AGENCY OF HUMAN SERVICES

OFFICE OF THE SECRETARY  
280 State Drive  
Waterbury, Vermont 05671-1000

June 2024

Mr. Darryl Mayes  
Director, Division of Cost Allocation  
Department of Health and Human Services  
26 Federal Plaza, Room 41-122  
New York, New York 10278

Mr. Mayes:

Attached is the Vermont Agency for Human Services' (AHS) cost allocation plan amendment, effective January 1, 2024, with required certifications.

In compliance with the CAS requirements in the Public Assistance Cost Allocation Plan (PACAP) Checklist, changes to the documents from the previous submission have been identified using bold, yellow highlighted font and all deletions have been identified using red, strike-out font. Changes pre-dating the current quarter have been identified using blue font accompanied by an effective date of the change.

This submission includes ongoing cost pools to track allowable expenses for the federal appropriations enacted by P.L. 116-127 (Families First Coronavirus Response Act), P.L. 116-136 (Coronavirus Aid, Relief, and Economic Security Act, known as the "CARES Act"), P.L. 116-260 (Consolidated Appropriations Act, 2021), and P.L. 117-2 (American Rescue Plan Act of 2021), as well as the AHS emergency response to the COVID pandemic.

To reduce the size of this document, we will include the SPMP and RMTS material only when there is a change to the materials. We will include a statement in section XI. Time Tracking, Time Study Information and Training Guides and Appendix C. SPMP Job Descriptions and Claiming Methodologies, indicating that there were no changes in the quarter being submitted to affirm this understanding. The time study and SPMP information will be retained in our CAP files and will be available upon request.

This amendment contains a number of description changes which are presented to ease review of the amendment and are not substantive in nature.

Please contact Richard Donahey 802-241-0442 or [AHS.COCAP@vermont.gov](mailto:AHS.COCAP@vermont.gov) if you have any questions.

Sincerely,

DocuSigned by:

## I. CERTIFICATIONS

### CERTIFICATION OF OUTSIDE COSTS

I hereby certify that wherever costs are claimed for services provided by a governmental agency outside the State of Vermont Agency of Human Services that they will be supported by a written agreement that includes at a minimum: (i) the specific services(s) being purchased; (ii) the basis upon which the billing will be made by the provider agency (e.g., time reports, number of homes inspected, etc.); and (iii) a stipulation that the billing will be based on the actual costs incurred, except where the cost involved are specifically addressed in the State of Vermont Agency of Human Services Public Assistance cost allocation plan. The person signing the certifications must have at least a high-level understanding of the plan and its purpose.

I declare that the foregoing is true and correct.

#### **IV. INTRODUCTION**

The Vermont Agency of Human Services (AHS) mission is to improve the conditions and well-being of Vermonters and protect those who cannot protect themselves. Whether helping a family access health care or child care, protecting a young child from abuse, supporting youth and adults through addiction and recovery, providing essential health promotion and disease prevention services, reaching out to elder Vermonters in need of at-home or nursing home assistance, enabling individuals with disabilities to have greater independence, or supporting victims and rehabilitating offenders, AHS serves Vermonters with compassion, dedication, and professionalism. AHS has operated since 1969 to serve as the umbrella organization for all human service activities within state government.

The Departments under AHS are: Department of Children and Family Services (DCF), Department of Disabilities, Aging and Independent Living (DAIL), Department of Vermont Health Access (DVHA), Vermont Department of Health (VDH), Department of Mental Health (DMH), and the Department of Corrections (DOC). Appropriate costs allocated as benefitting the Secretary's Office are further reallocated across all other agency-specific benefitting objectives, as described throughout this narrative.

For the administration of the CAP, AHS and the Departments use a web-based software tool to calculate the quarterly CAP results. AHS and each of the Departments have their own unique version of the application to run their costs through the software. Effective 7/1/2015, AHS switched to the web-based, proprietary cost allocation software, AlloCAP™; therefore, the quarter ending 9/30/2015 was the first quarter that processed using the software. The software was configured specific to the needs of AHS and each of the Departments' expenditures to appropriately allocate costs as described in the CAP narrative herein. The AlloCAP™ software is hosted on the vendor's server; the vendor is Public Consulting Group, Inc. (PCG). AHS is responsible for processing the CAP and does so at the close of each quarter using the vendor's software.

AlloCAP™ allows the user to import quarterly expenditure data. The data is coded according to the codes assigned to the costs in the state's accounting system and utilized to identify costs in the CAP narrative. These common cost pools are then applied against the appropriate statistics for allocation purposes, as described in the rest of this CAP narrative. Statistics allocate cost pools (Program Codes) using a four step-down methodology. Cost pools and assigned allocation statistics are identified further in this CAP narrative. Statistics used include time study results, total cost methodologies, case counts, position counts, etc. Through AlloCAP™, AHS and the Departments also have access to reports that describe where the money gets allocated to, which allocation methods are used for each cost pool, and what statistics are assigned for each allocation method.

## **IX. COST ALLOCATION METHODOLOGIES AND DEPARTMENTAL ORGANIZATIONAL CHARTS**

### **A. AHS SECRETARY'S OFFICE**

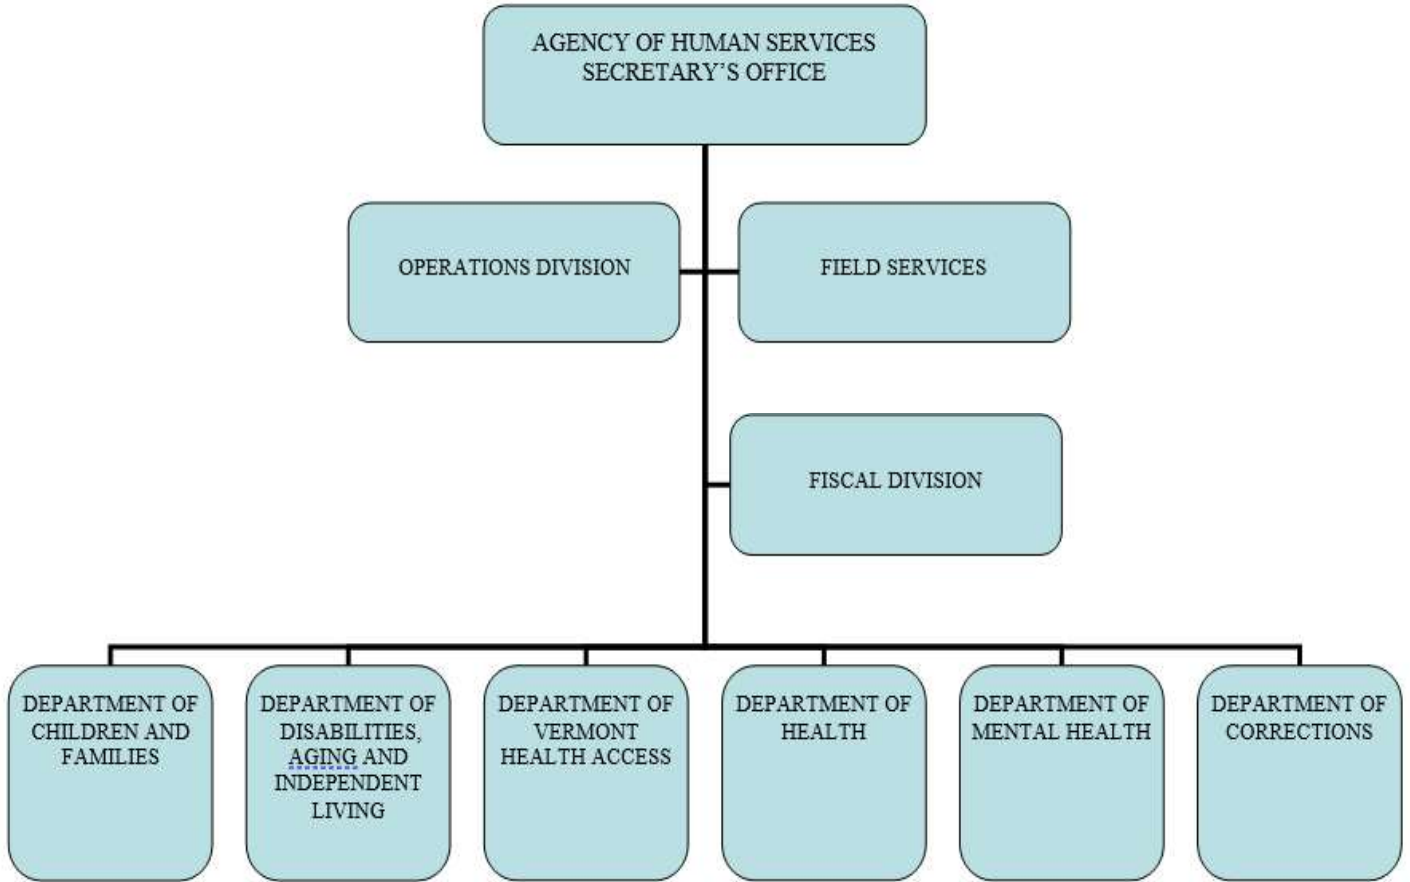

#### **I. Introduction**

The following narrative represents the cost allocation plan (CAP) for the State of Vermont, Agency of Human Services (AHS). For purposes of this narrative, AHS is also referred to as the "Office of the Secretary", as it is the Secretary's Office, which through its six member Departments and a network of community partners and providers, is responsible for the implementation and delivery of all human service programs within the state. Each Department has a distinct area of focus and responsibility and contributes to the creation and sustenance of an entire system of human service supports. As a single entity, the Agency builds a continuum of care that protects and supports vulnerable Vermonters, addresses individual, family and regional crises as they arise, develops and promotes whole population approaches to physical and behavioral health works to build economic self-sufficiency and keeps Vermont communities safe. The Departments are: Department of Children and Family Services (DCF); Department of Disabilities, Aging and Independent Living (DAIL); Department of Vermont Health Access (DVHA); the Vermont Department of Health (VDH); Department of Mental Health (DMH) and the Department of Corrections (DOC). Appropriate costs allocated as benefitting the Secretary's Office are further reallocated across all other agency-specific benefitting objectives.

The Agency of Human Services strives to improve the health and well-being of Vermonters today and tomorrow and to protect those among us who are unable to protect themselves. In carrying out this mission, the Agency vision to ensure this is to:

- The reduction of the impacts of poverty in our state and the creation of pathways out of poverty
- The promotion of health, well-being and safety in our communities
- An enhanced focus on accountability and effectiveness in achieving our goals
- The assurance of high quality health care for all Vermonters

## II. Organizational Chart

### III. Cost Allocation Methodologies

With the January 1, 2017 extension of the Global Commitment to Health 1115 Waiver, administrative costs are not included in the budget neutrality agreement. Administrative costs will be reported on the appropriate CMS-64.10 Base reporting line. However, administrative costs associated with investments that are strictly administrative in nature are subject to the budget neutrality limit and are reported on the “Investments” waiver forms. Investment administrative costs for Health Research and Statistics, Patient Safety Adverse Events, and Area Health Education Centers (AHEC) receive 50% FFP.

#### Organizational Unit 1: Indirect Cost Allocations

Nature and Extent of Services: The Agency of Human Services Secretary’s Office is assessed costs from the State of Vermont, Agency of Administration who negotiates the annual State Wide Indirect Cost Allocation Plan (SWICAP) with the Federal Government. The approved statewide indirect costs applicable to AHS are included in the CAP and allocated to the appropriate benefiting objectives.

## Organizational Unit 2: Secretary's Office

Nature and Extent of Services: The Secretary's Office for the Agency of Human Services oversees the operations of the Agency (including Administrative Support), its Divisions, and Departments.

The Health Care Reform unit is responsible for planning, implementing and coordinating health care reform initiatives across state government by overseeing collaborations for health care reform among executive branch agencies, departments, offices and the Green Mountain Care Board. This includes Medicaid policy development and interpretation for eligibility and coverage including the Global Commitment to Health Waiver, Medicaid State Plan and Children's Health Insurance Program; administers grievances, appeals and fair hearings; processes public records requests; and directs quality improvement activities. These efforts are designed around four goals: reducing health care costs and cost growth, assuring that all Vermonters have access to and coverage for high quality care, assuring greater fairness and equity in how we pay for health care, and improving the health of Vermont's population.

The Policy Division is responsible overseeing the direction of policy and planning efforts across the Agency of Human Services and its six departments. Work involves a wide range of complex policy initiatives across the spectrum of health and human services and ensuring a coordinated and integrated approach to policy development, strategic planning and direction setting, and direction setting for Agency priorities and the development, implementation and support of a culture of performance accountability. The division is responsible in defining scope, direction and priorities for AHS major legislative projects and planning.

The State Refugee Office director is a federally mandated position (45 CFR 400.2) and directs the US Resettlement Program for the state, in compliance with federal statutes and regulations.

### Organizational Unit 3: Operations Division

Nature and Extent of Services: The Chief Operations Officer oversees many of the day to day activities of the Secretary's Office, at the direction of the Agency deputy secretary. The duties can vary considerably from working to improve operational efficiency, problem solving and handling logistics to acting as EEO and ADA Officer for the agency. This wide range of responsibilities includes the following Secretary's Office units/operations:

**Boards & Commissions:** Developmental Disabilities Council – The Vermont Developmental Disabilities Council is a state-wide board led by people with developmental disabilities and their families. It is charged with conducting comprehensive review and analysis of services & supports in Vermont and informing the Governor and other policymakers about issues impacting the lives of individuals with developmental disabilities. Human Services Board – The Board is a citizen's panel consisting of seven members. Its duties are to act as a fair hearing board for appeals brought by individuals who are aggrieved by decisions or policies of departments and programs within the Agency of Human Services. SerVermont - SerVermont is Vermont's State Service Commission. Its mission is to support, promote and recognize volunteerism and community service in Vermont. SerVermont is part of the Vermont Agency of Human Services, and national service is the means through which we work on the agency's mission to improve the health and well-being of Vermonters today and tomorrow, and to protect those among us who are unable to protect themselves.

**Emergency Management** – The Director of Emergency Management directs all aspects of activities for State Support Function 6 (mass care, emergency assistance, housing, and human services) and coordinates with all AHS Departments to meet the Agency's responsibilities for all-hazards emergency response.

**Facilities** – Facilities manages all of the spaces that AHS occupies in both State-owned property and leased space.

**Workforce Development** – Workforce development provides resources, programs, and training including leadership development, new employee orientation, and process improvement. Included in this effort is engaging the workforce in professional development, continuous improvement and organizational and cultural change.

## **B. DEPARTMENT OF CHILDREN AND FAMILIES (DCF)**

### **I. Introduction**

The following narrative and supporting schedules represent the public assistance cost allocation plan for the State of Vermont, Agency of Human Services (AHS), Department for Children and Family Services (DCF). DCF is the “single state agency” for the Title IV-E, Title IV-B, Title IV-D, Temporary Assistance to Needy Families (TANF), Child Care Development Fund (CCDF) and Food Stamps programs.

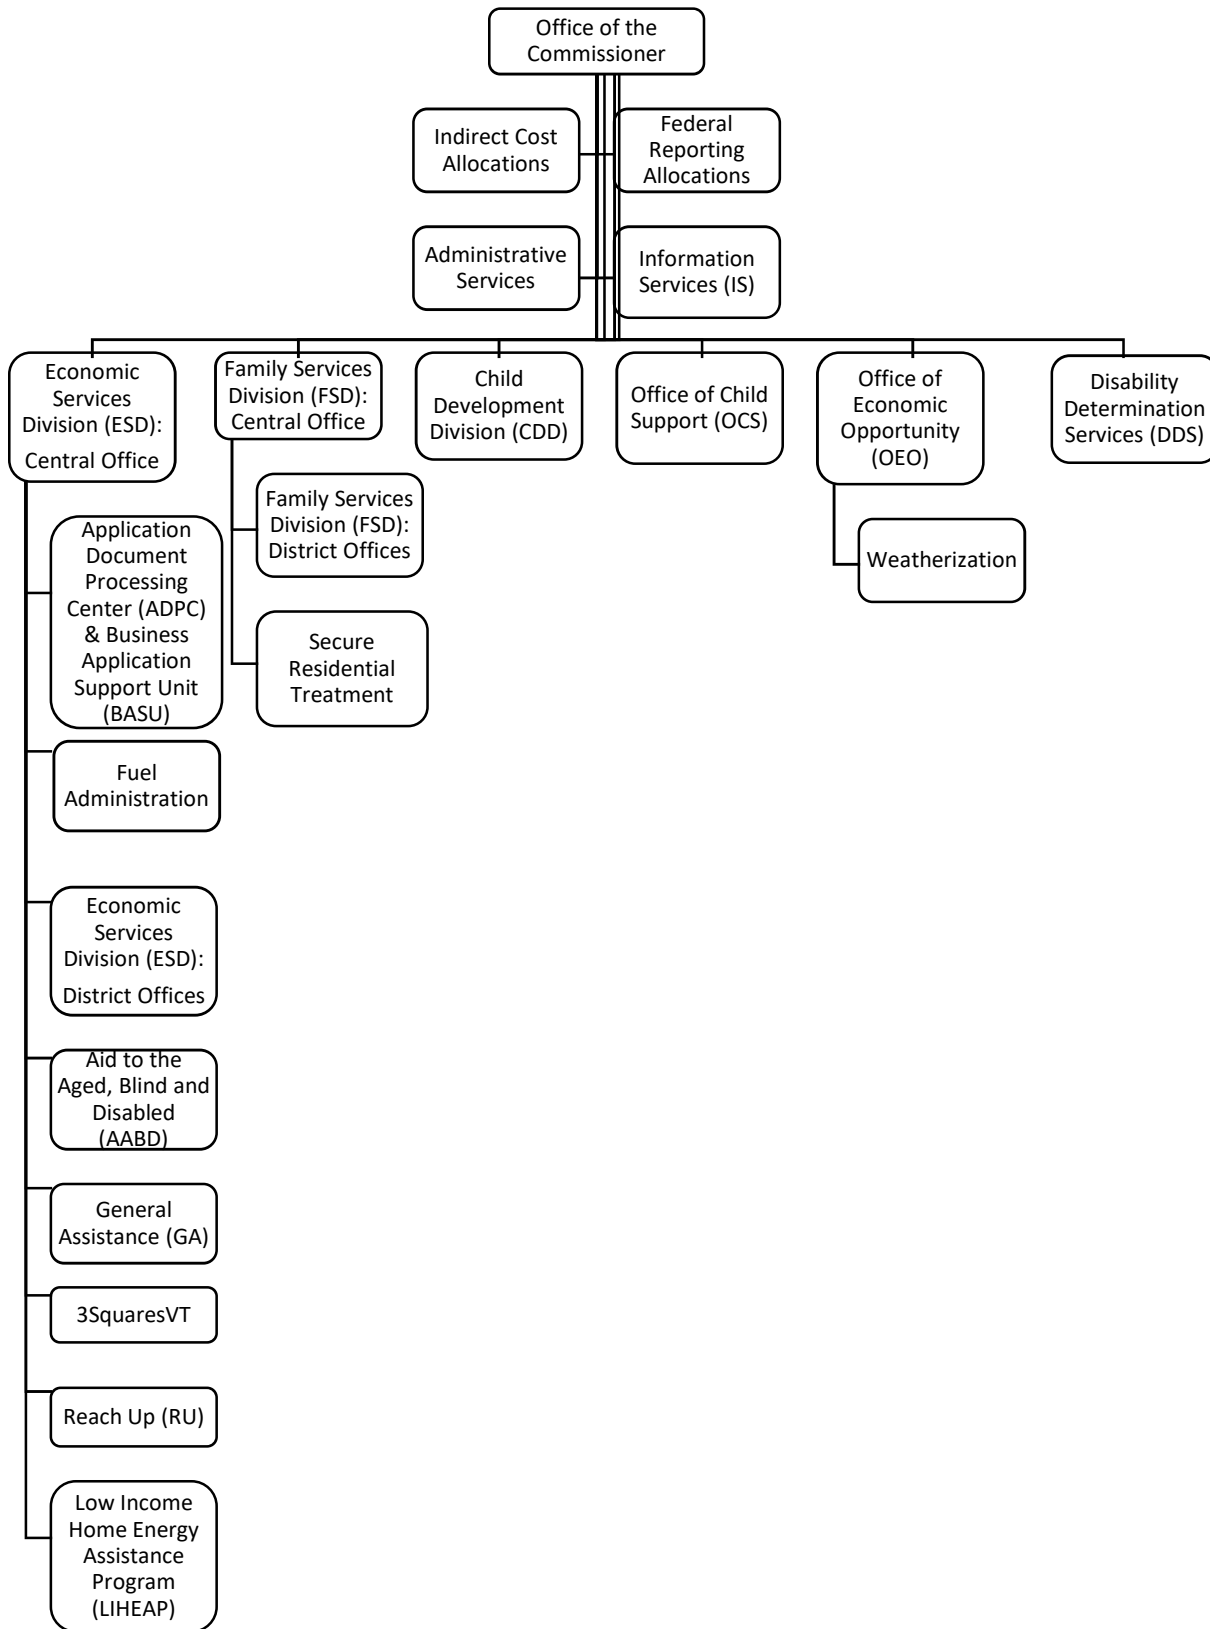

It is the mission of DCF to promote the social, emotional, physical, and economic wellbeing and safety of Vermont’s children and families. This work is done through the provision of protective, developmental, therapeutic, probation, economic, and other support services for children and families in partnership with schools, businesses, community leaders, service providers, families, and youths statewide.

The major Divisions and Offices within DCF are the Child Development Division (CDD), the Office of Child Support (OCS), the Family Services Division (FSD), Economic Services Division (ESD), Disability Determination Services (DDS), and the Office of Economic Opportunity (OEO).

Within this document, we have included an overview of DCF’s organizational structure and a list of the specific functions performed by DCF, referred to as plan departments or cost pools, and the allocation method for each function. Please note that cost pools are developed based on VISION program codes. VISION is the State of Vermont’s accounting system.

II. Organizational Chart

### III. Cost Allocation Methodologies

With the January 1, 2017, extension of the Global Commitment to Health 1115 Waiver, administrative costs are not included in the budget neutrality agreement. Administrative costs will be reported on the appropriate CMS-64.10 Base reporting line. However, administrative costs associated with investments that are strictly administrative in nature are subject to the budget neutrality limit and are reported on the “Investments” waiver forms. Investment administrative costs for Health Research and Statistics, Patient Safety Adverse Events, and Area Health Education Centers (AHEC) receive 50% FFP.

The program codes shown within each organizational unit represent the most likely unit(s) to charge expenses to these cost pools (with the exception of Organizational Units 1 and 10, Indirect Cost Allocations and Federal Reporting Allocations). These organizational units provide general guidance on the appropriate program code usage, but do not limit the use of a program code across Divisions when necessary.

#### Organizational Unit 1: Indirect Cost Allocations

The Department for Children and Families (DCF) is assessed costs from both the State of Vermont, called the SWICAP, and the Agency of Human Services Central Office, for activities performed on its behalf.

## C. DEPARTMENT OF DISABILITIES, AGING AND INDEPENDENT LIVING (DAIL)

### I. Introduction

The following narrative and supporting schedules represent the public assistance cost allocation plan (PCAP) for the State of Vermont, Agency of Human Services (AHS), Department of Disabilities, Aging and Independent Living (DAIL). DAIL is responsible for administering Title III funded programming, Section 110 programming, and developmental disabilities case management services for the State of Vermont.

#### *DAIL Mission Statement*

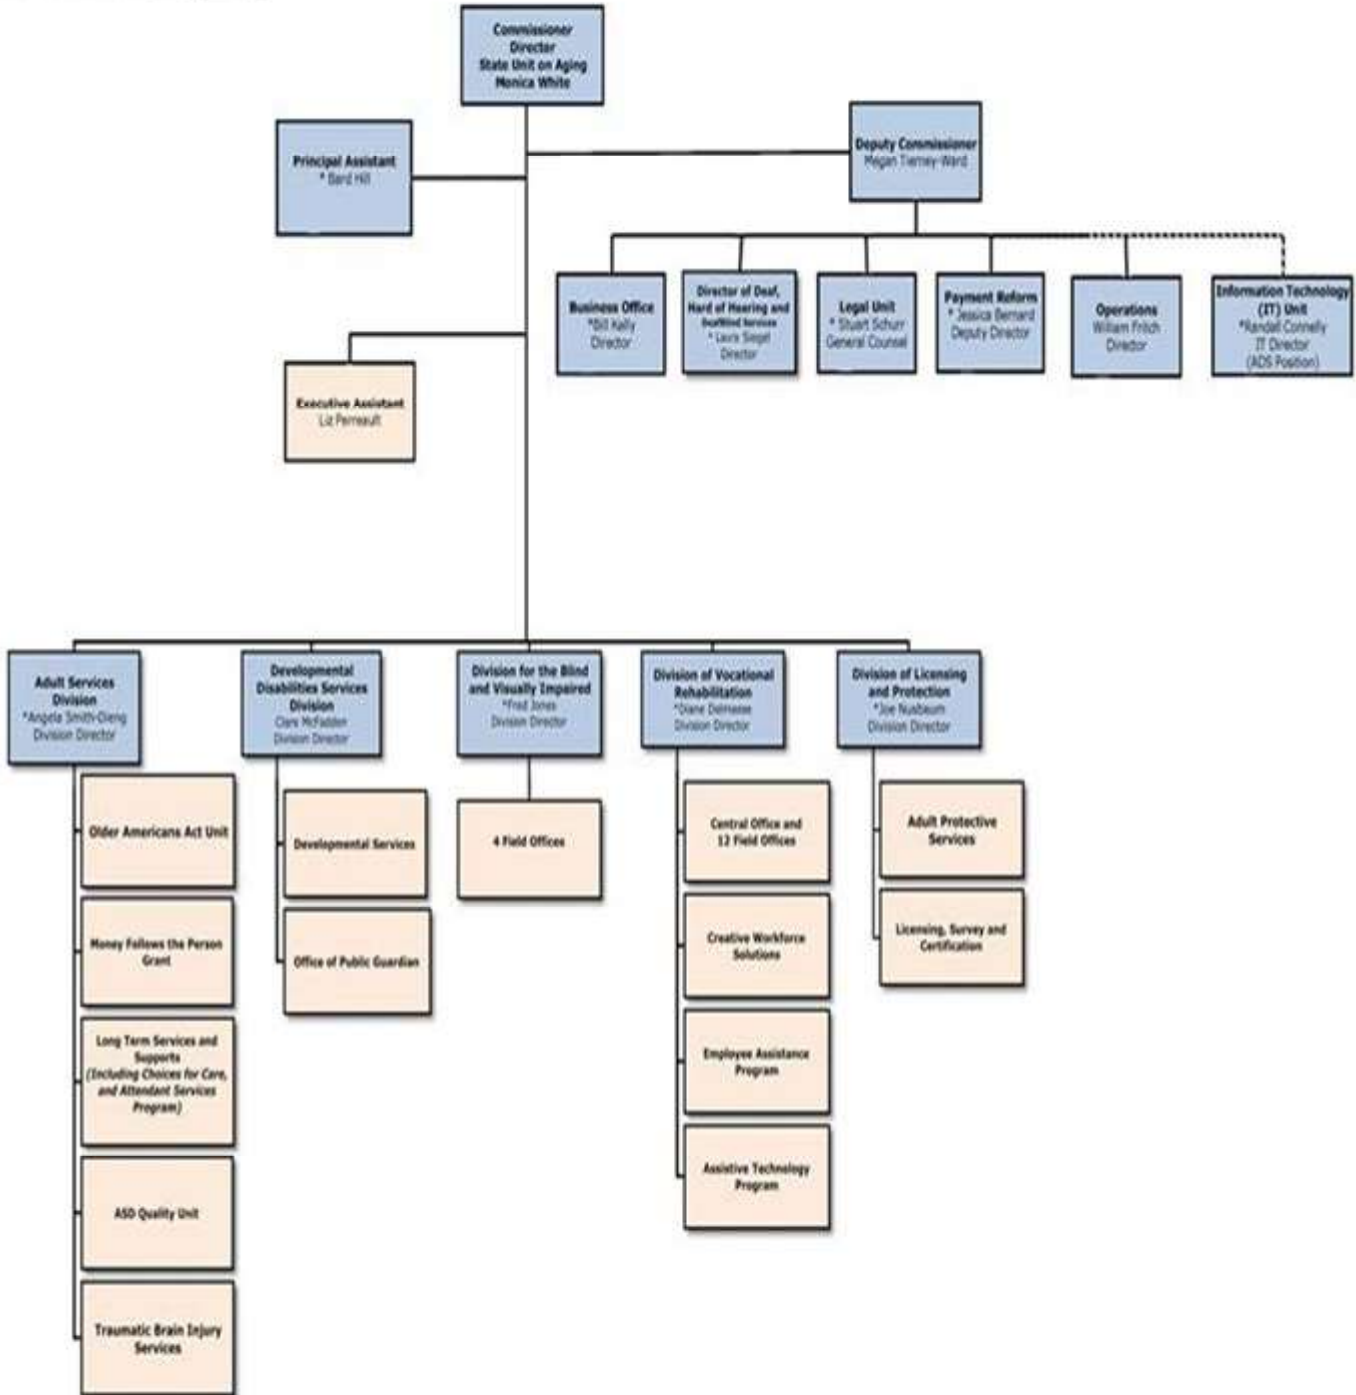

The Department of Aging and Independent Living is the center of the Agency of Human Services' program management and policy development with respect to older persons and persons with disabilities. The Department has the following goals:

- Assist older persons and adults with physical disabilities to live as independently as possible
- Assist persons with disabilities to find and maintain meaningful employment.
- Assure quality of care and life to individuals receiving health care and/or long term care services from licensed or certified health care providers and protect elderly and disabled adults from abuse, neglect and exploitation.

Within this document, we have included an overview of DAIL's organizational structure and a list of the specific functions performed by DAIL, referred to as plan departments or cost pools, and the allocation method for each function.

## II. Organizational Chart

### III. Cost Allocation Methodologies

With the January 1, 2017 extension of the Global Commitment to Health 1115 Waiver, administrative costs are not included in the budget neutrality agreement. Administrative costs will be reported on the appropriate CMS-64.10 Base reporting line. However, administrative costs associated with investments that are strictly administrative in nature are subject to the budget neutrality limit and are reported on the “Investments” waiver forms.

Investment administrative costs for Health Research and Statistics, Patient Safety Adverse Events, and Area Health Education Centers (AHEC) receive 50% FFP.

#### Organizational Unit 1: Indirect Cost Allocations

DAIL is assessed costs from both the State of Vermont, called SWICAP, and the Agency of Human Services Central Office, for activities performed on its behalf.

### Organizational Unit 5: Division of Vocational Rehabilitation (VR)

The Division of Vocational Rehabilitation administers a wide variety of programs and individual support services to assist Vermonters with a disability to enter or re-enter the work force. The core program (VR Section 110) enables Vermonters with a disability to assess their skills and abilities, identify a vocational goal, develop an Individualized Plan for Employment, and receive services leading to meaningful employment. VR invests heavily to service people with the most significant disabilities through supported employment programs and has developed a network of specialized Transition Counselors to support young adults from school to work. The Division operates the VR Reach Up program to serve TANF recipients with disabilities, a state wide Benefits Counseling Program to support Social Security beneficiaries to work, and the Assistive Technology (AT) Project that provides Vermonters with information and training on AT devices and services.

## **D. DEPARTMENT OF VERMONT HEALTH ACCESS (DVHA)**

### **I. Introduction**

DVHA's Mission: Improve Vermonters' health and well-being by providing access to high-quality, cost-effective health care.

DVHA is the State office responsible for the management of Medicaid, the State Children's Health Insurance Program (CHIP), and other publicly funded health insurance or assistance programs in Vermont. Approximately one in three Vermonters receive some type of assistance through DVHA in the form of primary or supplemental health care coverage. Beneficiaries access Vermont's publicly funded programs managed by DVHA through the Health Access Eligibility and Enrollment Unit (HAEEU).

DVHA's primary activities are to:

- Assist beneficiaries in accessing clinically appropriate health services.
- Administer Vermont's public health insurance system efficiently and effectively.
- Collaborate with other health care system entities in bringing evidence based practices to Vermont Medicaid beneficiaries.

Beginning in the fall of 2005, the State received approval from the Centers for Medicare and Medicaid Services (CMS) for a Section 1115 Medicaid Waiver known as "Global Commitment to Health Waiver." Since that time, the GC waiver has been extended and updated. The Waiver allows the State to fundamentally restructure the Medicaid program by providing Vermont the ability to deviate from traditional federal Medicaid law and regulations in the following key ways:

1. Establishes the DVHA as a non-risk pre-paid inpatient health plan (PiHP) with financial and programmatic flexibility to help maintain public health care coverage and provide for more effective services.
2. Allows the State to use federal Medicaid funds for approved investments that achieve the goals of the waiver and to lead in exploring new ways to reduce the number of uninsured.
3. Provides flexibility within limits to manage benefits, cost sharing, and enrollment for optional and expansion populations to foster innovation within health care by focusing on health care outcomes.

The most recent Global Commitment agreement is effective July 1, 2022 through December 31, 2027. Specifically, the current stated goals are to:

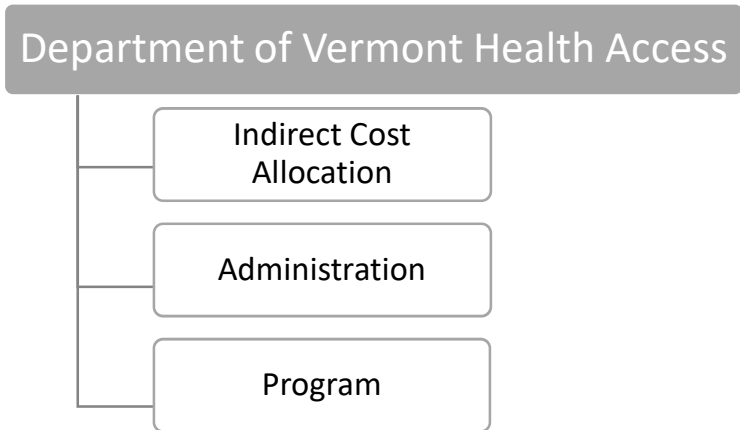

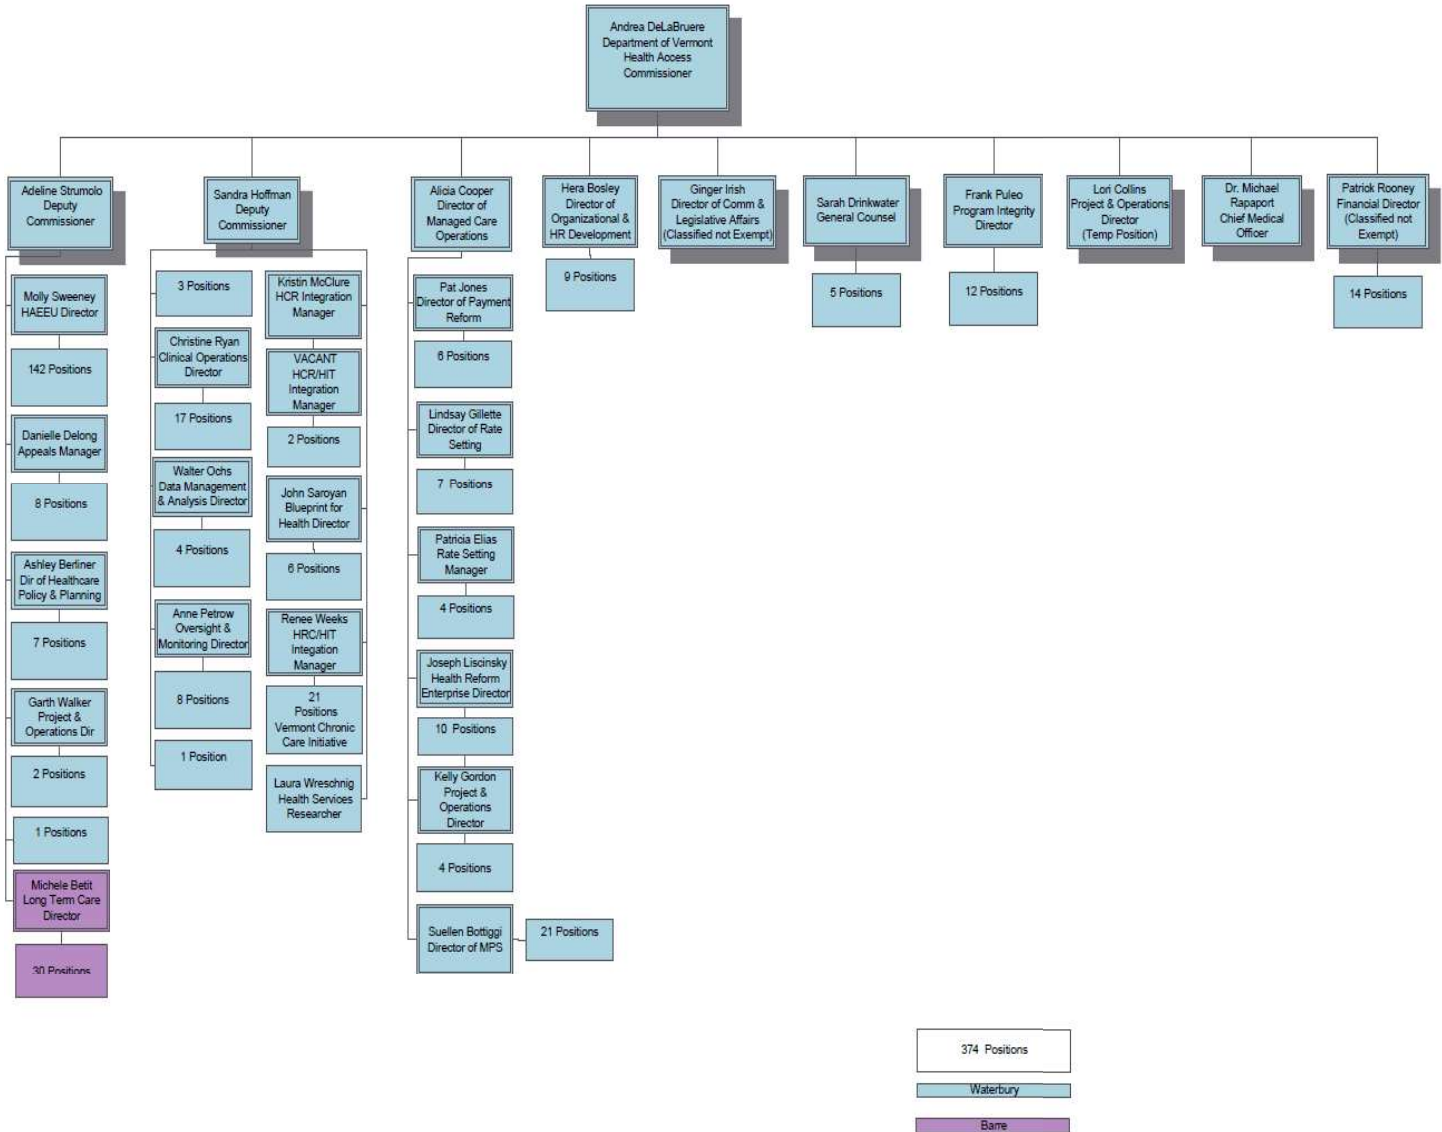

- advance the State towards population-wide comprehensive coverage
- implement innovative care models across the continuum that produce value
- engage Vermonters in transforming their health;
- strengthen care coordination and population health management capabilities to encompass the full spectrum of health-related services and supports; and
- accelerate payment reform.

Within the Agency of Human Services (AHS), the Waiver allows cross-departmental initiatives to obtain the greatest value from scarce health care dollars. The flexibility of the Waiver allows the State to effectively manage public resources, provide the tools necessary to make health care programs fiscally sustainable, and improve the Vermont health care system.

Under the Global Commitment to Health Waiver, DVHA is a non-risk pre-paid inpatient health plan (PiHP), and must meet rules for Medicaid managed care. DVHA has intergovernmental agreements (IGAs) with the Agency of Human Services (AHS) and AHS's various departments that make them part of the PiHP within the framework of the Global Commitment to Health Waiver. The AHS departments with IGAs are: DAIL, VDH, DMH, DCF.

## II. Organizational Chart

### III. Cost Allocation Methodologies

With the January 1, 2017 extension of the Global Commitment to Health 1115 Waiver, administrative costs are not included in the budget neutrality agreement. Administrative costs will be reported on the appropriate CMS-64.10 Base reporting line. However, administrative costs associated with investments that are strictly administrative in nature are subject to the budget neutrality limit and are reported on the “Investments” waiver forms.

Investment administrative costs for Health Research and Statistics, Patient Safety Adverse Events, and Area Health Education Centers (AHEC) receive 50% FFP.

The program codes shown within each organizational unit represent the most likely unit(s) to charge expenses to these cost pools. These organizational units provide general guidance on the appropriate program code usage, but do not limit the use of a program code across Divisions when necessary.

#### Organizational Unit 1: Indirect Cost Allocations

Nature and Extent of Services: Department of Vermont Health Access is assessed costs from both the State of Vermont, called the SWICAP, and the Agency of Human Services Central Office, for activities performed on its behalf.

## Organizational Unit 2: Administration

Nature and Extent of Services: The DVHA is led by the Department of Vermont Health Access Commissioner, two Deputy Commissioners. One of the deputy commissioners is responsible for oversight of the Coordination of Benefits, Data, Program Integrity, Health Access Eligibility and Enrollment, and Medicaid Projects business units. The other deputy commissioner is responsible for the operations of the Reimbursement, Payment Reform, and Health Services & Managed Care business units. The Department of Vermont Health Access Commissioner is responsible for oversight of all of DVHA's operations.

## E. DEPARTMENT OF HEALTH (VDH)

### I. Introduction

The Vermont Department of Health (VDH) has three appropriations, as follows:

#### Administration appropriation

- Administration division

#### Public Health appropriation

- Emergency Preparedness, Response, and Injury Prevention
- Laboratory Sciences and Infectious Disease
- Chief Medical Examiner
- Family and Child Health
- Health Promotion and Disease Prevention
- Office of Local Health
- Medical Practice Board
- Environmental Health
- Health Statistics and Informatics

#### Alcohol and Drug Abuse Programs appropriation

- Division of Substance Use Programs

VDH's mission statement is as follows:

Mission: To protect and promote optimal health for all Vermonters.

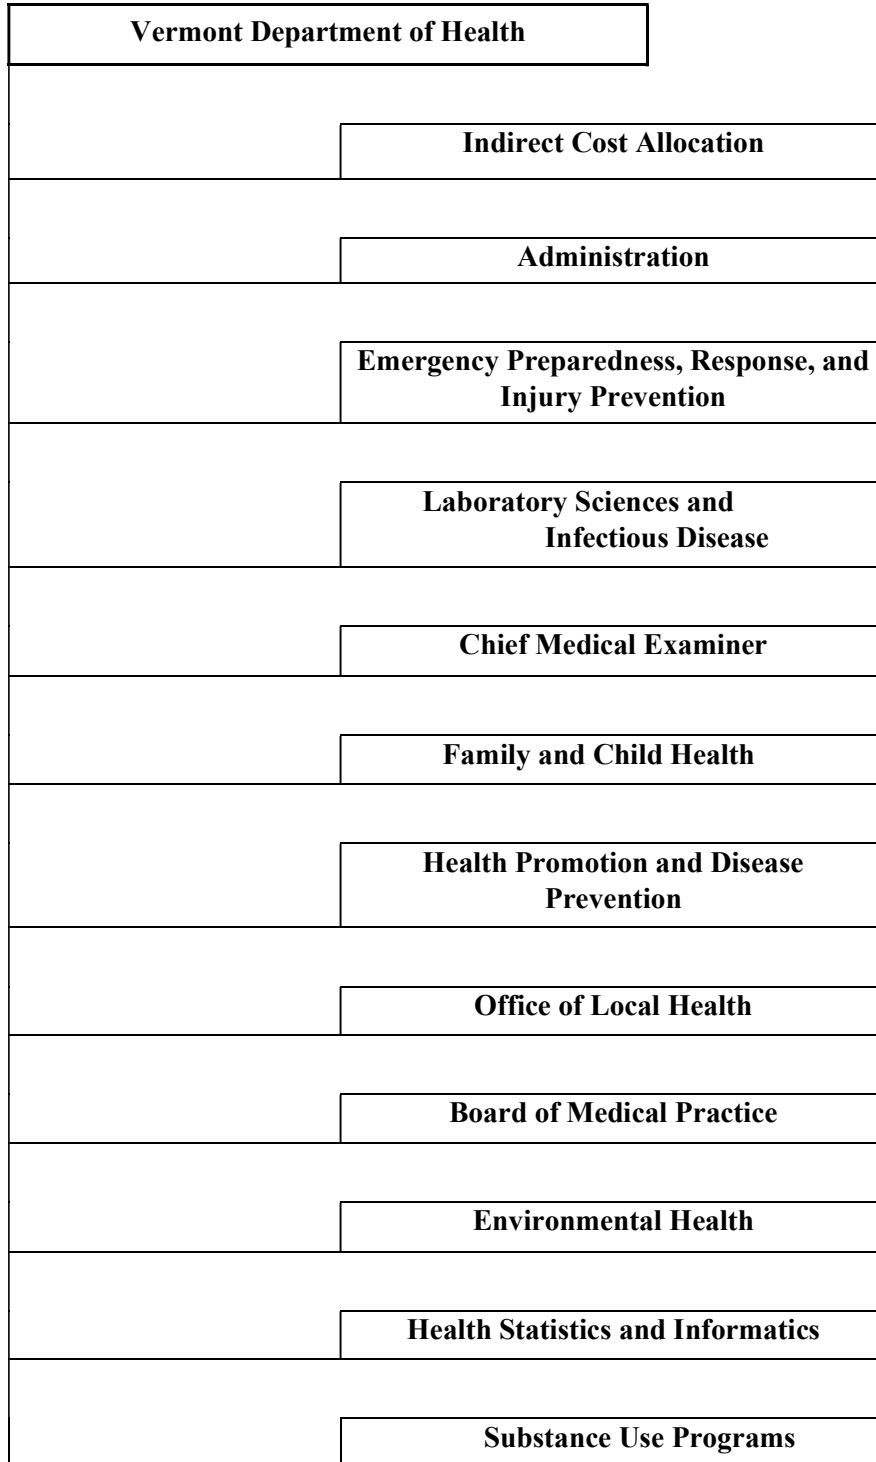

Vision: Healthy Vermonters living in healthy communities.

Goals:

1. Effective and integrated public health programs
2. Communities with the capacity to respond to public health needs
3. Internal systems that provide consistent and responsive support
4. A competent and valued workforce that is supported in promoting and protecting the public's health
5. A public health system that is understood and valued by Vermonters
6. Health equity for all Vermonters

Within this document we have included an overview of VDH's organizational structure and a list of the specific functions performed by VDH, the program code associated with the function, and the allocation method for each function.

## II. Organizational Chart

### III. Cost Allocation Methodologies

With the January 1, 2017 extension of the Global Commitment to Health 1115 Waiver, administrative costs are not included in the budget neutrality agreement. Administrative costs will be reported on the appropriate CMS-64.10 Base reporting line. However, administrative costs associated with investments that are strictly administrative in nature are subject to the budget neutrality limit and are reported on the “Investments” waiver forms.

Investment administrative costs for Health Research and Statistics, Patient Safety Adverse Events, and Area Health Education Centers (AHEC) receive 50% FFP.

#### Organizational Unit 1: Indirect Cost Allocations

Nature and Extent of Services: Vermont Department of Health is assessed costs from both the State of Vermont, called the SWICAP, and the Agency of Human Services Central Office, for activities performed on its behalf.

<b>Program Code</b>	<b>Program Name</b>	<b>Description</b>	<b>Allocation Method</b>

## Organizational Unit 2: Administration

Nature and Extent of Services: The following program codes, descriptions, and allocation methods are for costs associated with the Commissioner's Office; Information Technology Services; Health Planning; Department Operations, and the Business Office. It had been standard practice that any staff person in the department can code costs to any program code in the department if that code is the most appropriate description of the cost until the May 16, 2013 payday. At that time the State of Vermont converted to a new payroll system. The only Cost Allocation implication of this new payroll system is that employees are given a limited number of program codes from which to choose. However, the practice is to add program codes to employees' list of available codes upon request so that any program code is made available to any employee. There have not been changes in the pattern of time reporting as a result. These program codes are shown within this Division as an approximate guide to the most likely users of these codes.

Detailed explanations of individual functions are included below.

## Organizational Unit 6: Family and Child Health

Nature and Extent of Services: The following program codes, descriptions, and allocation methodologies are costs associated with the various programs in support of Family and Child Health, including the following:

- Family and Child Health – administers the Maternal and Child Health federal block grant and monitors and works to improve the system of health care for women, children and families, including the work through the School Based Medicaid Administration Claiming (MAC) and the Vermont Child Health Improvement Project at the University of Vermont;
- Children with Special Health Needs – provides and/or assures that health care and support services are available to children (0-21) who have complex health problems and to their families;
- WIC – federally funded program to enhance the health of infants, young children, pregnant women, and new mothers.
- Family Planning.

(It is standard practice that any staff person in the department can code costs to any program code in the department if that code is the most appropriate description of the cost. These program codes are shown within this Division as an approximate guide to the most likely users of these codes.)

The Family and Child Health Division includes the School Based Medicaid Administration Claiming (MAC) program, code 39758. A key element in this program is the web-based random moment time study (RMTS) designed and implemented by the University of Massachusetts, our contractor, in cooperation with the Vermont Department of Health (VDH). VDH submitted descriptions of the RMTS to the Division of Cost Allocation and then to CMS in 2010 and 2011. There were a series of phone conversations with CMS and revisions and re-submission of documents describing the implementation of the RMTS during 2011. A letter approving Vermont's RMTS was sent by CMS Region I on May 16, 2013. Vermont did not receive this letter, however, until a copy was forwarded by DCA on November 25, 2014. The CMS letter approved the RMTS subject to ten conditions. Vermont accepts these conditions.

Specifically,

1. Vermont agrees to amend this Cost Allocation Plan whenever there is a change from the RMTS methodology approved by CMS.
2. Vermont agrees that any CMS guidelines related to RMTS or other elements of our claims will be promptly incorporated into our program on a prospective basis.
3. Vermont agrees to seek CMS advance review of any forms or documents that are subsequently developed for this program.
4. Vermont agrees to continue to monitor the overall implementation of the RMTS and to review all claims submitted.
5. Vermont agrees to monitor the RMTS for appropriateness of the use of activity codes by coders and for the proper implementation of the RMTS methodology.
6. Vermont agrees to report to CMS any changes in: the number of RMTS moments to be included in the sample (as described in the "VDH Implementation Guide for Statewide RMTS," Section 1(B) and Appendix A, Section II); the statistical validity of the sample selection and sample results; any changes in the criteria for inclusion of contractual staff in the sample; and any changes in services or administrative activities performed.
7. Vermont agrees to provide oversight of any outside entity contracted to operate or monitor the time study, as described in the "VDH Implementation Guide for Statewide RMTS," Section II, "Oversight and Monitoring."
8. Vermont agrees to submit any changes from the approved plan to CMS prior to implementation. Any such changes will be submitted as a change to this Cost Allocation Plan.
9. Vermont agrees that any costs claimed are subject to review or audit.
10. Vermont agrees to monitor the time study to assure proper use of activity codes and proper application of the methodology.

## **F. DEPARTMENT OF MENTAL HEALTH (DMH)**

### **I. Introduction**

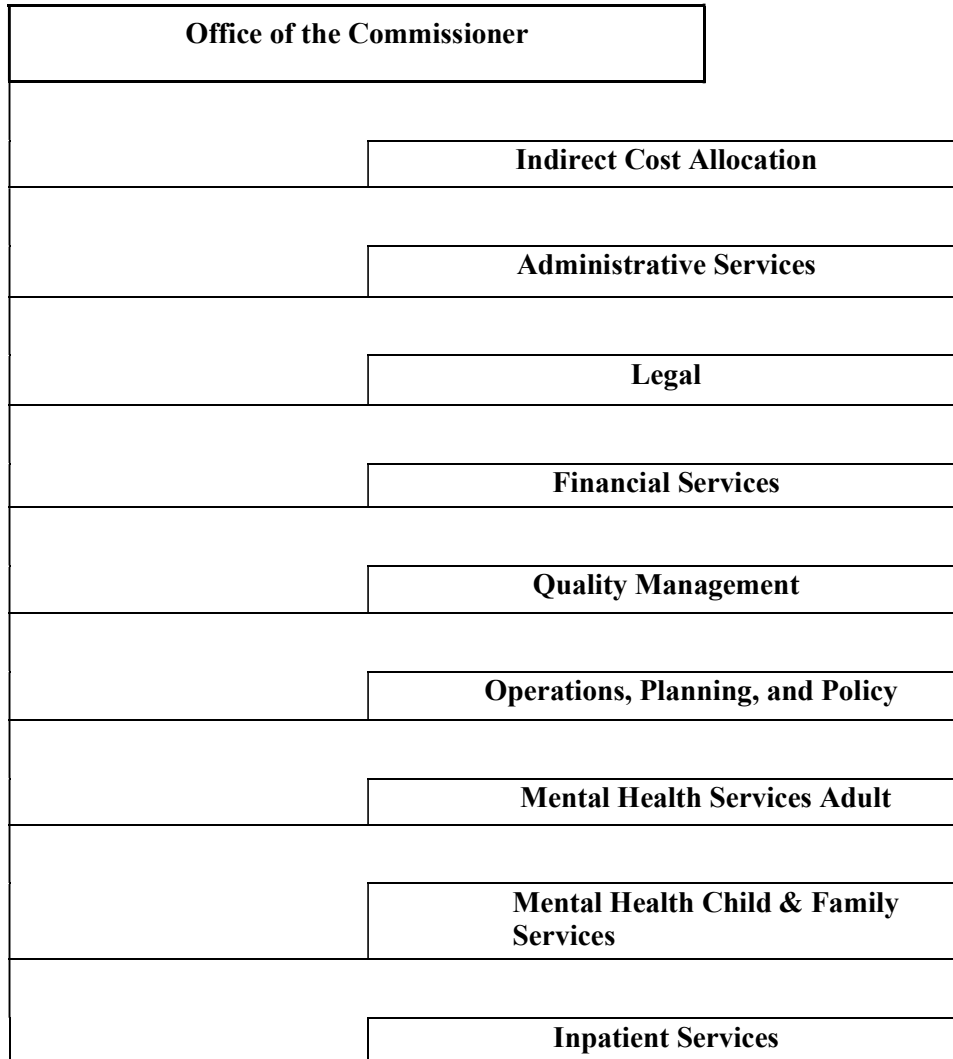

The Department of Mental Health (DMH) was established by the state legislature effective July 1, 2007.

Within this document, we have included an overview of DMH's organizational structure, and a list of the specific functions performed by DMH, referred to as plan departments or cost pools, and the allocation method for each function. Please note that the plan department numbers correspond to internal AHS program codes, from the state accounting system. Our cost allocation plan (CAP) narrative is broken out into organizational areas called "cost centers" that are based on the sections of our organizational chart. Cost centers are comprised of various plan departments or units of cost that fall under each cost center.

Staff at DMH direct code their time to the programs they support throughout their workday. DMH staff enters their time into the state's payroll system. When staff enter timesheet information, they "direct code" their time and the data feeds the VISION accounting system. Staff performing support functions will use their assigned VISION code unless they work on a specific function where they are required to direct code their time to a specific function or program. Staff who works across multiple programmatic and direct service areas will code their time appropriately to multiple VISION codes. 100% of staff time is recorded. As a result, the staff costs in each VISION code are from staff recording their time, and an individual's cost may appear in more than one code, though it cannot exceed the total cost of that employee.

## II. Organizational Chart

DMH has set up our cost allocation plan narrative to mirror the organizational structure under which it operates. Section VI of this document describes, in narrative form, our cost allocation process. We have included a table that breaks out each of our cost pools, which mimic the boxes below on the organization chart; the narrative and organizational chart crosswalk to one another, and the narrative further describes the programs that the units within DMH administer.

### III. Cost Allocation Methodologies

With the January 1, 2017 extension of the Global Commitment to Health 1115 Waiver, administrative costs are not included in the budget neutrality agreement. Administrative costs will be reported on the appropriate CMS-64.10 Base reporting line. However, administrative costs associated with investments that are strictly administrative in nature are subject to the budget neutrality limit and are reported on the “Investments” waiver forms. Investment administrative costs for Health Research and Statistics, Patient Safety Adverse Events, and Area Health Education Centers (AHEC) receive 50% FFP.

**DEPARTMENT OF VERMONT HEALTH ACCESS (DVHA)**
**PU – Allocated based on the approved IAPD - CAM Toolkit:**

Costs associated with specific programs are allocated based on utilizing the CAM Toolkit per the approval of the 3.9 IE&E IAPD

**PU – Allocated based on the approved IE OAPD –**

This method is used to allocate costs of IE maintenance and operating based on utilizing an enrolment count statistic over a twelve month period

**PU – CMS HIT 9027 & HIT Fund 1069:**

This method is used to allocate contractual costs for Health Information Exchange contracts, specifically agreements using HIT Fair Share funds. It is updated periodically per the IAPD Program Code allocation guide sent by AHS Central Office, and a change is only made if indicated in red font.

**PU – Investment Vermont Blueprint for Health (51):**

This method is used for Administrative and Contractual costs for the DVHA Blueprint for Health Program. This attributed population distribution is based on clients receiving services from the Blueprint providers. It has been set up as a periodic update if a decision is made to change it.

**PU - Investment VITL/HIT):**

This method is used for Health Care Reform and HIT Grants and Contracts. It is dictated by AHS Central Office – the exception is that the “Investment – Vermont Blueprint for Health” final receiver is replaced by “Investment - Vermont Information Technology Leaders/HIT/HIE/HCR.”

**PU- Shared VHIE DDI:**

This method is used to allocate the Vermont Health Information Exchange DDI costs using the program population statistics to benefitting programs for Medicaid w/ VPA, QHP, CHIP and other state-wide population.

**PU- Shared VHIE MO:**

This method is used to allocate the Vermont Health Information Exchange MO costs using the program population statistics to benefitting programs for Medicaid w/ VPA, QHP, CHIP and other state-wide population.

**QU - Quarterly combined AHS and VHC Enrollment for Global Commitment, CHIP, Designated State Health Programs (DSHP) and QHP (Enrollment Broker Stat):**

This method is used to allocate costs to DVHA’s Enrollment Broker Services contract. It is updated every quarter according to the average enrollment count for CHIP, Global Commitment, and QHP populations specifically with Vermont Premium Assistance (VPA). The source data comes from the VHC Effectuation Report and AHS Central Office Enrollment Report.

**QU - Quarterly Enrollment for Global Commitment, CHIP, and all other benefiting programs:**

This method is used for the admin costs of a variety of different units within DVHA, including: Data Unit, Program Integrity, Clinical Unit, VCCI, the Reimbursement unit, etc. This data is updated quarterly according to the average enrollment count for Global Commitment, CHIP and QHP populations without VPA. The source data comes from the VHC Effectuation Report and AHS Central Office Enrollment Report.

**QU - Quarterly hours across MMIS/EE/ program codes**

Costs associated with specific programs are allocated based on the quarterly VTHR hours during the quarter

**QU - Quarterly number of paid claims for Global Commitment, Medicaid – Admin 50/50 Line 49, CHIP, and All Other benefiting Programs:**

This method is used to allocate dollars paid to DVHA’s non-certified Fiscal Intermediary. The method is updated quarterly and utilizes paid claim counts to Global Commitment and CHIP. The data is sourced from Hewlett-Packard Enterprise’s Draw Summary files.

**QU - Quarterly number of paid claims for Global Commitment, CHIP, and All Other benefiting Programs:**

This method is used to allocate dollars paid to DVHA's Fiscal Intermediary. The method is updated quarterly and utilizes paid claim counts to Global Commitment and CHIP. The data is sourced from Hewlett-Packard Enterprise's Draw Summary files.

**QU - Quarterly number of Pharmacy Claims paid for Global Commitment, CHIP, and All Other benefiting Programs:**

This method is used to allocate costs to the DVHA Pharmacy unit and Pharmacy Benefit Manager. The method is updated quarterly and utilizes pharmacy paid claim count to Global Commitment and CHIP. The data is sourced from an MMIS-based query that is run by the DVHA Business Office.

**QU - Quarterly number of Pharmacy Claims paid for Global Commitment, CHIP, and All Other benefiting Programs Non Enhanced:**

This method is used to allocate costs to the DVHA Pharmacy unit for non-enhanced dollars. The method is updated quarterly and utilizes pharmacy paid claim count to Global Commitment and CHIP. The data is sourced from an MMIS-based query that is run by the DVHA Business Office.

**QU - Quarterly VHC enrollment for GC, DSHP (75% FMAP), CHIP and QHP:**

This method is similar to "Case Count between CHIP, VHC, and Medicaid 75%" with the exception that the final receiver is labeled "OAPD" and is used for OAPD related contractual and staff costs.

**QU - Quarterly VHC Enrollment for Global Commitment, CHIP, Designated State Health Programs (DSHP) and QHP:**

This method is used to allocate costs to DVHA VHC Operations program codes. This data is updated quarterly according to the average enrollment count for Global Commitment, CHIP and QHP populations with VPA. The source data comes exclusively from the VHC Effectuation Report.

**QU - Quarterly VHC Enrollment for Global Commitment, CHIP and QHP:**

This method is used to allocate costs to DVHA EE HCO IAPD program codes. This data is updated quarterly according to the average enrollment count for Global Commitment, CHIP and QHP populations with VPA. The source data comes exclusively from the VHC Effectuation Report.

**Results of HAEEU Random Moment Time Study:**

Due to the varying nature of HAEEU's work, CMS and AHS Central Office agreed to the utilization of a Random Moment Time Study (RMTS) to allocate staff costs based activity. Each activity corresponds with a specific set of funding sources by population or by direct activity type. Throughout the quarter HAEEU staff are required to populate a randomized study and are prompted with questions about their most recent activities. These Sample Results from EasyRMTS™ feed into a spreadsheet that is used to manually populate intermediate codes in AlloCAP™ by activity type. A designated HAEEU supervisor reviews subsample responses throughout the quarter and invalidates incorrect responses. Based on the percentage splits in the intermediate codes, the funding is broken out by final receiver and program code. The data source for these samples is EasyRMTS™, and the data is uploaded quarterly. It becomes available on the first business day of the month after the end of a quarter.

**Results of HAEEU Random Moment Time Study - Not Enhanced:**

This allocation method is identical to the one described above, with the exception that only non-enhanced Global Commitment activities are included in the data. Some examples of enhanced activities NOT included in the data are VHC eligibility determinations, case reviews, eligibility notices, etc. This method is updated quarterly, and the data source for samples is EasyRMTS™.

**Total hours across all program codes:**

This allocation method is used to distributed indirect costs for AHS Central Office. Based on a distribution of the DVHA staff hours per program code, the AlloCAP™ system is set up to group those codes by the appropriate Final Receiver. This data is updated quarterly and is populated by the State of Vermont's VTHR system data.

**Total hours across all program - less BO:**

This allocation method is used for the DVHA Business Office and functions as described above, however the hours from the Business Office itself are removed as to not skew the distribution.

**Total hours across all program - less Commissioner's Office:**

This allocation method is used for the DVHA Commissioner's Office and functions as described above, however the hours from the Commissioner's Office itself are removed as to not skew the distribution.

**Vermont Department for Children and Families**  
**Benefit Programs Specialists**  
**Statewide Random Moment Time Study Instructions**  
**Updated June 2024**

**RMTS DETAILS**

The random moment time study (RMTS) is a survey process that includes all of the activities performed by the Economic Services Division (ESD), Benefit Programs Specialists (BPS) within the Vermont Department for Children and Families (DCF). An updated study begins on July 1, 2015. Participating staff are those who support multiple programs administered by DCF in ESD. Based on these observations, the total effort of a group of employees is determined with a high degree of confidence that approximates the same results as having observed employees for 100% of their time at work. The results of the RMTS are used in the quarterly cost allocation plan (CAP) to allocate department costs to reimbursable and non-reimbursable areas. This level of detail is required for DCF to participate in federal claiming efforts.

The RMTS must be conducted on a continuous basis to support quarterly claiming efforts.

We thank participants in advance for their time and cooperation. Please direct all questions to either Public Consulting Group, Inc. (PCG) at [vtdcfbps@pcgus.com](mailto:vtdcfbps@pcgus.com) or DCF at [AHS.DCFESDOverdueReport@vermont.gov](mailto:AHS.DCFESDOverdueReport@vermont.gov). Participants may also call the PCG hotline at 866-912-2983.

**How to Complete the Random Moment Time Study**

Participants receive an e-mail that directs them to a website via a web link (<https://PCGEasyRMTS.com>). Participants log in to the system and then answer several different questions. Depending on the answers to the questions, they select from a list of individual activity and program codes.

After answering all of the questions provided, the user selects a Submit button to respond to the survey. The surveys must be completed within 72 hours. Participants receive a reminder e-mail 24-hours and 48-hours after each moment if the survey has not yet been completed. If a participant is working on a case, the worker is asked to provide the client's first initial, last name, and client's Case ID as a unique case identifier. If a Case ID isn't available, please include the client's initials.

The RMTS is mandatory and must be completed in a timely manner. Every survey that is assigned must be completed! Moments stay 'live' in the system for 72 hours so if a participant is on leave for a short time, they must still complete the moment upon their return.

**Participants should not consider client eligibility for any specific program when responding to a moment. Moment responses should be chosen based on the activity or function being performed at the time of the moment, not the eligibility of a case or client.**

**RECORDING VHC ACTIVITIES**

DCF BPS staff may connect Medicaid applicants to the Vermont Health Connect (VHC, the State's Health Insurance Exchange) to seek enrollment in a qualified health plan and premium tax credit and cost sharing reduction programs through the federal exchange. Staff activities in support of Medicaid or VHC eligibility determinations are considered to be part of the Medicaid program for the purpose of completing this time study.

For example: If participants direct a client to VHC, provide them with the website or phone number for VHC, connect them with HAEU staff, or provide the applicant with information on how to apply for the health insurance programs offered by the VHC, participants would select the following activity and program code combination:

**Case Specific Activity Code:** Referrals to Medicaid and/or Medical/Behavioral Health Services

**Program Code:** Medicaid or SSI

### **ROOT QUESTION**

The following describes each of the activities available to RMTS participants. Activities performed and programs administered on behalf of the client are described below. *Please note that meetings, phone calls, e-mails, filing, driving, and similar other administrative tasks should be tied to the activity that they are in support of; these are not general administrative activities unless they are truly not tied to a case.*

***The first question a participant is asked when completing the time study is: Were you working on a Case or on behalf of a client? The participant responds Yes or No.***

*For the purpose of the RMTS, a case is any client where you are actively working on assisting the client to access or continue accessing state or federal benefit programs. Please review the following examples for clarity.*

1. *If you are performing lobby monitoring to assist a potential client apply for a federal or state assistance program, regardless of whether a case has been opened, it is considered a case-related activity; select the Eligibility Determination and Redetermination activity and then select the federal or state program to which the client is applying.*
2. *If you are performing lobby monitoring and directing a potential client to the Vermont Health Insurance Exchange, it is considered a case-related activity; select the Eligibility Determination and Redetermination activity and then select the Medicaid program.*
3. *If you are performing lobby monitoring and there is no one in the lobby at the time of your assigned moment, it is not considered a case-related activity; select General Administrative and General Training Activities as your activity and you will not be asked to select a program(s) that the effort was in support of.*

**After selecting Yes or No, the participant is asked to first identify their activity, and then select the program(s) the activity is associated with at the time of moment. Example – if activity is related to SNAP, participant should select SNAP even if the case is open to or associated with multiple programs.**

**Please select the activity you are performing at the time of your moment, not the type of case.**

If the participant selects yes to the root question, they are then asked: “Were you performing an activity related to eligibility determination or redetermination?” ***The participant responds Yes or No.***

If the participant responds yes, they are asked to choose from a list of eligibility determination or redetermination specific activities. If the participant responds no, they are asked to choose from a list of other case specific activities.

You will be asked to describe the activity in your own words, and this activity should not be used for any phone call, collateral calls, e-mail, documentation activity, travel to/from meetings with clients or required trainings that you attend, or filing activity if you can tie it to a specific case. Any administrative efforts related to this activity should also be coded here.

## **NON-WORK RELATED ACTIVITY CODES**

### **1. Paid Time Off (Annual/Sick/School/Administrative Leave/Comp)**

This activity is used when the participant is not working but is being paid for the time off. Examples include using regular annual leave for vacation, sick time, Family Medical Leave Act (FMLA), banked leave time, union leave, or approved personal educational leave. Paid days not working due to a weather emergency would also be recorded here.

### **2. Unpaid Time Off: Lunch or Not Scheduled to Work/Flex Time**

Any approved leave you take that you are not paid for should be coded here. Use this activity code if you were either not scheduled to work at the time of the observation, (i.e., it is before your regular start time, or after your regular end time, or the sample is received at a time when you are not scheduled to work due to your adjusted work schedule). For example,

a) you flex on Monday and the sample is received on Monday.

b) the sample is before or after your regular work hours (e.g., at 7:49 a.m. and you do not start until 8:00 a.m.).

Sick, vacation, annual leave, and “snow or weather” days should not be coded here unless you are not paid for the time off.

### **3. Non-DCF Activity or Other Emergency Situation**

This activity should be used when the participant performs an activity unrelated to any responsibility that they would normally have as an employee of DCF. Examples may include performing a function for another state agency or working on non-human services activities in the event of a natural disaster. Participants are required to provide a brief description of the activity being performed when this activity is chosen.

## **PROGRAM CODES**

### **2. 3 Squares**

3Squares provides temporary food assistance benefits to eligible households and individuals with low income to increase their food purchasing power.

### **3. Fuel**

The Fuel program assists applicants with safe, decent, affordable housing and other essential needs, as well as assistance to help with household heat, electric, and home repair costs, when an emergency situation arises.

### **4. General Assistance (GA) and Emergency Assistance (EA)**

General Assistance provides financial assistance to disabled adults who are not eligible for Reach Up to meet their basic personal and shelter needs such as dental and housing assistance.

### **5. Essential Person (also called “Aid to the Aged, Blind, and Disabled (AABD)”)**

Essential Person provides financial assistance to help aged, blind, and disabled people who have little or no income with a cash benefit to help contribute to the cost of having someone live with them to provide essential care.

**6. Medicaid**

The Medicaid program provides medical assistance to those who meet the financial and nonfinancial eligibility factors to ensure that essential health care services are made available to those who otherwise would not have financial resources to purchase them.

**7. Supplemental Security Income (SSI)**

SSI is a Federal income supplement program designed to help aged, blind, and disabled people who have little or no income with a cash benefit to provide for basic needs such as food, clothing, and shelter.

**8. Reach Up/3 Squares**

Includes activities in support of a Reach Up/3 Squares multi-program case or application, when the worker is assisting a client with both programs with the same activity.

**9. Reach Up/GA and EA**

Includes activities in support of a Reach Up/GA and EA multi-program case or application, when the worker is assisting a client with both programs with the same activity.

**10. Reach Up/GA and EA/EP**

Includes activities in support of a Reach Up/GA and EA/EP multi-program case or application, when the worker is assisting a client with the three programs with the same activity.

**11. Reach Up/EP**

Includes activities in support of a Reach Up/EP multi-program case or application, when the worker is assisting a client with both programs with the same activity.

**12. Reach Up/Fuel**

Includes activities in support of a Reach Up/Fuel multi-program case or application, when the worker is assisting a client with both programs with the same activity.

**13. Reach Up/Fuel/GA**

Includes activities in support of a Reach Up/Fuel/GA multi-program case or application, when the worker is assisting a client with the three programs with the same activity.

Includes activities in support of a Reach Up/3Squares/Fuel/GA and EA/Essential Person multi-program case or application, when the worker is assisting a client with the five programs with the same activity.

**39. Emergency Housing**

Emergency Housing is a program of General Assistance that provides emergency housing to vulnerable adults and families who meet eligibility criteria to temporarily meet their immediate shelter needs.

## **BPS RANDOM MOMENT TIME STUDY PROCEDURES**

### **RANDOM MOMENT TIME STUDY PROCEDURE MANUAL**

#### **Benefit Program Specialists**

**NOTE: THIS INFORMATION IS NOT FORWARDED TO TIME STUDY PARTICIPANTS**

#### **Introduction**

The purpose of this random moment time study (RMTS) is to measure the level of effort spent on various eligibility activities performed by Benefit Programs Specialists (BPS) in the State of Vermont. These staff, who are all state employees, perform integrated eligibility determination activities on behalf of residents in the state and clients served by the Department for Children and Families (DCF) and other Departments within the Agency of Human Services (AHS) umbrella. Organizationally, BPS staff work in the Economic Services Divisions (ESD) of DCF.

The time study is administered using EasyRMTS™, which is a tool that has been developed by Public Consulting Group, Inc. (PCG). EasyRMTS™ is an automated, web-based RMTS application that gives users a comprehensive tool for administering a time study for federal claiming, cost allocation, or other similar activities. Fully customizable for an individual agency or school district's specific requirements, EasyRMTS™ gives an administrative user the capability to assign random moments, monitor staff participation, update respondents' information, create and produce reports for federal claiming and other purposes, and view and analyze tabulated responses from participating staff. Participants of an EasyRMTS™ administered time study only need to have access to the Internet and an e-mail address in order to receive and complete their assigned random moments.

The application serves its state and local government or school district users by allowing for a timely and effective system to record staff activities performed, especially with respect to key federal programs that are supported by their staff. The automated RMTS application was developed to comply with all federal rules and regulations related to cost allocation practices and claiming for reimbursement of federal dollars. The software supports accurate reporting of reimbursable administrative activities, which are generally required by federal approving agencies to be measured through a time study. EasyRMTS™ puts the least administrative burden on staff as possible while allowing users to measure their time and claim for federal revenue. The system allows participants to indicate directly, via a series of survey questions in the software, the activities and programs they are supporting.

The purpose of this manual is to provide step by step explanation of how to complete the Vermont DCF BPS RMTS. It has been created to assist DCF in managing and administering the RMTS. It serves as a procedural guide and instructional tool for sustaining the RMTS for its ongoing support of the cost allocation plan (CAP) process.

Please note that DCF is a state administered system. The use of the word "county" or "local office" indicates where the participant is physically located. The reference is still a person employed by the state.

#### **Operation**

There is a single RMTS (with 2,761 moments per quarter) operated for ESD BPS staff. PCG provides the EasyRMTS™ system (via a web-hosted service), generates each quarterly sample, provides assistance to DCF with monitoring participant responses, and provides customer service. The sample is generated using data from the payroll system on a quarterly basis. Participants are responsible for selecting activity

and program codes when they respond to the RMTS. Initial training is provided by PCG, while annual refresher and ongoing new worker training is conducted by DCF. The following table displays the responsibilities of PCG and DCF when it comes to RMTS administration.

### Sampling Population

The sampling population includes eligibility workers within DCF. These participants work to assess the need and determine eligibility for multiple public assistance programs. Specifically, workers included in the RMTS are Economic Services Division (ESD) Benefit Programs Specialists (BPS) within DCF.

BPS staff ensure that each person or family that applies for public assistance receives the type and level of assistance that they are eligible for. The BPS reviews the application and decides which forms and verifications are needed. The specialists then evaluate the information contained in all documents and use complex policies and procedures to determine eligibility. The BPS also assess the needs of each person/family and provide appropriate information; making any referrals and/or contacts to persons/agencies to help them meet their needs. The BPS provides all families with information about the expectations and goals of DCF programs and maintaining eligibility. These positions also process changes as necessary on active cases.

Supervisors are not included in the RMTS.

On a quarterly basis, DCF updates the information for all staff members participating in the RMTS to account for new staff, terminated staff, and staff on long-term leave and updates the actual sample on a quarterly basis (for each new quarterly sample). Throughout the quarter and before the subsequent quarterly sample is drawn, RMTS administrators at DCF collect additions, deletions, and schedule changes and update the software system accordingly (note that these changes have no effect on the current sample). Changes are accepted by DCF until the sample is drawn for the next quarter. If a person leaves mid-way through the quarter, their supervisor notifies the RMTS administrators, and the leave information is noted so as to not initiate additional follow up. RMTS administrators change that individual's e-mail to a "dummy" e-mail address to stop e-mails from going out, but there is no type of replacement in the system. These moments are counted as non-responses.

It is important to note the DCF participants who have participated in the RMTS in the past, but whom are no longer in the sample selection (e.g., retired, left position), are not deleted from the EasyRMTS™ database but are deactivated so that prior quarter data is available for audit trail purposes.

### **Sampling Unit**

An RMTS asks a participant what they are doing at a specific moment in time (e.g., 11:48 a.m.). The RMTS sampling unit is defined as a single minute, or sixty second length of time, randomly selected within the workday of each participant. The moments for the participants occur within the work schedule assigned to the individual workers. The moments are drawn from the core hours for each working day in a quarter, exclusive of official state holidays. Participants receive the e-mail within a few minutes after their assigned random moment time. There is no pre-notification of when a participant will have a moment assigned to them.

### **Responses and Response Time**

Participants have 72 hours to respond to all moments. If the participant does not respond to their moment within the first 24 and 48 hours, reminder e-mails are sent to both the participant and their supervisor, requesting that they answer their moment. The moment expires after 72 hours. Reminder e-mails do not include the participant's username and password to ensure that only the participant has access to their unique login credentials and that no one other than the participant responds to their moments.

DCF RMTS administrators are cc'd on all reminder e-mails and follow-up with non-responders as needed. If a specific individual is identified as a non-responder, the RMTS administrators notify the specific supervisor so that person may be further trained on the importance of completing the RMTS. If a systemic issue is identified, communication is sent to all participants. PCG and DCF may also send out occasional e-mails over the holidays or other times when participation may be less to ensure that individuals are responding to the RMTS whenever possible.

### **Sampling Period**

The sampling period is a calendar quarter.

### **Confidence and Precision Level**

This level is kept at 95% confidence level with +/- 2% precision for all activities. This level is consistent with federal regulations for statistical validity. Cost Allocation Services (CAS, formerly the Division of Cost Allocation or DCA) determines that statistical validity is met when the minimum number of moments have been responded to (received), as determined in the formula below.

### **Sample Size**

DCF generates 2,761 moments per quarter for the RMTS. This number is to ensure that 2,401 valid observations are obtained and is in compliance with the federally-required formula below. Specifically, the Public Assistance Cost Allocation Plan Review Guide states that:

***The sample size needed may be determined from the formula included in the State Guide. The State Guide specifies that a minimum 2,401 valid observations per sample period be obtained. A "valid observation" is defined as any observation other than a "non-strike". A "non-strike" occurs whenever a selected employee could not be contacted at the selected moment, i.e., the employee no longer works in the office, the employee is on a flex-schedule and not at work at the time of the observation, etc.***

The formula used to determine the baseline number of moments is as follows:

$$N = \frac{P(1-P)}{\left(\frac{SE}{T}\right)^2}$$

Where

N	=	Sample Size
P	=	Anticipated Rate of Occurrence of the Activities Being Observed
SE	=	Desired Sample Precision
T	=	Confidence Level Factor (1.96 for 95%)

With the updated system, DCF will update the maximum rate of occurrence and adjust the sample size as needed but also ensure the floor of moments responded to (2,401), as required by CAS.

### Standard Observation Form and Definitions

A standard observation form has been developed that includes numerous questions, up to 22 distinct activity codes, and 35 program codes (including combinations of more than one program) that encompass the universe of activities that the population being surveyed performs.

- The sample is generated (e.g., moments are assigned to participants) just prior to the beginning of the quarter.
- E-mails are sent to the participant, indicating that they have been selected to report their activity for the moment shown (e.g., 10:12 a.m. on 1/5/14).
- The e-mail contains a username and password and link to the website to respond to the moment.
- The participant selects the link to the website. At the website, they log on and have access to the questions and activity/program codes.
- The participant answers the questions and selects the appropriate activity and program (client specific activities require the client's last name and last four digits of the client's social security number (SSN)).
- There is no advance notification of moments.

Participants are sent 24 and 48-hour reminder e-mails (if the participant has not yet responded) and have 72 hours to complete each moment for it to be considered valid. Participants are not able to respond to moments once they have expired. Expired/non-response moments are not included in the RMTS activity percentage calculations.

A participant is asked numerous questions in the time study. The root question is "Were you working on a case or on behalf of a client?" (Y/N). Below, is the sequence of questions depending on how they answer the root (first) question.

For answering "Yes" to case-related activity.

1. Please select the activity you are performing at the time of your moment, not the type of case.
2. Please select the program(s) you were supporting at the time of your moment.
3. Please provide the client's first initial, last name, and last four digits of the client's social security number (SSN).

For answering "No" to case-related activity.

1. Please select the activity you were performing at the time of your moment.

Below are the case specific activity codes:

Case Specific Activity Codes

1. Conducting Client Interviews
2. Processing Income Documents
3. Processing Housing Documents
4. Processing All Other Non-Income Documents
5. Calculating Deductions
6. Processing Interim Reports
7. Issuing Vouchers for Prescriptions, Dental Emergencies, or Durable Medical Equipment
8. Customer Education Regarding Eligibility Results
9. Providing EBT Specific Information to Customer

Please note that the activity and program codes are not numbered in the system. In addition, the program codes are only options if the participant selects a particular activity. Some activity codes are also only shown for case-related work, while others only appear for non case-related or non work-related activities. Not all program codes are available for every activity selection.

Please refer to the allocation matrix for the valid combinations of activity/program codes available to participants through the decision tree nature of the EasyRMTS™ software.

### **Date Stamp**

The moment date/time is provided to the participant in the e-mail notification and is viewed by the participant when they log in to EasyRMTS™ to complete their moment. Each response is date stamped when the participant responds to the moment.

### **Help Desk**

A Help Desk is operated where participants can call (via an 800 number) and speak to PCG if they have questions. This number is contained in all e-mails and on the RMTS system when participants log in to the system. If someone is unavailable, they can leave a message. All messages related to questions asked about activities are logged. Participants can also respond to the e-mail that they receive and receive an e-mail response. This e-mail is monitored by PCG and ESD staff.

### **Training**

Employees must participate in a web-based training before completing their first random moment. Training sessions occur for all participants on an annual basis. Periodic sessions throughout the year are also held for workers who would like to attend or are required to attend additional trainings (participants who regularly fail to respond) as necessary. Periodic newsletters or memos are also sent to participants.

## **Analysis of Results**

On a monthly basis, the results of the RMTS are compared to previous months to determine if there are any significant variances in the responses. If a significant variance is discovered, a review is conducted in order to determine the reason for the variance. If the reason for the variance is due to bias or improper technique, it will be determined whether to make a change to the RMTS form. Additional training may also be conducted. The state will also, as necessary, send communication and memorandum to participants to clarify any common issues.

On a monthly basis, reports are forwarded to the Economic Services Supervisors, who supervise the BPS staff, so that they can follow up with non-responsive participants. The system generates 24 and 48-hour follow-up e-mails. Additional follow-ups will be employed as necessary.

## **Evaluation and Modification of the System**

The RMTS system, observation form, and distribution procedures are continuously evaluated to identify necessary modifications in order to improve their efficiency and effectiveness. If modifications are determined necessary, they are made promptly.

## **Subsample Process**

For the entire BPS time study, 10% of all moments are randomly selected as part of the subsample process. Participants who are selected for the subsample are required to answer one additional question when responding to their moments, requiring them to write in their own words the activity they were performing. The RMTS administrators review the subsample responses for accuracy on at least a bi-weekly basis. They compare the activity selection to the participants own description of their task to ensure that they match appropriately. If the activity selection does not match, RMTS administrators will contact the participant or participant's supervisor. If validation is not confirmed on any moments within the 10% subsample for whatever reason, these moments will be reallocated direct to state general fund. The RMTS statistic will be updated accordingly.

## **Documentation**

All aspects of the RMTS process are documented. This documentation includes but is not limited to the following:

- Assigned moments e-mailed;
- Data related to tabulations;
- Analysis of sample results; and
- Final computation of results that are used in the cost allocation plan.

Procedural documentation is also kept on the procedures used.

## **Quality Control**

Quality control is performed on the RMTS on an ongoing basis. Some codes require the participant to enter the client's first initial, last name, and last four digits of the client's social security number (SSN) during their random moment to ensure those cases are active for the department. For codes that require the participant to provide a description, those descriptions are reviewed by PCG and DCF to ensure the

participants are using them appropriately. This information, along with other common participant errors recognized by PCG and DCF, is used to determine training needs.

The decision-tree set-up of EasyRMTS™ ensures that participants cannot select incompatible combinations (please refer to the allocation matrix). If new activities are added or removed from the time study, EasyRMTS™ is reviewed and updated accordingly to ensure edits have been made correctly. Edits to the system are effective the first day of the quarter, in line with an accompanying CAP amendment. All amendments related to the RMTS process are prospective.

The following items, at a minimum, are reviewed throughout the quarter and prior to sample generation for the subsequent quarter:

- Identification of upcoming Vermont state or observed federal holidays (excluded from the sample).
- Data related to participant contact information, including full name and e-mail address.
- Participant roster updates to reactivate an employee who may have been on extended leave or to deactivate someone who will be on extended leave or no longer working in the BPS position at DCF.
- Workers who select the wrong activity (based on their own description of their work) are e-mailed directly to explain what the appropriate selection was so that the mistake does not continue to occur (either from reviewing the subsample moments or general observations regarding common mistakes made by participants).

Any employee on extended leave (exceeding six weeks during a single quarter) will be deactivated from the system until further notice. All other instances of leave will be determined on a case-by-case basis by RMTS administrators.

### **Quarterly Calculation of Results**

DCF calculates the quarterly results based on the total number of moments received, minus the number of not scheduled to work (NSTW) and no response moments. Therefore, if 2,761 moments are generated and 500 of those moments received are a combination of unpaid time off or NSTW, the denominator for the calculation is 2,261. All responses in the system, inclusive of NSTW, count as “responses” in determining the overall response rate.

### **Contingency Plan**

In the event of a technical failure or emergency situation, when staff are not able to receive or respond to moments for longer than 5 days, DCF will take the following steps to ensure that a valid sample can still be obtained and that the time study’s statistical validity is not compromised:

1. Upon resumption of the RMTS, DCF will determine how many moments were affected. DCF will then generate a concurrent sample, starting on the day the RMTS is resumed or shortly thereafter, containing the same number of moments that were affected by the outage through the end of the sample period. For example, if 200 moments were affected due to a technical failure DCF will generate a second sample of 200 moments, to run concurrently with the original sample through the end of the sample period.
2. If the situation occurs closer to the end of the quarter and a concurrent sample is not possible or if the issue will be prolonged, the prior quarter RMTS results will be used for the affected quarter.

Any situation where either option is considered will be communicated with CAS and the appropriate cognizant agencies and documented in the RMTS backup and the backup for all claims prepared using this data.

**Slide 3 - What is the Purpose of RMTS?**

## What is the Purpose of RMTS?

- RMTS is a system to collect information on how ESD time is spent, and it is used for funding purposes.
- Each quarter, Central Office is required to collect data, which is then used to figure out how much funding is drawn down from state and federal resources.

**Slide 4 - Why Coding is Important**

## Why Coding is Important

Coding is tied to the money we receive.

In order to capture all the federal dollars Vermont is entitled to, we need to provide accurate RMTS data.

**Slide 6 - RMTS Myths**

# RMTS Myths

**Myth:** “Big Brother” is tracking and judging my performance.

**Fact:** The time study is not about individual performance, it’s a tool that is collecting general Vermont data on how BPS time is being spent.

**Myth:** I don’t have the “right” answer.

**Fact:** The only “right” answer is the accurate description of what you were doing at the time of your “moment”.

**Slide 7 - Timely Participation Needed**

## Timely Participation Needed

- Every moment must be answered within **72 hours** of when you receive it. If the moment is not answered in that given timeframe, it will expire.
- You will receive 24- and 48-hour reminders if you do not respond. Your supervisor will also receive reminders.
- The sooner you respond, the easier it will be to remember your activity at a given moment.

**Slide 8 - We Need You!**

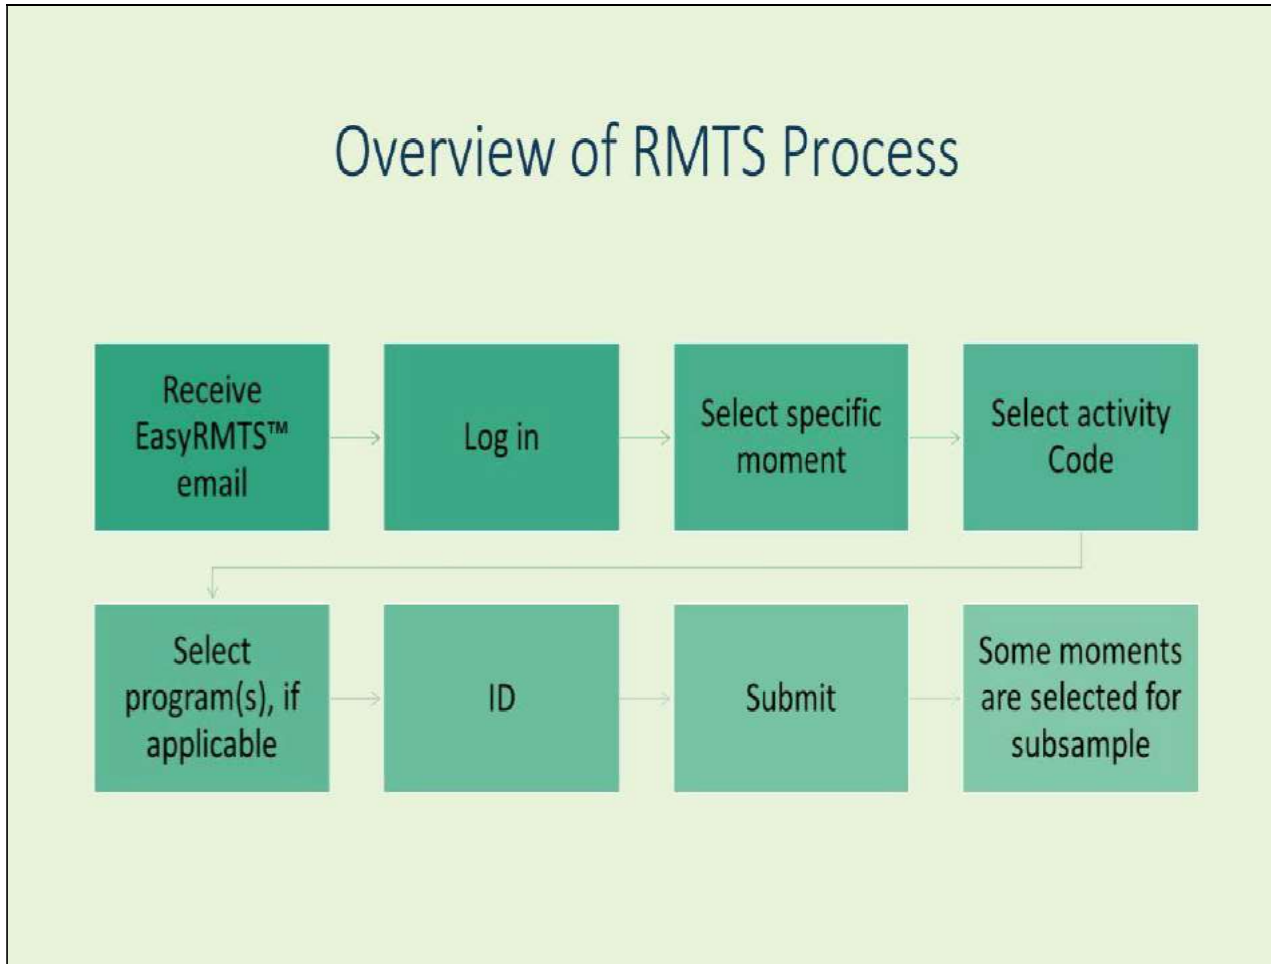

We Need You!

To receive our full allotment of federal dollars, ESD needs plus/minus 3,000 completed moments each quarter!

We use EasyRMTS™ to collect them.

PGC's web-based random moment sampling software, EasyRMTS™, is a proprietary random moment sampling tool that is used to conduct statistically valid random moment time studies (RMTS) of a group of workers. EasyRMTS™ uses a decision-tree question design that allows each time study to be set up in a way that ensures participants select only valid combinations of programs and activities.

PGC's EasyRMTS™ system has many features, including but not limited to

- Decision-tree response process
- Flexible sample parameters (e.g. number of moments, sample response times, etc.)
- Ability to set multiple reminders and cc supervisors
- User-friendly calendar functionality
- Ability to set multiple work schedules and time zones
- Configurable administrator dashboard
- Approved random moment generation algorithm
- Automated sub-sample process
- Quality control checks when recording responses
- Standard reports that meet result tabulation and monitoring needs
- Customized reports
- Customized, detailed user manual
- Secure website and data transfer
- Secure login credentials
- Configurable roles and user access permissions
- Extensive data back-up and disaster recovery plan

# New BPSs

New BPSs are enrolled in the RMTS system upon completion of Combined Eligibility.

They will start receiving moments, at the beginning of the next quarter.

The quarters run from:

- 1/1-3/31
- 4/1-6/30
- 7/1-9/30
- 10/1-12/31

**Slide 14 - Example: Initial Account Setup Email**

Slide 15 - The Email

## Receiving an RMTS Notice

You will receive an email that contains information that you have been selected to complete a Random Moment in Time Study for Vermont ESD.

The subject of the email will read: "URGENT! TIME SENSITIVE RMTS RESPONSE REQUIRED."

Hello,

This is to notify you that you have been randomly selected to complete a random moment time study (RMTS) for the Vermont Department for Children and Families.

The date and time of your moment is: {MOMENT}

Your username is {USERNAME}

You will receive a reminder of your sampled moment after 24 hours and 48 hours if you have not yet responded to the moment.

Please logon to <https://vtrms.easymtspace.com/> to access your moment. You can click on the website link or type the address into your web browser.

If you have any questions, please email [AHS.DCFESORMTSOverdueReport@vermont.gov](mailto:AHS.DCFESORMTSOverdueReport@vermont.gov) or [vtcfhrs@pcgus.com](mailto:vtcfhrs@pcgus.com), or call 833-415-2831. Please note it may take up to nine rings to reach the voicemail. If you do leave a voicemail, we will return your call as soon as possible.

Thank you!

**Slide 16 - Participant Dashboard**

## Participant Dashboard

- The participant dashboard provides users with access to multiple pieces of information at once
- The dashboard contains:
  - The list of outstanding moments
  - Time study instructions and important messages regarding the time study
  - Important Dates
  - Participant reports
  - Training documents

The screenshot displays the EasyRMTS Participant Dashboard. The interface is organized into several sections:

- Moments:** A list of three outstanding moments, each with a date and time (e.g., 11/24/2022 08:14:23).
- Instructions:** A welcome message from the Vermont Department for Children and Families, providing contact information for assistance.
- Important Dates:** A section indicating "No Dates at this time".
- Reports:** A dropdown menu for "Participant Response Rate Report" with a "Go" button.
- Site News:** A welcome message to the EasyRMTS system, directing users to contact their PCG administrator.
- Training:** Two sections, "Compliance Training Document" and "Additional Training Document", both indicating "No Training Document available to download".

The dashboard includes a top navigation bar with the EasyRMTS logo, instance name (VT DCF SPS), and a "Log Out" button. A footer bar features the "PUBLIC CONSULTING GROUP" logo.

**Slide 17 - Select the Specific Moment**

# Select the Specific Moment

Once you are logged in, you'll select the specific moment to respond to. If you have multiple outstanding moments, they will be listed.

Participants can only respond to one moment at a time.

Select the link to answer a moment.

**Slide 28 - 10% of RMTS responses will trigger a message like this:**

## THE SUBSAMPLE PROCESS

10% of RMTS responses will trigger a  
message like this:

“You have been selected for the federally required 10% subsample process to review the activity/program you have selected. Please describe in your own words what you were doing at the time of your assigned moment.”

**Slide 29 - Federal regulations require that 10% of the time study moments be checked for accuracy.**

Federal  
regulations  
require that  
10% of the  
time study  
moments be  
checked for  
accuracy.

- This subsample is randomly generated. You will be notified and asked a final question that requires you to describe your activity in your own words. (This is not optional)

Slide 30 - Answering the Subsample: How much detail?

## Answering the Subsample: How much detail?

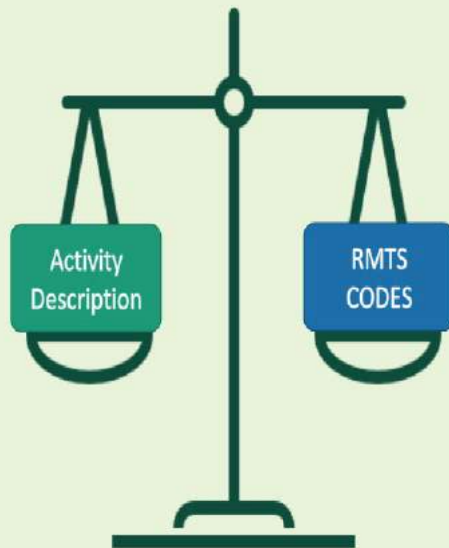

If the moment is *case or work activity related*, you will need to provide details by answering the follow up questions. Please be as descriptive as possible in your responses.

If you receive a moment at a time when you are *not* engaged in a work activity, such as on lunch or on a break, you only need to briefly state that fact. You can then just click through the follow up questions. Extraneous details are unnecessary. Note: This becomes a federal document.

**Slide 31 - What happens to a subsample?**

## What happens to a subsample?

---

- Members of the ESD Operations team are responsible for comparing the subsample descriptions you write, against the program/activity code that was selected, to see if they match/are accurate.
- If your written response does not correspond to the codes in the survey, we may need to throw the response away and start again.

## Other Case Specific Activities

### 1. Customer education regarding eligibility results:

- Explaining the results of eligibility determination to a customer, as well as explaining to a customer their responsibilities under a specific program and how to maintain eligibility.

### 2. Providing EBT specific information to customer:

- Providing any information to a customer who already has an EBT card including providing balance information, password resets, and access issue assistance.

Slide 46 - Slide 42

## Other Case Specific Activities

### 3. Active Case Updates/Changes: documenting case notes or a change to the case.

Any change to an already active case, including but not limited to:

- Employment status
- Household Comp changes
- Reviewing for accuracy
- Generating, printing/copying and/or mailing notification letters to clients
- Closing a case or previewing a pending closure case due to "unable to locate"
- "To-Dos" or "Dailys" related to active cases
- Assisting a coworker with any of the above

### 4. Fraud Referrals:

- All tasks involved in processing fraud referrals and responses

**Slide 47 - Slide 43**

## Other Case Specific Activities

### 5. Fair Hearings and Appeals:

- All worker tasks related to fair hearings and appeals

### 6. Reach Up Sanctions:

- Activities related to Reach Up Sanctions, including processing payments to landlords, meetings, phone calls, collateral calls, e-mails, filing, etc. (*Reach Up only*)

### 7. Reach Up Controlled Vendor Payments:

- Monitoring and making controlled vendor payments for various expenses, including money mismanagement or processing payment requests from the client. (*Reach Up only*)

**Slide 48 - Slide 44**

## Other Case Specific Activities

### 8. Education:

- Educating clients/the public about the benefits and availability of services/programs.
- Assisting a client to fill out a program application.
- Compiling or distributing educational materials about assistance programs.

### 9. Referrals to Medicaid and/or Medical/Behavioral Health Services :

- Referral of a client to Medicaid or other governmental or private agencies for Medical/Behavioral Health services that are not part of the services offered by BPS. (*Medicaid or SSI only*)

### 10. Referrals to Non-Medicaid/Non-Medical, Community Services:

- Referral to/coordination of social services for client, including housing agencies, Family Services, or other governmental or private agencies for Non-Medical services that are not part of the services offered by BPS. (*Not for activities associated with the utility programs.*)

**Slide 50 - 1. Program specific training or reporting**

# 1. Program specific training or reporting

Used for program specific trainings. The trainings and reports can be for any specific program you support clients with:

- Reach Up Financial Assistance
- 3Squares
- Fuel
- General Assistance/Emergency Assistance
- Essential Person
- Emergency Housing

You will be asked to select which program(s) the training or report covered. Any administrative efforts related to this activity should also be coded here.

**Slide 51 - Note on How to Code Training Activities**

## Note on How to Code Training Activities

---

Program Specific trainings should be coded as such. This includes Combined Eligibility, GA, and trainings in LINC, among others.

---

If your RMTS occurs while you are traveling to or from a training, it should still be coded as "Training" with the code for the specific program(s) you are attending training for.

---

If attending a Combined Eligibility or another multi-program training, and you can choose a specific program based on the daily agenda, do so. If the topic covers more than one program, you should choose that combination of programs

Ex. Household Composition would include 3SVT, Fuel and Reach Up, while FMED would just be for 3SVT.

**Slide 52 - 2. General Administrative and General Training Activities**

## 2. General Administrative and General Training Activities

This code includes activities not related to case work and specific clients, but necessary for your job, including:

- Staff meetings
- General trainings not specifically related to ESD program training, such as DV, customer service, interviewing, technology, etc.
- General tasks: breaks; tidying, timesheets, front desk, HR, computer testing/issues, etc.

**Slide 53 - Reminder: All breaks except lunch are work-related activities.**

Reminder:  
All breaks except  
lunch are work-  
related activities.

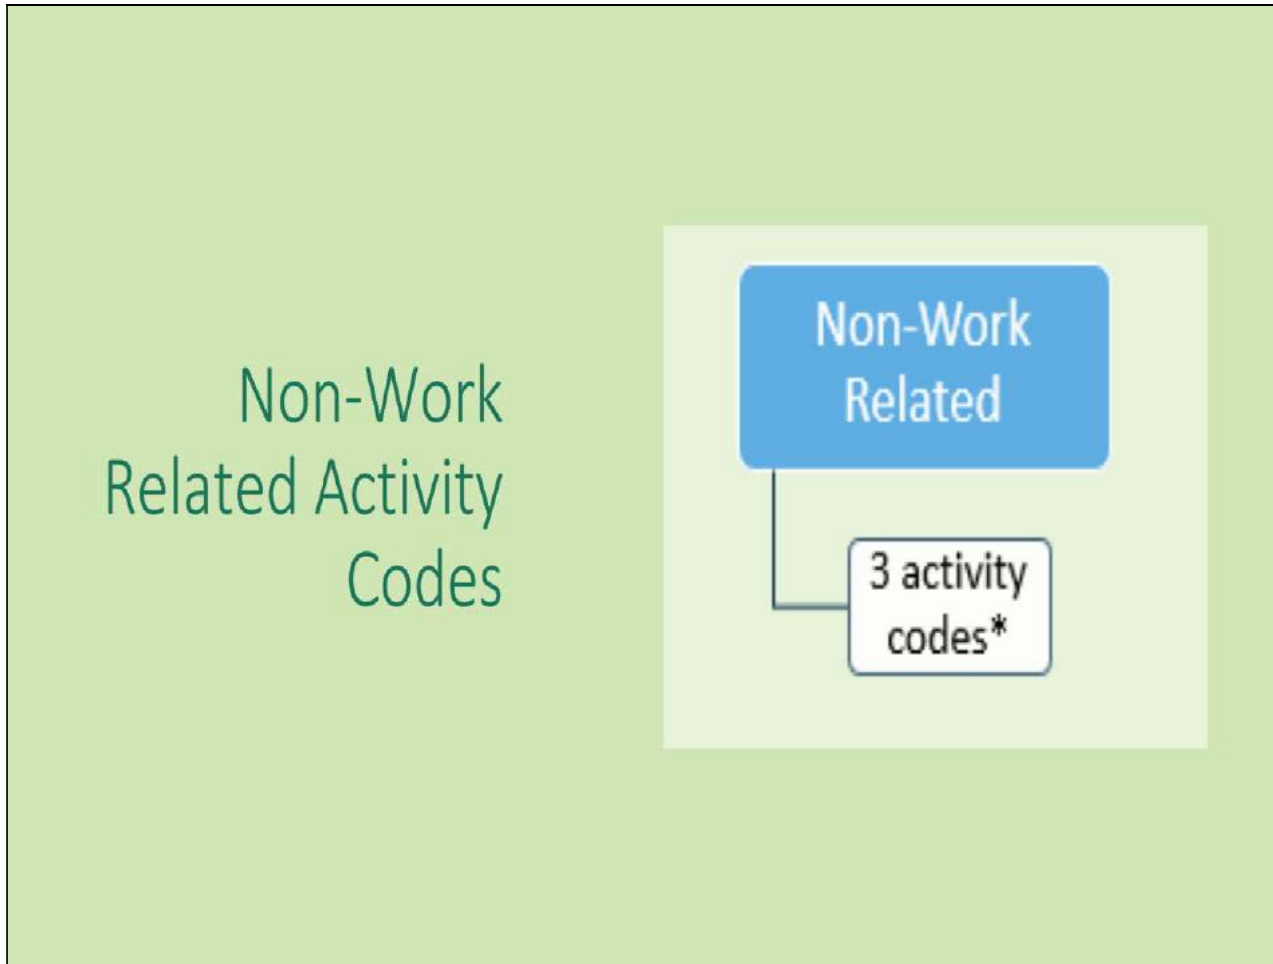

Breaks are frequently mis-coded as  
time off.

*They aren't.* We are getting paid during  
all breaks except lunch.

Please code them as General  
Administrative.

**Slide 54 - Non-Work Related Activity Codes**

**Slide 55 - 1. Paid Time Off (Annual/sick/school/administrative)**

# 1. Paid Time Off

(Annual/sick/school/administrative)

Used when you are not working but are being paid for the time off.

**Examples include:**

- using regular annual leave for vacation
- sick time
- Family Medical Leave Act (FMLA)
- banked leave time
- union leave
- approved personal educational leave
- paid days not working due to a weather emergency

**Slide 56 - 2. Unpaid time off (lunch, not scheduled to work, flex time)**

**2. Unpaid  
time off**  
(lunch, not  
scheduled to  
work, flex time)

---

**Lunch or any approved leave you take that you are not paid for** should be coded here.

---

Also use this code **if you were not scheduled to work** at the time of the moment.

For example, the moment might be before your regular start time, or after your regular end time, or the sample is received at a time when you are not scheduled to work due to your adjusted work schedule. (7:49 a.m. and you do not start until 8:00 a.m.).

---

**Note:** If you are using any paid leave time, do not use this code.

**Slide 57 - Lunch = "Unpaid" Time**

## Lunch = "Unpaid" Time

- We are having an issue where a statistically impossible number of people are having "lunch" during their sample moment.
- Please only use "unpaid" code if you are truly on lunch. If you are working a case or doing administrative tasks, use the relevant code for that activity.

Slide 58 - Slide 54

### 3. Non-DCF Activity or Other Emergency

Use when you perform an activity unrelated to any responsibility that you would normally have as an employee of DCF.

Performing a function for another state agency or working on non-human services activities (Such as in the event of a natural disaster).

Donating blood.

*(Participants will be required to provide a brief description of the activity being performed.)*

**Slide 59 - Choose only the program(s) that you are supporting that client with gaining access to, updating the case notes for, or educating client about at that moment.**

Select the program, or combination of programs, based on your activity at the “moment”.

**Slide 61 - Coding FAQs**

**Slide 62 - Activity Type Clarification**

## Activity Type Clarification

---

A. Stretching your back, getting a drink, going to the restroom, or saying “hi” to a co-worker are all coded as *“General Administrative”*.

---

B. The *“Paid Time Off”* code is used for Annual or Sick leave, or any other time you are not at the office but are getting paid for it.

---

C. *“Unpaid Time Off”* is used for lunch and other times when you are not scheduled to work.

---

**Note:** It is important for your work schedule to be correct in the RMTS system because if you are not scheduled to work, you should not be receiving RMTS emails. If you are, report it to your supervisor.

**Slide 67 - Question 1**

An RMTS moment comes in at 12:02 PM. You don't see it until 2:25 PM. Because it was around lunch time, you code it as "Unpaid Time Off", even though you are not sure you were at lunch at that time. What are the possible ramifications?

## Question 1

- A. Vermont's RMTS data shows there is too much "Unpaid Time Off" being taken.
- B. It may invalidate our data with the Feds.
- C. We can't collect federal dollars for the activity, so VT has less money to hire more front-line workers
- D. All of the above.

## XII. APPENDICES

### A. ACCOUNTING SYSTEM CHART OF ACCOUNTS

The State of Vermont Financial and accounting system VISION is used to meet the state's accounting and financial reporting responsibilities. VISION is an acronym for Vermont Integrated System for Information and Organizational Needs. VISION is a PeopleSoft product.

VISION-Financials is a Web based Oracle/PeopleSoft enterprise financial management system utilizing the following modules: Travel & Expense, General Ledger, Accounts Payable, Purchasing, Accounts Receivable, Billing, Asset Management, Inventory, and Sub recipient Grant Tracking (VT custom module). The system is managed by the Department of Finance & Management in conjunction with the Department of Information & Innovation.

The Chart of Accounts for VISION include the following fields:

<b>Chartfield Name</b>	<b>Length</b>	<b>Description</b>
Business Unit	5 numeric	Identifies the Governmental Agency/Department established Statutorily or Administratively.
Account	6 numeric	Classifies the nature of the operation transactions. Holds the detail coding values for assets, liabilities, equity, revenues, and expenses/expenditure transactions.
Fund	5 numeric	Maintains the fiscal and accounting entities in which financial resources and the use of those resources are grouped according to Statute, regulation, or current accounting standards.
Dept ID	10 numeric	Identifies Governmental Agency/Department operation unit subdivisions.
Program	5 numeric	Maintains a description and a set of objectives toward which activities and resources are directed. AHS uses this field for CAP cost pools.
Class	5 alpha/numeric	Used to track activities relating to programs across program lines based on departmental, administrative, or legislative needs.
Project	15 alpha/numeric	Captures and controls project or grant information which funding sources are applied.
Affiliate	5 numeric	Reference Business unit for intrastate transactions
