FINAL

## **Electronic Visit Verification Claims Monitoring**

### **Policy Summary:**

Vermont Medicaid implemented up front claims monitoring for electronic visit verification (EVV) for home health services. The Medicaid Management Information System (MMIS) system will deny claims for home health services with incomplete or non-compliant EVV data with a date of service on or after January 1, 2024. This applies to home health services billed by home health agencies. This change is a requirement for implementation of EVV according to Sec. 12006 of the 21st Century CURES Act.

Sec. 12006 of the 21st Century CURES Act requires states to implement an EVV system for all Medicaid personal care services and home health services. The EVV requirement for personal care services was effective January 1, 2021, and home health services effective January 1, 2023.

### EVV systems must verify:

- Type of service performed
- Date of service
- Time the service starts and ends
- Location of service delivery
- Individual providing the service
- Individual receiving the service

### **Effective Date:**

January 1, 2024

### **Authority/Legal Basis:**

[CURES Act Section 12006\(a\)\(1\)\(A\)](#)

[Medicaid State Plan](#)

[Global Commitment to Health Waiver](#)

### **Population Affected:**

All Medicaid

**Fiscal Impact:**

This change is expected to be budget neutral.

**Public Comment Period:**

The public comment period ended December 06, 2023. No comments were received.
