for Calculations	<ul style="list-style-type: none"> <li>• DSU will send client names and admission dates for audit quarterly.</li> <li>• Provider will self-audit client charts and record evidence of a treatment plan present and the date the treatment plan was completed.</li> <li>• Numerator = number of admissions that had a treatment plan in their chart <math>\leq 6</math> days<sup>a</sup> from the date of admission.</li> <li>• Denominator = all admissions during the calendar year that were audited and were not discharged <math>\leq 5</math> days<sup>a</sup></li> </ul>
Population	<p>All admissions during the calendar year are eligible to be audited. This measure includes only those who were not discharged <math>\leq 5</math> days<sup>a</sup>.</p> <p>Audit 10% of all records from each facility (ex. VV = 80, RH = 35)</p>
Value-Based Payments Benchmarks	<ul style="list-style-type: none"> <li>• Minimum performance required to receive any points: <math>&gt;70\%</math> of admissions have a treatment plan within 6 days<sup>a</sup></li> <li>• Target performance to receive maximum points = 100%</li> </ul>
Scoring	Eligible for up to 3 points (using “Gate and Ramp” methodology)
a. or the # of days required under the certification expectations as of the end of the waiver.	

<b>Measure #2: % of admissions with aftercare plans that include follow-up with substance use treatment (at least one of the following: primary care physician, mental health, wrap-around, and/or substance use counseling).<sup>b</sup></b>	
Data Source	Annual Audit results
Data Retrieved By	VDH Division of Substance Use from Providers
Data Schedule	Annual for previous calendar year
Measure Type	Case
Measure Category	How Well & Better Off
Specifications for Calculations	<ul style="list-style-type: none"> <li>• DSU will send client names and admission dates for audit quarterly.</li> <li>• Provider will self-audit client charts and record evidence of an after-care plan present and the type of substance use treatment contained in the aftercare plan (primary care physician, mental health, wrap-around, and/or substance use counseling).</li> <li>• Numerator = number of admissions that had an after-care plan in their chart that contained at least one type of substance use treatment.</li> <li>• Denominator = all admissions during the calendar year that were audited and were not discharged <math>\leq 5</math> days.</li> </ul>
Population	<p>All admissions during the calendar year are eligible to be audited. Those in this measure may not have been discharged. Excluded are those clients in this measure discharged <math>\leq 5</math> days.</p> <p>Audit 10% of all records from each facility (ex. VV = 80, RH = 35)</p>
Value-Based Payments Benchmarks	<ul style="list-style-type: none"> <li>• Minimum performance required to receive any points: <math>&gt;80\%</math> of admissions have an aftercare plan.</li> </ul>

	<ul style="list-style-type: none"> <li>Target performance to receive maximum points = 90%</li> </ul>
Scoring	Eligible for up to 3 points (using “Gate and Ramp” methodology)
b. Consider: best practice is client record should indicate client’s preference.	

<b>Measure #3: % of admissions with stays of seven or more days.</b>	
Data Source	MMIS for Calendar Year
Data Retrieved By	VDH Division of Substance Use
Data Schedule	Annual for previous calendar year
Measure Type	Claims
Measure Category	Better Off (research <sup>c</sup> shows stays of 7 or more days lead to improved outcomes)
Specifications for Calculations	<ul style="list-style-type: none"> <li>All discharges in the period (i.e., 1/1/2023 through 12/31/2023), regardless of readmission.</li> <li>Numerator = total number of discharges with stays of 7 or more days</li> <li>Denominator = all discharges during that period.</li> </ul>
Population	All clients discharged during the period (regardless of initial admission/readmission dates).
Value-Based Payments Benchmarks	<ul style="list-style-type: none"> <li>Minimum performance required to receive any points: 65%</li> <li>Target performance to receive maximum points = 90%</li> </ul>
Scoring	Eligible for up to 4 points (using “Gate and Ramp” methodology)
c. Predictive validity of two process-of-care quality measures for residential substance use disorder treatment, Harris <i>et al. Addiction Science &amp; Clinical Practice (2015) 10:22</i> DOI 10.1186/s13722-015-0042-5
