Pharmacy Blood Pressure Monitors

Policy Summary:

The Vermont Medicaid program covers blood pressure monitors obtained through pharmacy providers. Prior to this change, members could only obtain blood pressure monitors from enrolled durable medical equipment (DME) providers. This change allows access to blood pressure monitors at Vermont Medicaid enrolled pharmacies in Vermont.

Pharmacists can order and dispense blood pressure monitors to Medicaid members, when medically necessary. The clinical criteria for medical necessity at a pharmacy will be the same as the DME coverage criteria, see clinical coverage criteria linked below.

The Department of Vermont Health Access will use the following price calculation for blood pressure monitors when Vermont Medicaid is the primary payer. Payment will be reimbursed at the lower of the following:

- a. The National Drug Average Acquisition Cost (NADAC) + Professional Dispensing Fee;
- b. The Wholesale Acquisition Cost (WAC) + 0% + Professional Dispensing Fee;
- c. The State Maximum Allowable Cost (SMAC) + Professional Dispensing Fee;
- d. Federal Upper Limit (FUL) + PDF
- e. AWP-19% + Professional Dispensing Fee;
- f. Submitted Ingredient Cost + Professional Dispensing Fee;
- g. The provider's Usual and Customary (U&C) charges; or
- h. The Gross Amount Due (GAD)

A Professional Dispensing Fee of \$11.13 will apply. This methodology ensures that blood pressure monitors are reimbursed at no more than the DME payment amount.
