Rate Increase for Second Spring Residential Facilities

Policy Summary:

The Vermont Medicaid program proposes to increase the daily billable rate by 3% for Second Spring North and South residential facilities. This increases the rate from \$973.27 to \$1,002.47. This increase is a result of funds appropriated by the legislature in Bill H.883. These facilities are intensive residential care facilities serving the Community Rehabilitation and Treatment (CRT) population.

The overall reimbursement methodology for Second Spring Residential Facilities remains unchanged. The facilities will receive an estimated daily rate, which represents anticipated costs to meet the target utilization of 90% of the total bed days available. At the end of the fiscal year a reconciliation will be done. New rates will be established to ensure that actual costs are covered plus a gain of 1.5% up to the maximum budget for this service. Rates do not include room and board.
