AGENCY OF HUMAN SERVICES

OFFICE OF THE SECRETARY
280 State Drive
Waterbury, Vermont 05671-1000

June 30, 2016

Mr. Darryl Mayes
Director, Division of Cost Allocation
Department of Health and Human Services
26 Federal Plaza, Room 41-122
New York, New York 10278

Mr. Mayes:

Attached is the Vermont Agency for Human Services' (AHS) cost allocation plan amendment, effective April 1, 2016, with required certifications.

This cost allocation plan (CAP) amendment contains no major structural or operating changes.

In this submission, we continue our efforts to improve our narrative format, content and design to provide more efficient and effective presentation to our federal partners. Many obsolete codes are being removed and we are adding consistent numbering and language for SWICAP and AHS allocated costs across the Departments.

Please contact Jill Gould at (802)-241-0442 or Jill.Gould@Vermont.gov if you have any questions.

Sincerely,

Hal Cohen
Secretary
Agency of Human Services

I. CERTIFICATIONS

CERTIFICATION OF OUTSIDE COSTS

I hereby certify that wherever costs are claimed for services provided by a governmental agency outside the State of Vermont Agency of Human Services that they will be supported by a written agreement that includes at a minimum: (i) the specific services(s) being purchased; (ii) the basis upon which the billing will be made by the provider agency (e.g., time reports, number of homes inspected, etc.); and (iii) a stipulation that the billing will be based on the actual costs incurred, except where the cost involved are specifically addressed in the State of Vermont Agency of Human Services Public Assistance cost allocation plan. The person signing the certifications must have at least a high level understanding of the plan and its purpose.

I declare that the foregoing is true and correct.

IV. INTRODUCTION

The Vermont Agency of Human Services (AHS) mission is to improve the conditions and well-being of Vermonters and protect those who cannot protect themselves. Whether helping a family access health care or child care, protecting a young child from abuse, supporting youth and adults through addiction and recovery, providing essential health promotion and disease prevention services, reaching out to elder Vermonters in need of at-home or nursing home assistance, enabling individuals with disabilities to have greater independence, or supporting victims and rehabilitating offenders, AHS serves Vermonters with compassion, dedication, and professionalism. AHS has operated since 1969 to serve as the umbrella organization for all human service activities within state government.

The Departments under AHS are: Department of Children and Family Services (DCF), Department of Disabilities, Aging and Independent Living (DAIL), Department of Vermont Health Access (DVHA), Vermont Department of Health (VDH), Department of Mental Health (DMH), and the Department of Corrections (DOC). Appropriate costs allocated as benefitting the Secretary's Office are further reallocated across all other agency-specific benefitting objectives, as described throughout this narrative.

For the administration of the CAP, AHS and the Departments use a web-based software tool to calculate the quarterly CAP results. AHS and each of the Departments have their own unique version of the application to run their costs through the software. Effective 7/1/2015, AHS switched to the web-based, proprietary cost allocation software, AlloCAP™; therefore, the quarter ending 9/30/2015 is the first quarter that will be processed using the software. The software was configured specific to the needs of AHS and each of the Departments' expenditures to appropriately allocate costs as described in the CAP narrative herein. The AlloCAP™ software is hosted on the vendor's server; the vendor is Public Consulting Group, Inc. (PCG). AHS is responsible for processing the CAP and does so at the close of each quarter using the vendor's software.

AlloCAP™ allows the user to import quarterly expenditure data. The data is coded according to the codes assigned to the costs in the state's accounting system and utilized to identify costs in the CAP narrative. These common cost pools are then applied against the appropriate statistics for allocation purposes, as described in the rest of this CAP narrative. Statistics allocate cost pools (Program Codes) using a four step-down methodology. Cost pools and assigned allocation statistics are identified further in this CAP narrative. Statistics used include time study results, total cost methodologies, case counts, position counts, etc. Through AlloCAP™, AHS and the Departments also have access to reports that describe where the money gets allocated to, which allocation methods are used for each cost pool, and what statistics are assigned for each allocation method.

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

IX. COST ALLOCATION METHODOLOGIES AND DEPARTMENTAL ORGANIZATIONAL CHARTS

This Narrative is organized by Department

AHS Secretary's Office

I. Introduction

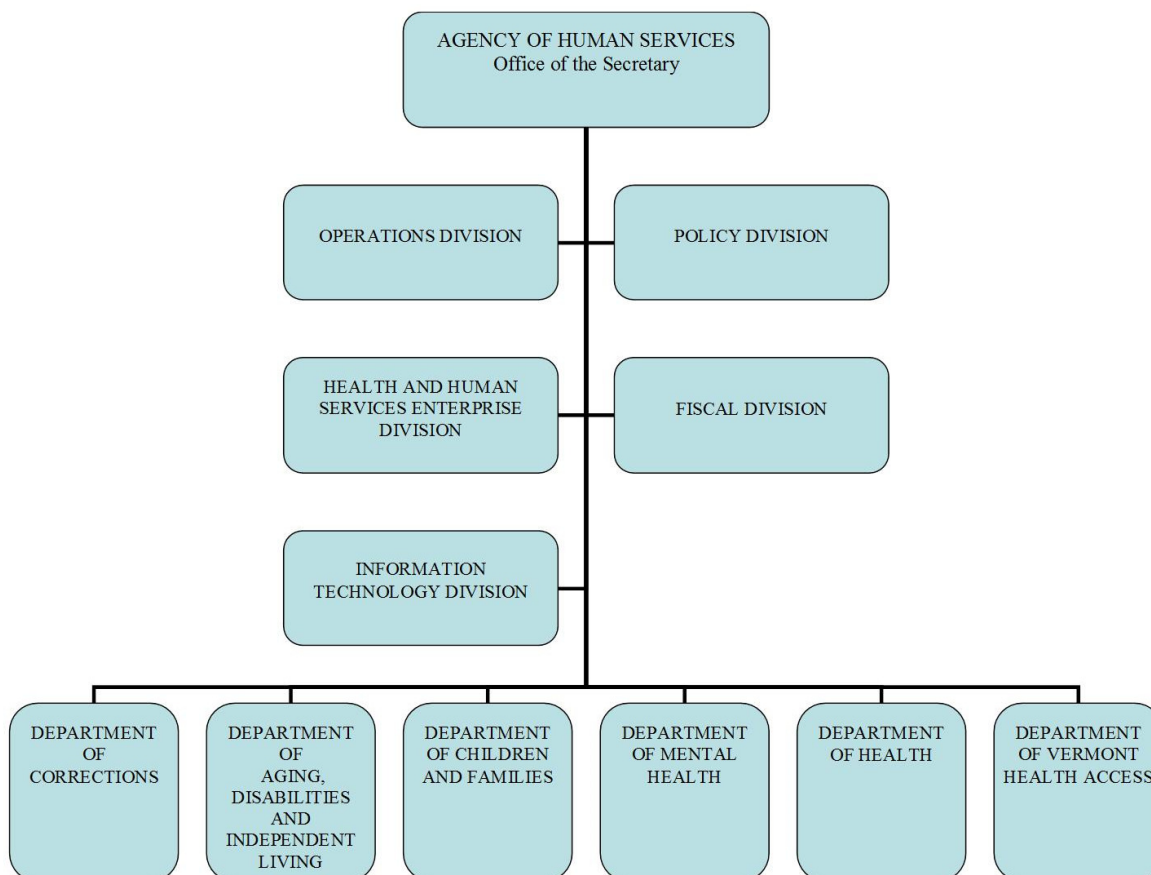

The following narrative represents the cost allocation plan (CAP) for the State of Vermont, Agency of Human Services (AHS). For purposes of this narrative, AHS is also referred to as the "Office of the Secretary", as it is the Secretary's Office, which through its six member Departments and a network of community partners and providers, is responsible for the implementation and delivery of all human service programs within the state. Each Department has a distinct area of focus and responsibility and contributes to the creation and sustenance of an entire system of human service supports. As a single entity, the Agency builds a continuum of care that protects and supports vulnerable Vermonters, addresses individual, family and regional crises as they arise, develops and promotes whole population approaches to physical and behavioral health works to build economic self-sufficiency and keeps Vermont communities safe. The Departments are Department of Children and Family Services (DCF); Department of Disabilities, Aging and Independent Living (DAAIL); Department of Vermont Health Access (DVHA); the Vermont Department of Health (VDH); Department of Mental Health (DMH) and the Department of Corrections (COR). Appropriate costs allocated as benefitting the Secretary's Office are further reallocated across all other agency-specific benefitting objectives.

The Agency of Human Services strives to improve the health and well-being of Vermonters today and tomorrow and to protect those among us who are unable to protect themselves. In carrying out this mission, the Agency vision to ensure this is to:

- The reduction of the impacts of poverty in our state and the creation of pathways out of poverty
- The promotion of health, well-being and safety in our communities
- An enhanced focus on accountability and effectiveness in achieving our goals
- The assurance of high quality health care for all Vermonters

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

Department of Children and Family Services (DCF)

I. Introduction

The following narrative and supporting schedules represent the public assistance cost allocation plan for the State of Vermont, Agency of Human Services (AHS), Department for Children and Family Services (DCF). DCF is the “single state agency” for the Title IV-E, Title IV-B, Title IV-D, Temporary Assistance to Needy Families (TANF), and Food Stamps programs. DCF is also responsible for all Global Commitment (GC) eligibility processes performed in Vermont.

It is the mission of DCF to promote the social, emotional, physical, and economic wellbeing and safety of Vermont’s children and families. This work is done through the provision of protective, developmental, therapeutic, probation, economic, and other support services for children and families in partnership with schools, businesses, community leaders, service providers, families, and youths statewide.

The major Divisions and Offices within DCF are the Child Development Division (CDD), the Office of Child Support (OCS), the Family Services Division (FSD), Economic Services Division (ESD), Disability Determination Services (DDS), and the Office of Economic Opportunity (OEO).

Within this document, we have included an overview of DCF’s organizational structure and a list of the specific functions performed by DCF, referred to as plan departments or cost pools, and the allocation method for each function. Please note that cost pools are developed based on VISION program codes. VISION is the State of Vermont’s accounting system.

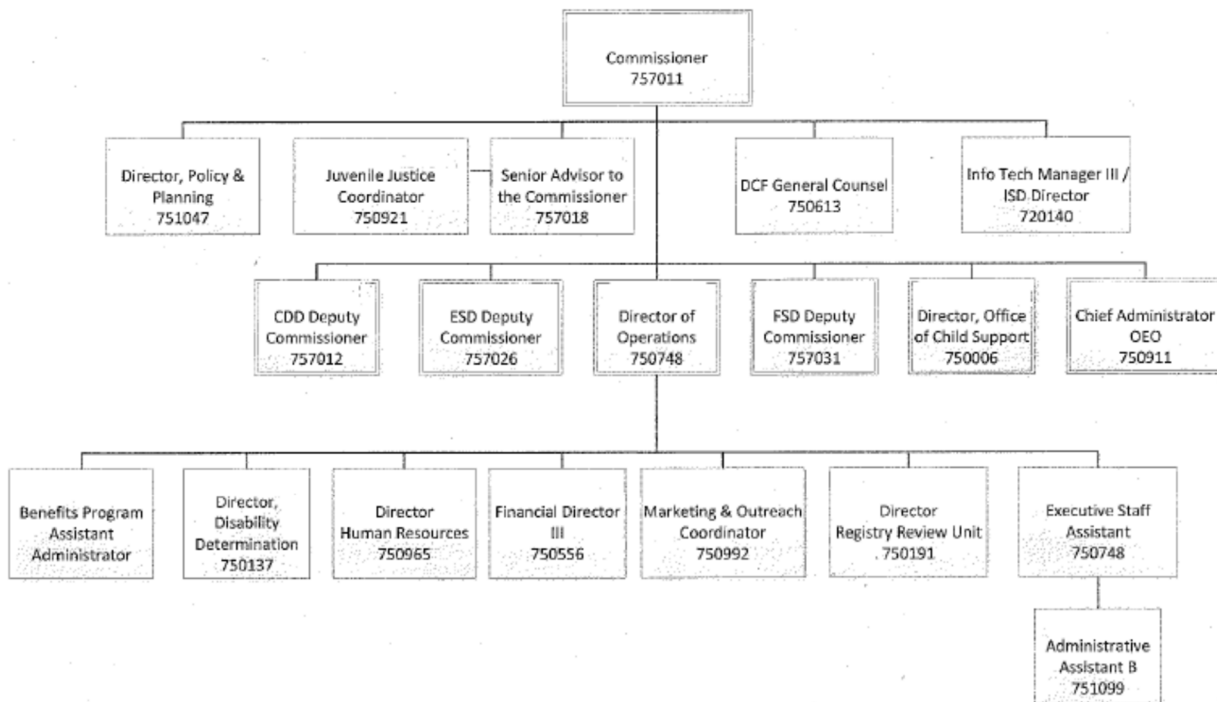

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

Department of Disabilities, Aging and Independent Living (DAIL)

I. Introduction

The following narrative and supporting schedules represent the public assistance cost allocation plan (PCAP) for the State of Vermont, Agency of Human Services (AHS), Department of Disabilities, Aging and Independent Living (DAIL). DAIL is responsible for administering Title III funded programming, Section 110 programming, and developmental disabilities case management services for the State of Vermont.

DAIL Mission Statement

The Department of Aging and Independent Living is the center of the Agency of Human Services' program management and policy development with respect to older persons and persons with disabilities. The Department has the following goals:

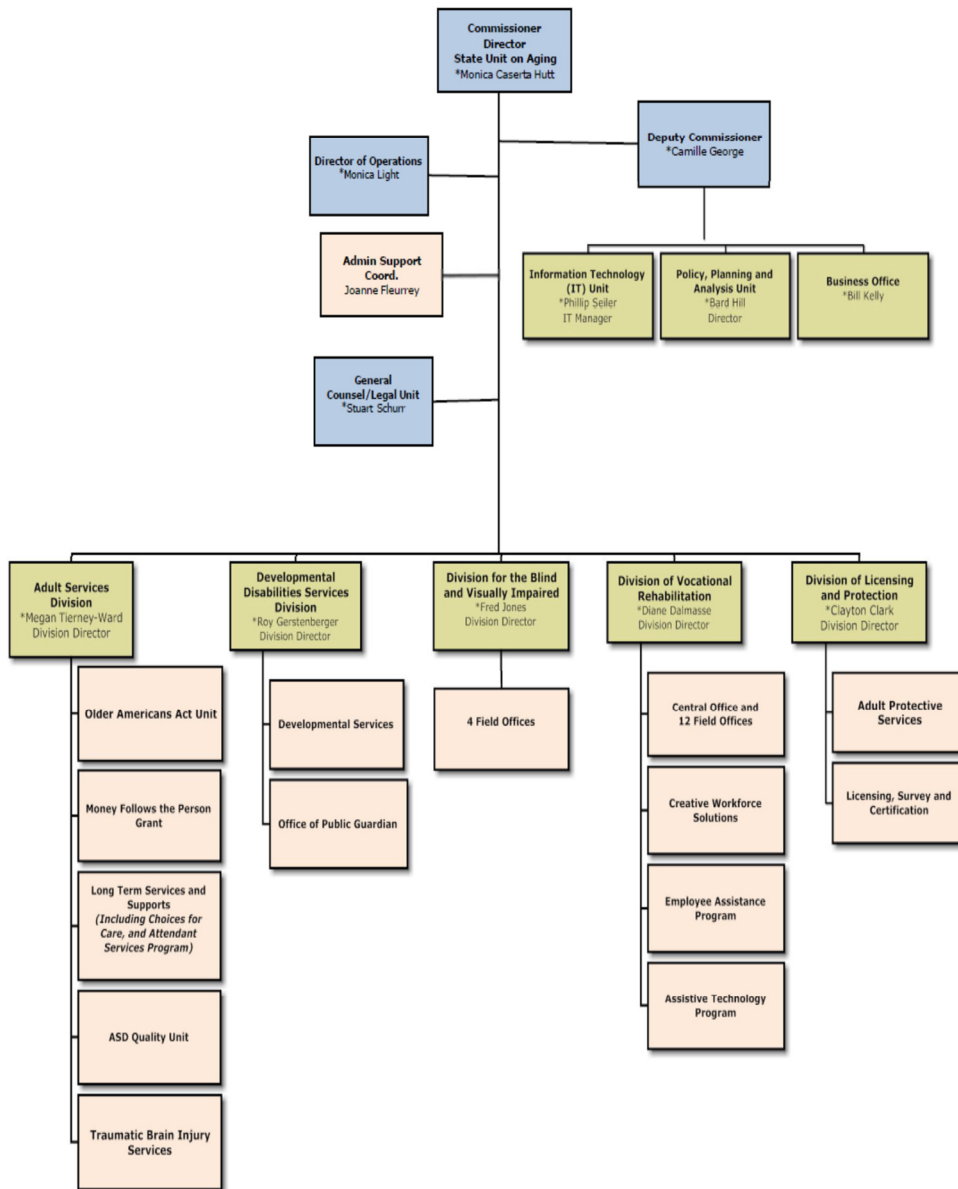

- Assist older persons and adults with physical disabilities to live as independently as possible.
- Assist persons with disabilities to find and maintain meaningful employment.
- Assure quality of care and life to individuals receiving health care and/or long term care services from licensed or certified health care providers and protect elderly and disabled adults from abuse, neglect and exploitation.

Within this document, we have included an overview of DAIL's organizational structure and a list of the specific functions performed by DAIL, referred to as plan departments or cost pools, and the allocation method for each function.

Department of Vermont Health Access (DVHA)

I. Introduction

The DVHA is the State office responsible for the management of Medicaid, the State Children's Health Insurance Program (CHIP), and other publicly funded health insurance programs in Vermont. The DVHA is the largest insurer in Vermont in terms of dollars spent and the second largest insurer in terms of covered lives.

The mission of the DVHA is to:

- Assist beneficiaries in accessing clinically appropriate health services.
- Administer Vermont's public health insurance system efficiently and effectively.
- Collaborate with other health care system entities in bringing evidence based practices to Vermont Medicaid beneficiaries.

During the fall of 2005, the State received approval from the Centers for Medicare and Medicaid Services (CMS) for a Section 1115 Medicaid Waiver known as "Global Commitment to Health Waiver". The Waiver allows the State to fundamentally restructure the Medicaid program and imposes a cap on the amount of federal funding available for services for the Medicaid population. The State exchanged the risk of operating under a capped funding arrangement for the opportunity to use federal Medicaid funds for non-Medicaid health programs.

The goals of the Waiver include:

1. Financial and programmatic flexibility to help maintain public health care coverage and provide for more effective services.
2. To lead in exploring new ways to reduce the number of uninsured.
3. Foster innovation within health care by focusing on health care outcomes.

The Waiver became effective October, 2005, and allows the State to deviate from traditional federal Medicaid law and regulations in the following key ways:

1. Imposes a global cap on federal funds.
2. Establishes the DVHA as a managed care entity (MCE).
3. Allows the State to use federal Medicaid funds for state fiscal relief and non-Medicaid health programs.
4. Provides flexibility to reduce benefits, increase cost sharing, and limit enrollment for optional and expansion populations with some limits.

Within the Agency of Human Services (AHS), the Waiver will allow cross-departmental initiatives to obtain the greatest value from scarce health care dollars. The flexibility of the Waiver allows the State to effectively manage public resources, provide the tools necessary to make health care programs fiscally sustainable, and improve the Vermont health care system.

Under the Global Commitment to Health Waiver, the DVHA is an MCE, and must meet rules for Medicaid MCEs. The DVHA has intergovernmental agreements (IGAs) with the AHS and AHS departments that make them part of the MCE within the framework of the Global Commitment to Health Waiver. The State desires to use the Global Commitment to Health Waiver flexibility to integrate a Chronic Care Management Program (CCMP) into a system of care that can be used to benefit Medicaid beneficiaries, providers, and the DVHA.

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

Organizational Unit 2: Administration

The following program codes, descriptions, and allocation methods are for costs associated with the Commissioner's Office; Information Technology Services; Health Planning; Department Operations, and the Business Office. It had been standard practice that any staff person in the department can code costs to any program code in the department if that code is the most appropriate description of the cost until the May 16, 2013 payday. At that time the State of Vermont converted to a new payroll system. The only Cost Allocation implication of this new payroll system is that employees are given a limited number of program codes from which to choose. However, the practice is to add program codes to employees' list of available codes upon request so that any program code is made available to any employee. There have not been changes in the pattern of time reporting as a result. These program codes are shown within this Division as an approximate guide to the most likely users of these codes.

Detailed explanations of individual functions are included below.

A key element in this program is the web-based random moment time study (RMTS) designed and implemented by the University of Massachusetts, our contractor, in cooperation with the Vermont Department of Health (VDH). VDH submitted descriptions of the RMTS to the Division of Cost Allocation and then to CMS in 2010 and 2011. There were a series of phone conversations with CMS and revisions and re-submission of documents describing the implementation of the RMTS during 2011. A letter approving Vermont's RMTS was sent by CMS Region I on May 16, 2013. Vermont did not receive this letter, however, until a copy was forwarded by DCA on November 25, 2014. The CMS letter approved the RMTS subject to ten conditions. Vermont accepts these conditions. Specifically,

1. Vermont agrees to amend this Cost Allocation Plan whenever there is a change from the RMTS methodology approved by CMS.
2. Vermont agrees that any CMS guidelines related to RMTS or other elements of our claims will be promptly incorporated into our program on a prospective basis.
3. Vermont agrees to seek CMS advance review of any forms or documents that are subsequently developed for this program.
4. Vermont agrees to continue to monitor the overall implementation of the RMTS and to review all claims submitted.
5. Vermont agrees to monitor the RMTS for appropriateness of the use of activity codes by coders and for the proper implementation of the RMTS methodology.
6. Vermont agrees to report to CMS any changes in: the number of RMTS moments to be included in the sample (as described in the "VDH Implementation Guide for Statewide RMTS," Section 1(B) and Appendix A, Section II); the statistical validity of the sample selection and sample results; any changes in the criteria for inclusion of contractual staff in the sample; and any changes in services or administrative activities performed.
7. Vermont agrees to provide oversight of any outside entity contracted to operate or monitor the time study, as described in the "VDH Implementation Guide for Statewide RMTS," Section II, "Oversight and Monitoring."
8. Vermont agrees to submit any changes from the approved plan to CMS prior to implementation. Any such changes will be submitted as a change to this Cost Allocation Plan.
9. Vermont agrees that any costs claimed are subject to review or audit.
10. Vermont agrees to monitor the time study to assure proper use of activity codes and proper application of the methodology.

Department of Mental Health (DMH)

I. Introduction

The Department of Mental Health (DMH) was established by the state legislature effective July 1, 2007.

Within this document we have included an overview of DMH's organizational structure and a list of the specific functions performed by DMH, referred to as plan departments or cost pools, and the allocation method for each function. Please note that the plan department numbers correspond to internal AHS program codes, from the state accounting system.

Our cost allocation plan (CAP) narrative is broken out into organizational areas called "cost centers" that are based on the sections of our organizational chart. Cost centers are comprised of various plan departments or units of cost that fall under each cost center.

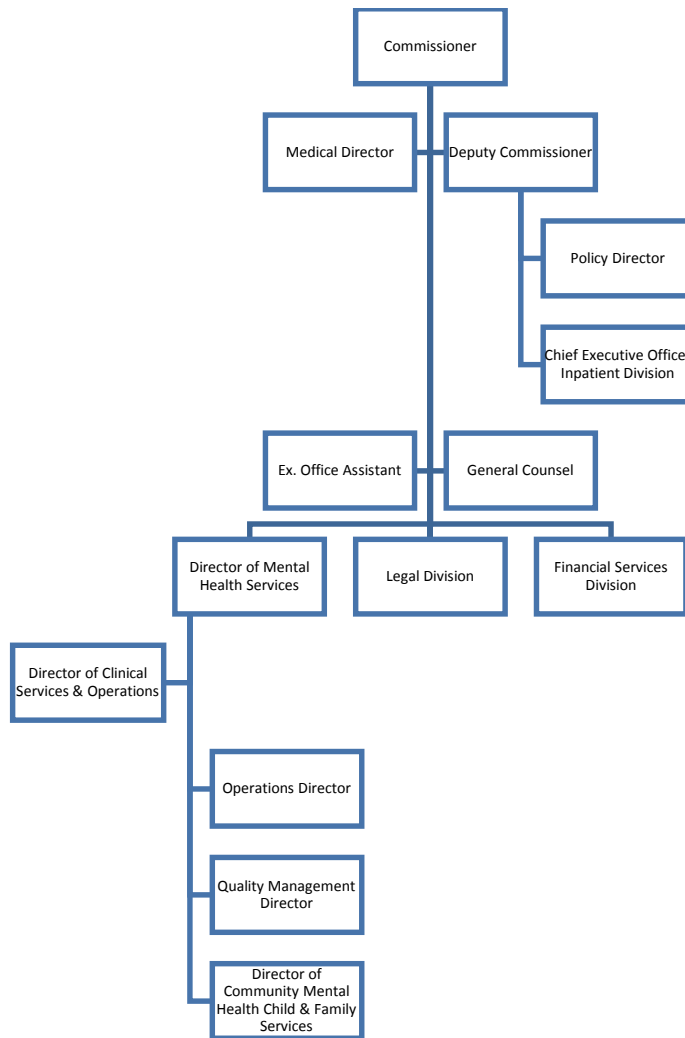

Staff at DMH direct code their time to the programs they support throughout their work day. DMH staff enters their time into the state's payroll system. When staffs enter timesheet information, they "direct code" their time and the data feeds the VISION accounting system. Staff performing support functions will use their assigned VISION code unless they work on a specific function where they are required to direct code their time to a specific function or program. Staff who works across multiple programmatic and direct service areas will code their time appropriately to multiple VISION codes. 100% of staff time is recorded. As a result, the staff costs in each VISION code are from staff recording their time, and an individual's cost may appear in more than one code, though it cannot exceed the total cost of that employee.

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

II. Organizational Chart

DMH has set up our cost allocation plan narrative to mirror the organizational structure under which it operates. Section VI of this document describes, in narrative form, our cost allocation process. We have included a table that breaks out each of our cost pools, which mimic the boxes below on the organization chart; the narrative and organizational chart crosswalk to one another, and the narrative further describes the programs that the units within DMH administer.

X. TIME TRACKING AND TIME STUDY INFORMATION

ESD Time Study

The random moment time study (RMTS) is a survey process that includes all of the activities performed by the Economic Services Division (ESD), Benefit Programs Specialists (BPS) within the Vermont Department for Children and Families (DCF). An updated study begins on July 1, 2015. Participating staff are those who support multiple programs administered by DCF in ESD. Based on these observations, the total effort of a group of employees is determined with a high degree of confidence that approximates the same results as having observed employees for 100% of their time at work. The results of the RMTS are used in the quarterly cost allocation plan (CAP) to allocate department costs to reimbursable and non-reimbursable areas. This level of detail is required for DCF to participate in federal claiming efforts.

The RMTS must be conducted on a continuous basis to support quarterly claiming efforts.

We thank participants in advance for their time and cooperation. Please direct all questions to either Public Consulting Group, Inc. (PCG) at vtcfbbs@pcgus.com or DCF at AHS.DCFESDOverdueReport@state.vt.us. Participants may also call the PCG hotline at 866-912-2983.

How to Complete the Random Moment Time Study

Participants receive an e-mail that directs them to a website via a web link. Participants log in to the system and then answer several different questions. Depending on the answers to the questions, they select from a list of individual activity and program codes.

After answering all of the questions provided, the user selects a Submit button to respond to the survey. The surveys must be completed within 72 hours. Participants receive a reminder e-mail 24-hours and 48-hours after each moment if the survey has not yet been completed. If a participant is working on a case, the worker is asked to provide the client's first initial, last name, and last four digits of the client's social security number (SSN) as a unique case identifier.

The RMTS is mandatory and must be completed in a timely manner. Every survey that is assigned must be completed! Moments stay 'live' in the system for 72 hours so if a participant is on leave for a short time, they must still complete the moment upon their return.

RECORDING VHC ACTIVITIES

DCF BPS staff may connect Medicaid applicants to the Vermont Health Connect (VHC, the State's Health Insurance Exchange) to seek enrollment in a qualified health plan and premium tax credit and cost sharing reduction programs through the federal exchange. Staff activities in support of Medicaid or VHC eligibility determinations are considered to be part of the Medicaid program for the purpose of completing this time study.

For example: If participants direct a client to VHC, provide them with the website or phone number for VHC, connect them with HAEU staff, or provide the applicant with information on how to apply for the health insurance programs offered by the VHC, participants would select the following activity and program code combination:

Case Specific Activity Code: Eligibility Determination or Redetermination Work

Program Code: Medicaid

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

ROOT QUESTION

The following describes each of the activities available to RMTS participants. Activities performed and programs administered on behalf of the client are described below. *Please note that meetings, phone calls, e-mails, filing, driving, and similar other administrative tasks should be tied to the activity that they are in support of; these are not general administrative activities unless they are truly not tied to a case.*

The first question a participant is asked when completing the time study is: Were you working on a Case or on behalf of a client? The participant responds Yes or No.

For the purpose of the RMTS, a case is any client where you are actively working on assisting the client to access or continue accessing state or federal benefit programs. Please review the following examples for clarity.

- 1. If you are performing lobby monitoring to assist a potential client apply for a federal or state assistance program, regardless of whether a case has been opened, it is considered a case-related activity; select the Eligibility Determination and Redetermination activity and then select the federal or state program to which the client is applying.*
- 2. If you are performing lobby monitoring and directing a potential client to the Vermont Health Insurance Exchange, it is considered a case-related activity; select the Eligibility Determination and Redetermination activity and then select the Medicaid program.*
- 3. If you are performing lobby monitoring and there is no one in the lobby at the time of your assigned moment, it is not considered a case-related activity; select General Administrative and General Training Activities as your activity and you will not be asked to select a program(s) that the effort was in support of.*

After selecting Yes or No, the participant is asked to first identify their activity, and then select the program(s) the activity is associated with.

CASE SPECIFIC ACTIVITY CODES

Please select the activity you are performing at the time of your moment, not the type of case.

1. Eligibility Determination or Redetermination

This activity includes all efforts made to determine or redetermine eligibility for a program on behalf of a client. Examples include:

- a. Scheduling and conducting client initial interviews;
- b. Reviewing case records for initial eligibility determination or redetermination;
- c. Verifying documents;
- d. Conducting verification requests;
- e. Verifying factors related to eligibility;
- f. Preparing calculation entries or computations;
- g. Data entry for eligibility purposes (including filling out forms specifically used for Reach Up Financial Assistance);
- h. Issuing vouchers for prescriptions, dental emergencies, or durable medical equipment (specifically for General Assistance clients);
- i. Completing necessary online forms to determine eligibility;
- j. Discussing eligibility determination requirements with a client or a DCF case participant; and
- k. Following up on "To-Do's" related to eligibility determination or redetermination requirements.

These activities may be completed when the client is present or on the telephone. Meetings, phone calls, collateral calls, e-mails, filing, driving, mailing, contact with case managers, working in ININ, and other similar administrative tasks associated with this activity should also be coded here.

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. 2. Utility Eligibility, Outreach, and Referrals

This activity includes all efforts made to determine or redetermine eligibility for Vermont Gas or Green Mountain Power. This activity should also be used for outreach or referrals to a utility program. This activity should only be used when performing these activities related to Vermont Gas or Green Mountain Power. ***Please note that the only Program allowed for selection after choosing this activity is “Utility Discount”.*** Meetings, phone calls, collateral calls, e-mails, filing, driving, mailing, contact with case managers, working in ININ, and other similar administrative tasks associated with this activity should also be coded here.

3. Active Case Updates/Changes

This activity should be selected when documenting case notes or a change to the case in a client record. Examples include but are not limited to any of the following:

- a. Documenting changes regarding employment status;
- b. Documenting changes regarding the number of children in the household;
- c. Supporting an audit request/case read by rerunning/correcting budgets or producing documents missing from the file;
- d. Reviewing or performing a case read for accuracy;
- e. Processing a 218E;
- f. Splitting a case or transferring a case to another worker, county, or district;
- g. Processing over/under payments;
- h. Performing QA variances;
- i. Cleaning up the case file;
- j. Generating, printing/copying, and/or mailing notification letters to clients; and
- k. Closing a case or previewing a pending closure case due to “unable to locate”.

Time spent following up on “To-Do’s” or “Dailys” related to updates or changes on active cases should also be coded here. Meetings, phone calls, collateral calls, e-mails, filing, driving, mailing, contact with case managers, working in ININ, and other similar administrative tasks associated with this activity should also be coded here.

4. Fraud Referrals

This activity includes all tasks involved in processing fraud referrals and responses. This activity includes:

- a. Referring to and communicating about potential fraud to a Supervisor, the Fraud Unit, or the Investigations Unit at DCF;
- b. Gathering information and documenting the referral for submission;
- c. Processing over/under payments; and
- d. Conducting QA variances due to potential fraud.

Meetings, phone calls, collateral calls, e-mails, filing, driving, mailing, contact with case managers, working in ININ, and other similar administrative tasks associated with this activity should also be coded here.

5. Fair Hearings and Appeals

This activity involves all worker tasks related to fair hearings and appeals, including but not limited to:

- a. Responding to fair hearing requests;
- b. Meeting with the client for pre-hearing conferences;
- c. Attending administrative hearings;
- d. Testifying at administrative hearings;
- e. Attending an appeals case; and
- f. Preparing pre-process or post-hearing paperwork or other documentation for any of these scenarios, including the 113 report.

Meetings, phone calls, collateral calls, e-mails, filing, driving, mailing, contact with case managers, working in ININ, and other similar administrative tasks associated with this activity should also be coded here.

6. Reach Up Sanctions

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

This activity should be selected when performing activities related to Reach Up Sanctions, including processing payments to landlords on behalf of the Reach Up client until the client complies with penalties and attends a follow up meeting with the BPS. Meetings, phone calls, collateral calls, e-mails, filing, driving, mailing, contact with case managers, working in ININ, and other similar administrative tasks associated with this activity should also be coded here. ***Please note that the only Program allowed for selection after choosing this activity is “Reach Up”.***

7. Reach Up Controlled Vendor Payments

This activity should be selected when monitoring and making controlled vendor payments for various expenses, including money mismanagement or processing payment requests from the client. Meetings, phone calls, collateral calls, e-mails, filing, driving, mailing, contact with case managers, working in ININ, and other similar administrative tasks associated with this activity should also be coded here. ***Please note that the only Program allowed for selection after choosing this activity is “Reach Up”.***

8. Outreach and Education Activities

This activity should be used when performing activities related to outreach about the assistance programs offered by DCF. This activity includes any time spent:

- a. Conducting outreach about services offered by the programs BPS administers;
- b. Educating potential clients about the benefits and availability of services;
- c. Encouraging clients to access state and federal services and programs;
- d. Compiling and distributing educational materials about assistance programs; and
- e. Assisting a client fill out a program application.

Meetings, phone calls, collateral calls, e-mails, filing, driving, mailing, contact with case managers, working in ININ, and other similar administrative tasks associated with this activity should also be coded here.

9. Referrals to Medicaid and/or Medical/Behavioral Health Services

This activity includes referral of a client to Medicaid or other governmental or private agencies for Medical/Behavioral Health services that are not part of the services offered by BPS. This activity includes time spent:

- a. Working with Community Connections related to the medical needs of the client;
- b. Connecting clients with medical/behavioral health services; and
- c. Coordinating medical/behavioral health services for the client.

Meetings, phone calls, collateral calls, e-mails, filing, driving, mailing, contact with case managers, working in ININ, and other similar administrative tasks associated with this activity should also be coded here. ***Please note that the only Program allowed for selection after choosing this activity is “Medicaid” or “SSI”.***

10. Referrals to Non-Medicaid/Non-Medical, Community Services

This activity includes referral of client to social services, housing agencies, Family Services, or other governmental or private agencies for Non-Medical services that are not part of the services offered by BPS. This activity includes time spent:

- a. Working with Community Connections related to the non-medical needs of the client;
- b. Connecting clients with non-medical/non-behavioral health services such as social or religious groups or affiliations; and
- c. Coordinating non-medical/non-behavioral health services for the client.

This activity should not be used to record activities associated with the utility programs. Meetings, phone calls, collateral calls, e-mails, filing, driving, mailing, contact with case managers, working in ININ, and other similar administrative tasks associated with this activity should also be coded here.

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

NON-CASE SPECIFIC ACTIVITY CODES

1. Program Specific Training or Reporting

This activity should be used for program specific trainings related to your job as a BPS participant. This activity should also be used for any time you spend creating, editing, or updating program specific reports. The trainings and reports can be on any specific program you support clients with. Examples include trainings and reports on topics such as:

- a. Reach Up Financial Assistance;
- b. 3Squares;
- c. Fuel;
- d. Medicaid;
- e. SSI;
- f. General Assistance/Emergency Assistance;
- g. Essential Person;
- h. Utility Discount;

You will be asked to select which program(s) the training or report covered. Any administrative efforts related to this activity should also be coded here.

2. General Administrative and General Training Activities

This code includes activities performed not related to case work and specific clients but necessary for your job. Please use this activity code for tasks such as:

- a. Attending work-related conferences within your office;
- b. Attending conferences or one-on-ones with your supervisor to discuss non-case related issues;
- c. Attending general trainings not specifically related to your job as a BPS participant, such as:
 - a. Domestic Violence;
 - b. Long Term Care;
 - c. Eligibility Redetermination;
 - d. Interview Training;
 - e. Using the ININ phone system;
 - f. Email system usage;
 - g. Fire drills;
 - h. RMTS training;
 - i. General office procedures trainings; or
 - j. Mentoring New Workers on any of these programs.
- d. Bathroom or Personal Breaks;
- e. Cleaning or organizing your workspace;
- f. Completing your timesheet;
- g. Filling out or looking at the "Daily Duties" spreadsheet;
- h. Preparing for or involvement in office functions;
- i. Covering the front desk (greeting clients and answering phones);
- j. Filling out personnel forms for human resources;
- k. Attending general staff meetings not related to your cases;
- l. Processing general mail/faxes/e-mails not related to a case;
- m. Testing computer systems or working with IT to fix a computer problem; and
- n. Reading new office policies not specific to any of the programs you work with.

You will be asked to describe the activity in your own words, and this activity should not be used for any phone call, collateral calls, e-mail, documentation activity, travel to/from meetings with clients or required trainings that you attend, or filing activity if you can tie it to a specific case. Any administrative efforts related to this activity should also be coded here.

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

NON-WORK RELATED ACTIVITY CODES

1. Paid Time Off (Annual/Sick/School/Administrative Leave/Comp)

This activity is used when the participant is not working but is being paid for the time off. Examples include using regular annual leave for vacation, sick time, Family Medical Leave Act (FMLA), banked leave time, union leave, or approved personal educational leave. Paid days not working due to a weather emergency would also be recorded here.

2. Unpaid Time Off: Lunch or Not Scheduled to Work/Flex Time

Any approved leave you take that you are not paid for should be coded here. Use this activity code if you were either not scheduled to work at the time of the observation, (i.e., it is before your regular start time, or after your regular end time, or the sample is received at a time when you are not scheduled to work due to your adjusted work schedule). For example,

- a) you flex on Monday and the sample is received on Monday.
- b) the sample is before or after your regular work hours (e.g., at 7:49 a.m. and you do not start until 8:00 a.m.).

Sick, vacation, annual leave, and “snow or weather” days should not be coded here unless you are not paid for the time off.

3. Non-DCF Activity or Other Emergency Situation

This activity should be used when the participant performs an activity unrelated to any responsibility that they would normally have as an employee of DCF. Examples may include performing a function for another state agency or working on non-human services activities in the event of a natural disaster. Participants are required to provide a brief description of the activity being performed when this activity is chosen.

PROGRAM CODES

Please select the program/program combinations you are supporting at the time of your moment. If you are assisting a client with one activity that supports multiple programs, please select the appropriate combination of programs.

1. Reach Up

Reach Up provides temporary cash and financial assistance to families with children and pregnant women who meet certain financial and nonfinancial eligibility factors in order to help them pay for living expenses such as rent, heat, utilities, clothing, food, and personal care items. This program includes two-parent families and incapacitated families, and also includes time spent on Reach First and Reach Ahead.

2. 3 Squares

3Squares provides temporary food assistance benefits to eligible households and individuals with low income to increase their food purchasing power.

3. Fuel

The Fuel program assists applicants with safe, decent, affordable housing and other essential needs, as well as assistance to help with household heat, electric, and home repair costs, when an emergency situation arises.

4. General Assistance (GA) and Emergency Assistance (EA)

General Assistance provides financial assistance to disabled adults who are not eligible for Reach Up to meet their basic personal and shelter needs such as dental and housing assistance.

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

5. Essential Person (also called “Aid to the Aged, Blind, and Disabled (AABD)”)

Essential Person provides financial assistance to help aged, blind, and disabled people who have little or no income with a cash benefit to help contribute to the cost of having someone live with them to provide essential care.

6. Medicaid

The Medicaid program provides medical assistance to those who meet the financial and nonfinancial eligibility factors to ensure that essential health care services are made available to those who otherwise would not have financial resources to purchase them.

7. Social Security Income (SSI)

SSI is a Federal income supplement program designed to help aged, blind, and disabled people who have little or no income with a cash benefit to provide for basic needs such as food, clothing, and shelter.

8. Utility Discount

The Utility Discount programs through Green Mountain Power and Vermont Gas provide financial assistance to eligible households with low income to help with household energy and natural gas.

9. Reach Up/3 Squares

Includes activities in support of a Reach Up/3 Squares multi-program case or application, when the worker is assisting a client with both programs with the same activity.

10. Reach Up/GA and EA

Includes activities in support of a Reach Up/GA and EA multi-program case or application, when the worker is assisting a client with both programs with the same activity.

11. Reach Up/Fuel

Includes activities in support of a Reach Up/Fuel multi-program case or application, when the worker is assisting a client with both programs with the same activity.

12. Reach Up/3 Squares/Fuel

Includes activities in support of a Reach Up/3 Squares/Fuel multi-program case or application, when the worker is assisting a client with the three programs with the same activity.

13. Reach Up/3 Squares/Fuel/GA and EA

Includes activities in support of a Reach Up/3Squares/Fuel/GA and EA multi-program case or application, when the worker is assisting a client with the four programs with the same activity.

14. 3 Squares/Fuel

Includes activities in support of a 3 Squares/Fuel multi-program case or application, when the worker is assisting a client with both programs with the same activity.

15. 3 Squares/Essential Person

Includes activities in support of a 3Squares/Essential Person multi-program case or application, when the worker is assisting a client with both programs with the same activity.

16. 3 Squares/GA and EA

Includes activities in support of a 3Squares/GA and EA multi-program case or application, when the worker is assisting a client with both programs with the same activity.

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

17. 3 Squares/Fuel/Essential Person

Includes activities in support of a 3Squares/Fuel/Essential Person multi-program case or application, when the worker is assisting a client with the three programs with the same activity.

18. 3 Squares/Fuel/GA and EA

Includes activities in support of a 3Squares/Fuel/GA and EA multi-program case or application, when the worker is assisting a client with the three programs with the same activity.

19. 3 Squares/Fuel/GA and EA/Essential Person

Includes activities in support of a 3Squares/Fuel/GA and EA/Essential Person multi-program case or application, when the worker is assisting a client with the four programs with the same activity.

20. Fuel/GA and EA

Includes activities in support of a Fuel/GA and EA multi-program case or application, when the worker is assisting a client with both programs with the same activity.

21. Fuel/GA and EA/Essential Person

Includes activities in support of a Fuel/GA and EA/Essential Person multi-program case or application, when the worker is assisting a client with the three programs with the same activity.

22. GA and EA/Essential Person

Includes activities in support of a GA and EA/Essential Person multi-program case or application, when the worker is assisting a client with both programs with the same activity.

23. All Programs: Reach Up/3 Squares/Fuel/GA and EA/Essential Person

Includes activities in support of a Reach Up/3Squares/Fuel/GA and EA/Essential Person multi-program case or application, when the worker is assisting a client with the five programs with the same activity.

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

BPS Time Study

Introduction

The purpose of this random moment time study (RMTS) is to measure the level of effort spent on various eligibility activities performed by Benefit Programs Specialists (BPS) in the State of Vermont. These staff, who are all state employees, perform integrated eligibility determination activities on behalf of residents in the state and clients served by the Department for Children and Families (DCF) and other Departments within the Agency of Human Services (AHS) umbrella. Organizationally, BPS staff work in the Economic Services Divisions (ESD) of DCF.

The time study is administered using EasyRMTS™, which is a tool that has been developed by Public Consulting Group, Inc. (PCG). EasyRMTS™ is an automated, web-based RMTS application that gives users a comprehensive tool for administering a time study for federal claiming, cost allocation, or other similar activities. Fully customizable for an individual agency or school district's specific requirements, EasyRMTS™ gives an administrative user the capability to assign random moments, monitor staff participation, update respondents' information, create and produce reports for federal claiming and other purposes, and view and analyze tabulated responses from participating staff. Participants of an EasyRMTS™ administered time study only need to have access to the Internet and an e-mail address in order to receive and complete their assigned random moments.

The application serves its state and local government or school district users by allowing for a timely and effective system to record staff activities performed, especially with respect to key federal programs that are supported by their staff. The automated RMTS application was developed to comply with all federal rules and regulations related to cost allocation practices and claiming for reimbursement of federal dollars. The software supports accurate reporting of reimbursable administrative activities, which are generally required by federal approving agencies to be measured through a time study. EasyRMTS™ puts the least administrative burden on staff as possible while allowing users to measure their time and claim for federal revenue. The system allows participants to indicate directly, via a series of survey questions in the software, the activities and programs they are supporting.

The purpose of this manual is to provide step by step explanation of how to complete the Vermont DCF BPS RMTS. It has been created to assist DCF in managing and administering the RMTS. It serves as a procedural guide and instructional tool for sustaining the RMTS for its ongoing support of the cost allocation plan (CAP) process.

Please note that DCF is a state administered system. The use of the word "county" or "local office" indicates where the participant is physically located. The reference is still a person employed by the state.

Operation

There is a single RMTS (with ~~2,829~~ 2,804 moments per quarter) operated for ESD BPS staff. PCG provides the EasyRMTS™ system (via a web-hosted service), generates each quarterly sample, provides assistance to DCF with monitoring participant responses, and provides customer service. The sample is generated using data from the payroll system on a quarterly basis. Participants are responsible for selecting activity and program codes when they respond to the RMTS. Initial training is provided by PCG, while annual refresher and ongoing new worker training is conducted by DCF. The following table displays the responsibilities of PCG and DCF when it comes to RMTS administration.

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

Sampling Population

The sampling population includes eligibility workers within DCF. These participants work to assess the need and determine eligibility for multiple public assistance programs. Specifically, workers included in the RMTS are Economic Services Division (ESD) Benefit Programs Specialists (BPS) within DCF.

BPS staff ensure that each person or family that applies for public assistance receives the type and level of assistance that they are eligible for. The BPS reviews the application and decides which forms and verifications are needed. The specialists then evaluate the information contained in all documents and uses complex policies and procedures to determine eligibility. The BPS also assess the needs of each person/family and provide appropriate information; making any referrals and/or contacts to persons/agencies to help them meet their needs. The BPS provide all families with information about the expectations and goals of DCF programs and maintaining eligibility. These positions also process changes as necessary on active cases.

Supervisors are not included in the RMTS.

On a quarterly basis, DCF updates the information for all staff members participating in the RMTS to account for new staff, terminated staff, and staff on long-term leave and updates the actual sample on a quarterly basis (for each new quarterly sample). Throughout the quarter and before the subsequent quarterly sample is drawn, RMTS administrators at DCF collect additions, deletions, and schedule changes and update the software system accordingly (note that these changes have no effect on the current sample). Changes are accepted by DCF until the sample is drawn for the next quarter. If a person leaves mid-way through the quarter, their supervisor notifies the RMTS administrators, and the leave information is noted so as to not initiate additional follow up. RMTS administrators change that individuals e-mail to a “dummy” e-mail address to stop e-mails from going out, but there is no type of replacement in the system. These moments are counted as non-responses.

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

It is important to note the DCF participants who have participated in the RMTS in the past, but whom are no longer in the sample selection (e.g., retired, left position), are not deleted from the EasyRMTS™ database but are deactivated so that prior quarter data is available for audit trail purposes.

Sampling Unit

An RMTS asks a participant what they are doing at a specific moment in time (e.g., 11:48 a.m.). The RMTS sampling unit is defined as a single minute, or sixty second length of time, randomly selected within the workday of each participant. The moments for the participants occur between the work schedules assigned to the individual workers. The moments are drawn from the core hours for each working day in a quarter, exclusive of official state holidays. Participants receive the e-mail within a few minutes after their assigned random moment time. There is no pre-notification of when a participant will have a moment assigned to them.

Responses and Response Time

Participants have 72 hours to respond to all moments. If the participant does not respond to their moment within the first 24 and 48 hours, reminder e-mails are sent to both the participant and their supervisor, requesting that they answer their moment. The moment expires after 72 hours. Reminder e-mails do not include the participant's username and password to ensure that only the participant has access to their unique login credentials and that no one other than the participant responds to their moments.

DCF RMTS administrators are cc'd on all reminder e-mails and follow-up with non-responders as needed. If a specific individual is identified as a non-responded, the RMTS administrators notify the specific supervisor so that person may be further trained on the importance of completing the RMTS. If a systemic issue is identified, communication is sent to all participants. PCG and DCF may also send out occasional e-mails over the holidays or other times when participation may be less to ensure that individuals are responding to the RMTS whenever possible.

Sampling Period

The sampling period is a calendar quarter.

Confidence and Precision Level

This level is kept at 95% confidence level with +/- 2% precision for all activities. This level is consistent with federal regulations for statistical validity. Cost Allocation Services (CAS, formerly the Division of Cost Allocation or DCA) determines that statistically validity is met when the minimum number of moments received (responded to) as determined in the formula below.

Sample Size

DCF generates ~~2,829~~ 2,804 moments per quarter for the RMTS. This number is to ensure that 2,000 valid observations are obtained and is in compliance with the federally-required formula below. Specifically, the Public Assistance Cost Allocation Plan Review Guide states that:

The sample size needed may be determined from the formula included in the State Guide. The State Guide specifies that a minimum 2,000 valid observations per sample period be obtained. A "valid observation" is defined as any observation other than a "non-strike". A "non-strike" occurs whenever

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

a selected employee could not be contacted at the selected moment, i.e., the employee no longer works in the office, the employee is on a flex-schedule and not at work at the time of the observation, etc.

The formula used to determine the baseline number of moments is as follows:

$$N = \frac{P(1-P)}{\left(\frac{SE}{T}\right)^2}$$

Where

N	=	Sample Size
P	=	Anticipated Rate of Occurrence of the Activities Being Observed
SE	=	Desired Sample Precision
T	=	Confidence Level Factor (1.96 for 95%)

With the updated system, DCF will update the maximum rate of occurrence and adjust the sample size as needed but also ensure the floor of moments responded to (2,000), as required by CAS.

Sample Calculation

Solving for N (with a maximum rate of occurrence of **54%**):

$$N = \frac{.54 (1-.54)}{\left(\frac{.02}{1.96}\right)^2} = 2,459$$

As mentioned above, this formula will be recalculated and updated on an annual basis. If the formula indicates a number less than 2,000 at any point, DCF will generate enough moments to still maintain 2,000 valid samples.

Please note that because the BPS RMTS is a new process, the above formula is truly a sample calculation. Once the first quarter has been completed, the sample calculation will be updated with the actual maximum rate of occurrence.

Standard Observation Form and Definitions

A standard observation form has been developed that includes numerous questions, up to 15 distinct activity codes and 23 program codes (including combinations of more than one program) that encompass the universe of activities that the population being surveyed performs.

- The sample is generated (e.g., moments are assigned to participants) just prior to the beginning of the quarter.
- E-mails are sent to the participant, indicating that they have been selected to report their activity for the moment shown (e.g., 10:12 a.m. on 1/5/14).
- The e-mail contains a username and password and link to the website to respond to the moment.
- The participant selects the link to the website. At the website, they logon and have access to the questions and activity/program codes.
- The participant answers the questions and selects the appropriate activity and program (client specific activities require the client's last name and last four digits of the client's social security number (SSN)).

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

- There is no advance notification of moments.

Participants are sent 24 and 48-hour reminder e-mails (if the participant has not yet responded) and have 72 hours to complete each moment for it to be considered valid. Participants are not able to respond to moments once they have expired. Expired/non-response moments are not included in the RMTS activity percentage calculations.

A participant is asked numerous questions in the time study. The root question is “Were you working on a Case or on behalf of a client?” (Y/N). Below, is the sequence of questions depending on how they answer the root (first) question.

For answering “Yes” to case-related activity.

1. Please select the activity you are performing at the time of your moment, not the type of case.
2. Please select the program(s) you were supporting at the time of your moment.
3. Please provide the client’s first initial, last name, and last four digits of the client’s social security number (SSN).

For answering “No” to case-related activity.

1. Please select the activity you were performing at the time of your moment.

Please note that the activity and program codes are not numbered in the system. In addition, the program codes are only options if the participant selects a particular activity. Some activity codes are also only shown for case-related work, while others only appear for non case-related or non work-related activities. Not all program codes are available for every activity selection.

Please refer to the allocation matrix for the valid combinations of activity/program codes available to participants through the decision tree nature of the EasyRMTS™ software. Additionally, the following graphic represents the questions participants are walked through in order to select an activity/program combination; this graphic is provided to participants as part of the training presentation.

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Date Stamp

The moment date/time is provided to the participant in the e-mail notification and is viewed by the participant when they log in to EasyRMTS™ to complete their moment. Each response is date stamped when the participant responds to the moment.

Help Desk

A Help Desk is operated where participants can call (via an 800 number) and speak to PCG if they have questions. This number is contained in all e-mails and on the RMTS system when participants log in to the system. If someone is unavailable, they can leave a message. All messages related to questions asked about activities are logged. Participants can also respond to the e-mail that they receive and receive an e-mail response.

Training

Employees must participate in a web-based training before completing their first random moment. Training sessions occur for all participants on an annual basis. Quarterly sessions are also held for workers who would like to attend or are required to attend additional trainings (participants who regularly fail to respond) as necessary. Periodic newsletters or memos are also sent to participants.

Analysis of Results

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

On a monthly basis, the results of the RMTS are compared to previous months to determine if there are any significant variances in the responses. If a significant variance is discovered, a review is conducted in order to determine the reason for the variance. If the reason for the variance is due to bias or improper technique, it will be determined whether to make a change to the RMTS form. Additional training may also be conducted. The state will also, as necessary, send communication and memorandum to participants to clarify any common issues.

On a monthly basis, reports are forwarded to the BPS RMTS coordinators so that they can follow up with non-responsive participants. Individual supervisors are involved as necessary. The system generates 24 and 48 hour follow-up e-mails. Additional follow-ups will be employed as necessary.

Evaluation and Modification of the System

The RMTS system, observation form, and distribution procedures are continuously evaluated to identify necessary modifications in order to improve their efficiency and effectiveness. If modifications are determined necessary, they are made promptly.

Subsample Process

For the entire BPS time study, 10% of all moments are randomly selected as part of the subsample process. Participants who are selected for the subsample are required to answer one additional question when responding to their moments, requiring them to write in their own words the activity they were performing. The RMTS administrators generate a report detailing those moments that have been selected as part of the subsample on the 18th day of the month (for moments that occurred in the first two weeks of the month) and 3rd day of every month (for moments that occurred in the second two weeks of the month). RMTS administrators will then review the reports, comparing the activity selection to the participants own description of their task to ensure that they match appropriately. If the activity selection does not match, RMTS administrators will contact the participants. If validation is not confirmed on any moments within the 10% subsample for whatever reason, these moments will be reallocated direct to state general fund. The RMTS statistic will be updated accordingly.

Documentation

All aspects of the RMTS process are documented. This documentation includes but is not limited to the following:

- Assigned moments e-mailed;
- Data related to tabulations;
 - Analysis of sample results; and
 - Final computation of results that are used in the cost allocation plan.

Procedural documentation is also kept on the procedures used.

Quality Control

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

Quality control is performed on the RMTS on an ongoing basis. Some codes require the participant to enter the client's first initial, last name, and last four digits of the client's social security number (SSN) during their random moment to ensure those cases are active for the department. For codes that require the participant to provide a description, those descriptions are reviewed by PCG and DCF to ensure the participants are using them appropriately. This information, along with other common participant errors recognized by PCG and DCF, is used to determine training needs.

The decision-tree setup of EasyRMTS™ ensures that participants cannot select incompatible combinations (please refer to the allocation matrix). If new activities are added or removed from the time study, EasyRMTS™ is reviewed and updated accordingly to ensure edits have been made correctly. Edits to the system are effective the first day of the quarter, in line with an accompanying CAP amendment. All amendments related to the RMTS process are prospective.

The following items, at a minimum, are reviewed throughout the quarter and prior to sample generation for the subsequent quarter:

- Identification of upcoming Vermont state or observed federal holidays (excluded from the sample).
- Data related to participant contact information, including full name and e-mail address.
- Participant roster updates to reactivate an employee who may have been on extended leave or to deactivate someone who will be on extended leave or no longer working in the BPS position at DCF.
- Workers who select the wrong activity (based on their own description of their work) are e-mailed directly to explain what the appropriate selection was so that the mistake does not continue to occur (either from reviewing the subsample moments or general observations regarding common mistakes made by participants).

Any employee on extended leave (exceeding six weeks during a single quarter) will be deactivated from the system until further notice. All other instances of leave will be determined on a case-by-case basis by RMTS administrators.

Quarterly Calculation of Results

DCF calculates the quarterly results based on the total number of moment received, minus the number of not scheduled to work (NSTW), and no response moments. Therefore, if 3,000 moments are generated and 500 of those moments received are a combination of unpaid time off, or NSTW the denominator for the calculation is 2,500. All responses in the system, inclusive of NSTW, count as "responses" in determining the overall response rate.

Contingency Plan

In the event of a technical failure or emergency situation, when staff are not able to receive or respond to moments for longer than 5 days, DCF will take the following steps to ensure that a valid sample can still be obtained and that the time study's statistical validity is not compromised:

1. Upon resumption of the RMTS, DCF will determine how many moments were affected. DCF will then generate a concurrent sample, starting on the day the RMTS is resumed or shortly thereafter, containing the same number of moments that were affected by the outage through the end of the sample period. For example, if 200 moments were affected due to a technical failure DCF will

Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

generate a second sample of 200 moments, to run concurrently with the original sample through the end of the sample period.

2. If the situation occurs closer to the end of the quarter and a concurrent sample is not possible or if the issue will be prolonged, the prior quarter RMTS results will be used for the affected quarter.

Any situation where either option is considered will be communicated with CAS and the appropriate cognizant agencies and documented in the RMTS backup and the backup for all claims prepared using this data.

HEAU Time Study

The random moment time study (RMTS) is a survey process that includes all of the activities performed by the Economic Services Division (ESD), Health Access Eligibility Unit (HAEU) workers within the Vermont Department for Children and Families (DCF). The time study begins on July 1, 2015. Participating staff are those who support multiple programs administered by DCF in HAEU. Based on these observations, the total effort of a group of employees is determined with a high degree of confidence that approximates the same results as having observed employees for 100% of their time at work. The results of the RMTS are used in the quarterly cost allocation plan (CAP) to allocate department costs to reimbursable and non-reimbursable areas. This level of detail is required for DCF to participate in federal claiming efforts.

The RMTS must be conducted on a continuous basis to support quarterly claiming efforts.

We thank participants in advance for their time and cooperation. Please direct all questions to either Public Consulting Group, Inc. (PCG) at vtDCFhaeu@pcgus.com or DCF at AHS.DCFHAEUSupervisor@state.vt.us. Participants may also call the PCG hotline at 866-912-2984.

How to Complete the Random Moment Time Study

Participants receive an e-mail that directs them to a website via a web link. Participants log in to the system and then answer several different questions. Depending on the answers to the questions, they select from a list of individual activity and program codes that fall under their subsequent programs.

After answering all of the questions provided, the user selects a Submit button to respond to the survey. The surveys must be completed within 72 hours. Participants receive a reminder e-mail 24 hours and 48 hours after each moment if the survey has not yet been completed. If a participant is working on a case, the worker is asked to provide the client's contact ID from VHC or UID from ACCESS as a unique case identifier.

The RMTS is mandatory and must be completed in a timely manner. Every survey that is assigned must be completed! Moments stay 'live' in the system for 72 hours so if a participant is on leave for a short time, they must still complete the moment upon their return.

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. ROOT QUESTIONS

The following describes each of the activities available to RMTS participants. Activities performed and programs administered on behalf of the client are described below. The RMTS is a decision-tree based process whereby the response provided to each question determines what the subsequent question is. *Please note that meetings, phone calls, e-mails, filing, driving, service requests, and similar other administrative tasks should be tied to the activity that they are in support of; these are not general administrative activities unless they are truly not tied to a case.*

The first question a participant is asked when completing the time study is: Were you working on a Case or on behalf of a current or potential customer at the time of your moment?

The participant responds Yes or No.

If the participant selects “Yes”, the second question asks: Which eligibility system were you working in at the time of your moment?

The participants responds “Vermont Health Connect (VHC)” or “ACCESS”. After selecting one of the two responses, the participant is asked to identify their activity. Of the “Case Specific Activity Codes”, only certain activities are available for selection in the RMTS system when the worker selects VHC or ACCESS. Please refer to the table following the “Case Specific Activity Codes” section for a crosswalk.

Participants are also asked to provide a Case Identifier. In VHC, this is the Contact ID; in ACCESS, this is the UID.

If the participant selects “No”, the participant is asked to choose from a “Non-Case Specific Activity” or “Non-Work Related Activity”).

CASE SPECIFIC ACTIVITY CODES

Please select the case-specific activity you are performing in the eligibility system at the time of your moment.

1. Collection, Review, and Reconciliation of Application and Data

This activity includes conducting interviews, preliminary review of application forms, verification of documents, data entry, and documenting application/data in VHC or ACCESS. Any other related work that can be conducted in the office, in the field, by mail, or by telephone should also be coded here, including receiving information from others who may be filling out or compiling application on behalf of the client. This activity should only be selected if the worker is physically performing these activities, or related administrative tasks, within the VHC or ACCESS system.

2. Processing Change of Circumstances and/or Updating a Case

This activity should be selected when (documenting case notes or) processing a change of circumstance to the case (in a client record). Related to factors such as changes in employment status or number of children, supporting an audit request/case read by rerunning/correcting budgets or producing documents missing from the file, reviewing or performing a case read for accuracy, splitting a case, processing over/under payments (performing QA variances), or cleaning up the case file. This activity also includes generating notification letters and printing/copying and/or mailing notification letters to clients. This activity should only be selected if the worker is physically performing these activities, or related administrative tasks, within the VHC or ACCESS system.

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

3. Issuing Eligibility Notices to Customers

This activity should be selected when generating or printing eligibility notices to send to clients, including using the manual notification tool (MNT). This includes annual review (per year requests), term letters, denial letters, or a letter request for more information. This activity should only be selected if the worker is physically performing these activities, or related administrative tasks, within the VHC or ACCESS system.

4. On-going Case Reviews or Renewals

This activity includes reviewing case records, scheduling and conducting client interviews for renewal purposes, verifying documents, answering verification requests, data entry for eligibility renewal purposes, completing necessary online forms for eligibility reviews and renewals, and discussing eligibility review and renewal with a client or a DCF case participant. This activity can be completed when the client is present or on the telephone. This activity should only be selected if the worker is physically performing these activities, or related administrative tasks, within the VHC or ACCESS system.

5. Processing Cases for Eligibility Determinations

This activity includes scheduling and conducting client intake, reviewing case records, verifying documents, answering verification requests, preparing calculation entries or computations, data entry for eligibility purposes, completing necessary online forms to determine eligibility, and discussing eligibility determination requirements with a client or a DCF case participant. This activity can be completed when the client is present or on the telephone. This activity should only be selected if the worker is physically performing these activities, or related administrative tasks, within the VHC or ACCESS system.

6. Customer Service and E-mail/Portal Response Processing related to Eligibility Determination Issues

This activity should be selected when reviewing or responding to client's comments and questions via phone or e-mail/ helpdesk portal. This includes time spent researching and reviewing the client's case, as well as researching policy regarding eligibility to make clear to the client what they qualify for. This activity can be completed when the client is on the telephone, through e-mail, or through the VHC portal inbox. This activity should only be selected if the worker is physically performing these activities, or related administrative tasks, within the VHC or ACCESS system.

7. Customer Service Response Processing related to General Processing Issues (not related to Eligibility Determinations)

This activity should be selected when reviewing or responding to client's comments and questions. This includes time spent researching and reviewing the client's case, answering questions related to premium processing, reconciling payment discrepancies, as well as researching policy specific to the question or concern being dealt with. This activity can be completed when the client is on the telephone, or through e-mail. Meetings, phone calls, e-mails, filing, driving, mailing, contact with case managers, service requests, and other similar administrative tasks associated with this activity should also be coded here.

8. Documenting, Initiating, Answering Case-related Questions for, or Testifying about Appeals (for the Appeals Unit to Process)

This activity involves responding to fair hearing requests, meeting with the client for pre-hearing conferences, attending administrative hearings, testifying at administrative hearings, attending an appeals case, or preparing pre-process or post-hearing paperwork or other documentation for any of these

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. scenarios, including the 113 report. Meetings, phone calls, e-mails, filing, driving, mailing, contact with case managers, service requests, and other similar administrative tasks associated with this activity should also be coded here.

9. On-going Case Maintenance related to Plan Choice, including Referring Customers to Carriers

This activity should be selected when educating and advising a client on the plan options available to them. This also includes any time you spend researching the plans and providing the client with the contact information for the providers. Meetings, phone calls, e-mails, filing, driving, mailing, contact with case managers, service requests, and other similar administrative tasks associated with this activity should also be coded here.

10. Policy Development and Research related to Eligibility Determination Standards and Methodologies

This activity should be selected when reading, reviewing, or researching policy related to eligibility determination for a client. Meetings, phone calls, e-mails, filing, driving, mailing, contact with case managers, service requests, and other similar administrative tasks associated with this activity should also be coded here.

11. Phone-based Assistance to Fill Out Applications

This activity should be selected when assisting a client over the phone with filling out an eligibility related form or application, including answering any client questions about the form or necessary backup and supplemental documentation for the VHC system. Meetings, phone calls, e-mails, filing, mailing, contact with case managers, service requests, and other similar administrative tasks associated with this activity should also be coded here.

12. Referring Customers to Navigators

This activity should be selected when referring a client to a navigator for additional assistance in learning about their health insurance options and select/enroll in a health insurance plan. Meetings, phone calls, e-mails, filing, mailing, contact with case managers, service requests, and other similar administrative tasks associated with this activity should also be coded here.

13. General Outreach and Marketing Activities, related to Open Enrollment

This activity should be used when performing activities related to education and outreach about the assistance programs offered by DCF. This activity includes any time spent educating clients about the benefits and availability of services, attending community events or fairs to speak to Vermonters about VHC, as well as encouraging clients to access the services and programs. This activity also includes all time spent compiling and distributing educational materials about the assistance program or assisting a client fill out a program application. Meetings, phone calls, e-mails, filing, driving, mailing, contact with case managers, service requests, and other similar administrative tasks associated with this activity should also be coded here.

14. Premium Tax Credit Form (1095-A) Processing

This activity involves reviewing all 1095-A forms to ensure accuracy (dates, premiums, address, etc.) and to also ensure every form is mailed to clients. This activity also includes following up with client complaints regarding their 1095-A, correcting errors, and resending the form if necessary. Meetings, phone calls, e-mails, filing, mailing, contact with case managers, service requests, and other similar administrative tasks associated with this activity should also be coded here.

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

15. Referrals to Medicaid and/or Medical/Behavioral Health Services

This activity includes referral of client to medical or other governmental or private agencies for Medical/Behavioral Health services that are not part of the services offered by HAEU. Meetings, phone calls, e-mails, filing, driving, mailing, contact with case managers, service requests and other similar administrative tasks associated with this activity should also be coded here.

16. Referrals to Non-Medicaid/Non-Medical, Community Services

This activity includes referral of client to social services, housing agencies, or other governmental or private agencies for Non-Medical services that are not part of the services offered by HAEU. This activity includes time spent working with Community Connections and Community Partners. Meetings, phone calls, e-mails, filing, driving, mailing, contact with case managers, service requests, and other similar administrative tasks associated with this activity should also be coded here.

NON-CASE SPECIFIC ACTIVITY CODES

1. Delivery of or Participation in HAEU-Specific Training and Staff Development

This activity should be used for trainings related to your job as a HAEU worker. The trainings can be on any specific program you support clients with. Examples include trainings on topics such as ADA, ACCESS, De-escalation (phone), Release One, Health Plan Selection, Customer Service, Eligibility Rules, Paper Application Processing, Benaissance, Systems 101, Interview Training, ININ phone system training, New Worker training, email system usage, fire drills, time study trainings, general office

trainings. You will be asked to select which program/topic the training covered. Any administrative efforts related to this activity should also be coded here.

2. All Staff or Supervision Meetings

Please use this activity code for work-related conferences within your office or one-on-one with your supervisor to discuss non-case related issues. All meetings related to clients should be coded to a Case-Specific Activity Code. Any administrative efforts related to this activity should also be coded here.

3. General Administrative Activities

This activity includes activities performed not related to case work and specific clients but necessary for your job. Examples include cleaning or organizing workspace, timesheet completion, preparation for or involvement in office functions, filling out personnel forms for human resources, mentoring new staff without a client present, general staff meetings not related to your cases, processing mail/faxes/e-mails not related to a case, testing computer systems, working with IT to fix a computer problem, reading new policies, completing general service requests not related to your cases, etc. You will be asked to describe the activity in your own words, and this activity should not be used for any phone call, email, documentation activity, travel to/from meetings with clients or required trainings that you attend, or filing activity if you can tie it to a specific case. Any administrative efforts related to this activity should also be coded here.

NON-WORK RELATED ACTIVITY CODES

4. Paid Time Off (Annual/Sick/School/Administrative Leave/Comp)

This activity is used when the participant is using regular annual leave for vacation, sick hours, Family Medical Leave Act (FMLA), banked leave time, union leave, or approved personal educational leave. Paid days not working due to a weather emergency would also be recorded here.

5. Lunch/Break

Scheduled or unscheduled breaks (bathroom trips, lunch break, coffee breaks, and personal phone calls) should be coded here.

6. Not Scheduled to Work/Flex

Use this activity code if you were either not scheduled to work at the time of the observation, (i.e., it is before your regular start time, or after your regular end time, or the sample is received at a time when you are not scheduled to work due to your adjusted work schedule.) For example,

- c) you flex on Monday and the sample is received on Monday.
- d) the sample is before or after your regular work hours (e.g., at 7:49 a.m. and you do not start until 8:00 a.m.).

Sick, vacation, annual leave, and “snow or weather” days should not be coded here.

7. Unpaid Time Off

Any leave you take that you are not paid for should be coded here.

8. Non-HAEU Activity or Other Emergency Situation

This activity should be used when the participant performs an activity unrelated to any responsibility that they would normally have as a HAEU worker at DCF. Examples may include performing a function for another state agency or working on non-human services activities in the event of a natural disaster. Participants are required to provide a brief description of the activity being performed when this activity is chosen.

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

HAEU RANDOM MOMENT TIME STUDY PROCEDURES

RANDOM MOMENT TIME STUDY PROCEDURE MANUAL

Health Access Eligibility Unit Workers

Introduction

The purpose of this random moment time study (RMTS) is to measure the level of effort spent on various eligibility activities performed by the Health Access Eligibility Unit (HAEU) workers in the State of Vermont. These staff, who are all state employees, perform Medicaid eligibility determination activities on behalf of residents in the state and clients served by the Department for Children and Families (DCF) and other Departments within the Agency of Human Services (AHS) umbrella. Organizationally, HAEU staff work within the Economic Services Division (ESD) of DCF.

The time study is administered using EasyRMTS™, which is a tool that has been developed by Public Consulting Group, Inc. (PCG). EasyRMTS™ is an automated, web-based RMTS application that gives users a comprehensive tool for administering a time study for federal claiming, cost allocation, or other similar activities. Fully customizable for an individual agency or school district's specific requirements, EasyRMTS™ gives an administrative user the capability to assign random moments, monitor staff participation, update respondents' information, create and produce reports for federal claiming and other purposes, and view and analyze tabulated responses from participating staff. Participants of an EasyRMTS™ administered time study only need to have access to the Internet and an e-mail address in order to receive and complete their assigned random moments.

The application serves its state and local government or school district users by allowing for a timely and effective system to record staff activities performed, especially with respect to key federal programs that are supported by their staff. The automated RMTS application was developed to comply with all federal rules and regulations related to cost allocation practices and claiming for reimbursement of federal dollars. The software supports accurate reporting of reimbursable administrative activities, which are generally required by federal approving agencies to be measured through a time study. EasyRMTS™ puts the least administrative burden on staff as possible while allowing users to measure their time and claim for federal revenue. The system allows participants to indicate directly, via a series of survey questions in the software, the activities and programs they are supporting.

The purpose of this manual is to provide step by step explanation of how to complete the Vermont DCF HAEU RMTS. It has been created to assist DCF in managing and administering the RMTS. It serves as a procedural guide and instructional tool for sustaining the RMTS for its ongoing support of the cost allocation plan (CAP) process.

Please note that DCF is a state administered system. The use of the word "county" or "local office" indicates where the participant is physically located. The reference is still a person employed by the state.

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

Operation

There is a single RMTS (with 3,000 moments per quarter) operated for ESD HAEU workers. PCG provides the EasyRMTS™ system (via a web-hosted service), generates each quarterly sample, provides assistance to DCF with monitoring participant responses, and provides customer service. The sample is generated using data from the payroll system on a quarterly basis. Participants are responsible for selecting activity and program codes when they respond to the RMTS. Initial training is provided by PCG, while annual refresher and ongoing new worker training is conducted by DCF. The following table displays the responsibilities of PCG and DCF when it comes to RMTS administration.

Sampling Population

The sampling population includes eligibility workers within DCF. These participants work to assess the need and determine eligibility for Medicaid. Specifically, workers included in the RMTS are Health Access Eligibility Unit (HAEU) workers.

HEAU staff ensure that each person or family that applies for health care programs, including health insurance exchange programs, through the Vermont Health Connect (VHC), the state's health insurance exchange (HIX) eligibility system. HAEU workers determine eligibility for Medicaid and work regularly in VHC. Customers are ultimately determined eligible for Medicaid, CHIP, or other insurance coverage through a qualified health plan. HEAU staff review the application and decides which forms and verifications are needed. The specialists then evaluate the information contained in all documents and uses standard policies and procedures to determine eligibility. HEAU staff provide all families with information about the expectations and goals of the Medicaid program. These positions also process changes as necessary on active cases.

Supervisors are not included in the RMTS.

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

On a quarterly basis, DCF updates the information for all staff members participating in the RMTS to account for new staff, terminated staff, and staff on long-term leave and updates the actual sample on a quarterly basis (for each new quarterly sample). Throughout the quarter and before the subsequent quarterly sample is drawn, RMTS administrators at DCF collect additions, deletions, and schedule changes and update the software system accordingly (note that these changes have no effect on the current sample). Changes are accepted by DCF until the sample is drawn for the next quarter. If a person leaves mid-way through the quarter, their supervisor notifies the RMTS administrators, and the leave information is noted so as to not initiate additional follow up. RMTS administrators change that individuals e-mail to a “dummy” e-mail address to stop e-mails from going out, but there is no type of replacement in the system. These moments are counted as non-responses.

It is important to note the DCF participants who have participated in the RMTS in the past, but whom are no longer in the sample selection (e.g., retired, left position), are not deleted from the EasyRMTS™ database but are deactivated so that prior quarter data is available for audit trail purposes.

Sampling Unit

An RMTS asks a participant what they are doing at a specific moment in time (e.g., 11:48 a.m.). The RMTS sampling unit is defined as a single minute, or sixty second length of time, randomly selected within the workday of each participant. The moments for the participants occur between 8:00 a.m. to 4:30 p.m., and the moments are drawn from the core hours for each working day in a quarter, exclusive of official state holidays. Participants receive the e-mail within a few minutes after their assigned random moment time. There is no pre-notification of when a participant will have a moment assigned to them.

Responses and Response Time

Participants have 72 hours to respond to all moments. If the participant does not respond to their moment within the first 24 and 48 hours, reminder e-mails are sent to both the participant and their supervisor, requesting that they answer their moment. The moment expires after 72 hours. Reminder e-mails do not include the participant’s username and password to ensure that only the participant has access to their unique login credentials and that no one other than the participant responds to their moments.

DCF RMTS administrators are cc’d on all reminder e-mails and follow-up with non-responders as needed. If a specific individual is identified as a non-responded, the RMTS administrators notify the specific supervisor so that person may be further trained on the importance of completing the RMTS. If a systemic issue is identified, communication is sent to all participants. PCG and DCF may also send out occasional e-mails over the holidays or other times when participation may be less to ensure that individuals are responding to the RMTS whenever possible.

Sampling Period

The sampling period is a calendar quarter.

Confidence and Precision Level

This level is kept at 95% confidence level with +/- 2% precision for all activities. This level is consistent with federal regulations for statistical validity. Cost Allocation Services (CAS, formerly the Division of Cost Allocation or DCA) determines that statistically validity is met when the minimum number of moments received (responded to) as determined in the formula below.

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

Sample Size

DCF generates 2,300 moments per quarter for the RMTS. This number is to ensure that 2,000 valid observations are obtained and is in compliance with the federally-required formula below. Specifically, the Public Assistance Cost Allocation Plan Review Guide states that:

The sample size needed may be determined from the formula included in the State Guide. The State Guide specifies that a minimum 2,000 valid observations per sample period be obtained. A “valid observation” is defined as any observation other than a “non-strike”. A “non-strike” occurs whenever a selected employee could not be contacted at the selected moment, i.e., the employee no longer works in the office, the employee is on a flex-schedule and not at work at the time of the observation, etc.

The formula used to determine the baseline number of moments is as follows:

$$N = \frac{P(1-P)}{\left(\frac{SE}{T}\right)^2}$$

Where	N	=	Sample Size
	P	=	Anticipated Rate of Occurrence of the Activities Being Observed
	SE	=	Desired Sample Precision
	T	=	Confidence Level Factor (1.96 for 95%)

With the updated system, DCF will update the maximum rate of occurrence and adjust the sample size as needed but also ensure the floor of moments responded to (2,000), as required by CAS.

Sample Calculation

Solving for N (with a maximum rate of occurrence of 27%):

$$N = \frac{.27(1-.27)}{\left(\frac{.02}{1.96}\right)^2} = 1,961$$

As mentioned above, this formula will be recalculated and updated on an annual basis. If the formula indicates a number less than 2,000 at any point, DCF will generate enough moments to still maintain 2,000 valid samples.

Please note that because the HAEU RMTS is a new process, the above formula is truly a sample calculation. Once the first quarter has been completed, the sample calculation will be updated with the actual maximum rate of occurrence.

Standard Observation Form and Definitions

A standard observation form has been developed that includes numerous questions, up to 24 distinct activity codes that encompass the universe of activities that the population being surveyed performs.

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

- The sample is generated (e.g., moments are assigned to participants) just prior to the beginning of the quarter.
- E-mails are sent to the participant, indicating that they have been selected to report their activity for the moment shown (e.g., 10:12 a.m. on 1/5/14).
- The e-mail contains a username and password and link to the website to respond to the moment.
- The participant selects the link to the website. At the website, they logon and have access to the questions and activity/program codes.
- The participant answers the questions and selects the appropriate activity and program (client specific activities require a patient identification number and/or name).
- There is no advance notification of moments.

Participants are sent 24 and 48-hour reminder e-mails (if the participant has not yet responded) and have 72 hours to complete each moment for it to be considered valid. Participants are not able to respond to moments once they have expired. Expired/non-response moments are not included in the RMTS activity percentage calculations.

A participant is asked numerous questions in the time study. The root question is “Were you working on a Case or on behalf of a current or potential customer at the time of your moment?” (Y/N). Below, is the sequence of questions depending on how they answer the root (first) question.

Please refer to the allocation matrix for the valid combinations of eligibility system/activity codes available to participants through the decision tree nature of the EasyRMTS™ software. Additionally, the following graphic represents the questions participants are walked through in order to select an activity/program combination; this graphic is provided to participants as part of the training presentation.

Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

Date Stamp

The moment date/time is provided to the participant in the e-mail notification and is viewed by the participant when they log in to EasyRMTS™ to complete their moment. Each response is date stamped when the participant responds to the moment.

Help Desk

A Help Desk is operated where participants can call (via an 800 number) and speak to PCG if they have questions. This number is contained in all e-mails and on the RMTS system when participants log in to the system. If someone is unavailable, they can leave a message. All messages related to questions asked about activities are logged. Participants can also respond to the e-mail that they receive and receive an e-mail response.

Training

Employees must participate in a web-based training before completing their first random moment. Training sessions occur for all participants on an annual basis. Quarterly sessions are also held for workers who would like to attend or are required to attend additional trainings (participants who regularly fail to respond) as necessary. Periodic newsletters or memos are also sent to participants.

Analysis of Results

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

On a monthly basis, the results of the RMTS are compared to previous months to determine if there are any significant variances in the responses. If a significant variance is discovered, a review is conducted in order to determine the reason for the variance. If the reason for the variance is due to bias or improper technique, it will be determined whether to make a change to the RMTS form. Additional training may also be conducted. The state will also, as necessary, send communication and memorandum to participants to clarify any common issues.

On a monthly basis, reports are forwarded to the HAEU RMTS coordinators so that they can follow up with non-responsive participants. Individual supervisors are involved as necessary. The system generates 24 and 48 hour follow-up e-mails. Additional follow-ups will be employed as necessary.

Evaluation and Modification of the System

The RMTS system, observation form, and distribution procedures are continuously evaluated to identify necessary modifications in order to improve their efficiency and effectiveness. If modifications are determined necessary, they are made promptly.

Subsample Process

For the entire HAEU time study, 10% of all moments are randomly selected as part of the subsample process. Participants who are selected for the subsample are required to answer one additional question when responding to their moments, requiring them to write in their own words the activity they were performing. The RMTS administrators generate a report detailing those moments that have been selected as part of the subsample on the 18th day of the month (for moments that occurred in the first two weeks of the month) and 3rd day of every month (for moments that occurred in the second two weeks of the month). RMTS administrators will then review the reports, comparing the activity selection to the participants own description of their task to ensure that they match appropriately. If the activity selection does not match, RMTS administrators will contact the participants. If validation is not confirmed on any moments within the 10% subsample for whatever reason, these moments will be reallocated direct to state general fund. The RMTS statistic will be updated accordingly.

Documentation

All aspects of the RMTS process are documented. This documentation includes but is not limited to the following:

- Assigned moments e-mailed;
- Data related to tabulations;
 - Analysis of sample results; and
 - Final computation of results that are used in the cost allocation plan.

Procedural documentation is also kept on the procedures used.

* With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.

Quality Control

Quality control is performed on the RMTS on an ongoing basis. Some codes require the participant to enter the case number they are working on during their random moment to ensure those cases are active for the department. For codes that require the participant to provide a description, those descriptions are reviewed by DCF to ensure the participants are using them appropriately. This information, along with other common participant errors recognized by DCF, is used to determine training needs.

The decision-tree setup of EasyRMTS™ ensures that participants cannot select incompatible combinations (please refer to the allocation matrix). If new activities are added or removed from the time study, EasyRMTS™ is reviewed and updated accordingly to ensure edits have been made correctly. Edits to the system are effective the first day of the quarter, in line with an accompanying CAP amendment. All amendments related to the RMTS process are prospective.

The following items, at a minimum, are reviewed throughout the quarter and prior to sample generation for the subsequent quarter:

- Identification of upcoming Vermont state or observed federal holidays (excluded from the sample).
- Data related to participant contact information, including full name and e-mail address.
- Participant roster updates to reactivate an employee who may have been on extended leave or to deactivate someone who will be on extended leave or no longer working in the HAEU position at DCF.
- Workers who select the wrong activity (based on their own description of their work) are e-mailed directly to explain what the appropriate selection was so that the mistake does not continue to occur (either from reviewing the subsample moments or general observations regarding common mistakes made by participants).

Any employee on extended leave (exceeding six weeks during a single quarter) will be deactivated from the system until further notice. All other instances of leave will be determined on a case-by-case basis by RMTS administrators.

Quarterly Calculation of Results

DCF calculates the quarterly results based on the total number of moment received, minus the number of not scheduled to work (NSTW), and no response moments. Therefore, if 3,000 moments are generated and 500 of those moments received are a combination of unpaid time off or NSTW the denominator for the calculation is 2,500. All responses in the system, inclusive of NSTW, count as “responses” in determining the overall response rate.

Contingency Plan

In the event of a technical failure or emergency situation, when staff are not able to receive or respond to moments for longer than 5 days, DCF will take the following steps to ensure that a valid sample can still be obtained and that the time study’s statistical validity is not compromised:

3. Upon resumption of the RMTS, DCF will determine how many moments were affected. DCF will then generate a concurrent sample, starting on the day the RMTS is resumed or shortly thereafter, containing the same number of moments that were affected by the outage through the end of the sample period. For example, if 200 moments were affected due to a technical failure DCF will

generate a second sample of 200 moments, to run concurrently with the original sample through the end of the sample period.

4. If the situation occurs closer to the end of the quarter and a concurrent sample is not possible or if the issue will be prolonged, the prior quarter RMTS results will be used for the affected quarter.

Any situation where either option is considered will be communicated with CAS and the appropriate cognizant agencies and documented in the RMTS backup and the backup for all claims prepared using this data.

APPENDICES

1. Accounting System Chart of Accounts.

The State of Vermont Financial and accounting system VISION is used to meet the state's accounting and financial reporting responsibilities. VISION is an acronym for Vermont Integrated System for Information and Organizational Needs. VISION is a PeopleSoft product.

VISION-Financials is a Web based Oracle/PeopleSoft enterprise financial management system utilizing the following modules: Travel & Expense, General Ledger, Accounts Payable, Purchasing, Accounts Receivable, Billing, Asset Management, Inventory, and Sub recipient Grant Tracking (VT custom module). The system is managed by the Department of Finance & Management in conjunction with the Department of Information & Innovation.

The Chart of Accounts for VISION include the following fields:

Chartfield Name	Length	Description
Business Unit	5 numeric	Identifies the Governmental Agency/Department established Statutorily or Administratively.
Account	6 numeric	Classifies the nature of the operation transactions. Holds the detail coding values for assets, liabilities, equity, revenues, and expenses/expenditure transactions.
Fund	5 numeric	Maintains the fiscal and accounting entities in which financial resources and the use of those resources are grouped according to Statute, regulation, or current accounting standards.
Dept ID	10 numeric	Identifies Governmental Agency/Department operation unit subdivisions.
Program	5 numeric	Maintains a description and a set of objectives toward which activities and resources are directed. AHS uses this field for CAP cost pools.
Class	5 alpha/numeric	Used to track activities relating to programs across program lines based on departmental, administrative, or legislative needs.
Project	15 alpha/numeric	Captures and controls project or grant information which funding sources are applied.
Affiliate	5 numeric	Reference Business unit for intrastate transactions
