PROPOSED

Update to ABA Payment Methodology Language

Policy Summary:

The Vermont Medicaid program proposes to add language in the Vermont Medicaid Applied Behavior Analysis (ABA) Supplement, specific to funding methodologies (Section 2, page 5).

VT Medicaid generally pays for ABA services using two separate funding methodologies depending on the beneficiary's insurance status; Case Rate for individuals with Medicaid as their sole insurance, and fee-for-service for individuals who have other insurance coverage in addition to Medicaid. This additional language ensures that Vermont Medicaid retains the right to require a provider to file claims using an alternative payment methodology as part of a Corrective Action Plan if a provider fails to follow billing requirements for originally assigned methodology.
