

OFFICE OF THE SECRETARY
280 State Drive
Waterbury, Vermont 05671-1000

March 31, 2017

Mr. Darryl Mayes
Director, Division of Cost Allocation
Department of Health and Human Services
26 Federal Plaza, Room 41-122
New York, New York 10278

Mr. Mayes:

Attached is the Vermont Agency for Human Services' (AHS) cost allocation plan amendment, effective January 1, 2017 with required certifications.

This cost allocation plan (CAP) amendment has no major organizational changes.

On 10/24/16 the State of Vermont, Agency of Human Services received approval from CMS for a renewal of the 1115 Global Commitment Waiver effective 1/1/17-12/31/21. This quarterly submission incorporates many of the changes required due to the new waiver agreement and includes language requested by CMS through email communications from CAS on 2/28/17.

We have removed the footnote from previous CMS requests:

** With the October 1, 2005 implementation, of the Global Commitment to Health 1115 Waiver, all administrative costs allocated to the Global Commitment Waiver are now claimed at the program rate and reported on line 49 of the CMS-64. Those Program Codes with the asterisk are affected by Global Commitment. The Global Commitment Waiver was renewed on January 1, 2015.*

And inserted the following language for each Department under the "Cost Allocation Method" section:

With the January 1, 2017 extension of the Global Commitment to Health 1115 Waiver, administrative costs are not included in the budget neutrality agreement. Administrative costs will be reported on the appropriate CMS-64.10 Base reporting line. However, administrative costs associated with investments that are strictly administrative in nature are subject to the budget neutrality limit and are reported on the "Investments" or "DSR investments" waiver forms. Investment administrative costs for Green Mountain Care Board, Health Research and Statistics, Patient Safety Adverse Events, and Area Health Education Centers (AHEC) receive 50% FFP.

We continue our efforts to improve our narrative format, content, and design to provide more efficient and effective presentation to our federal partners. Included in this quarter submission is a revised Cost Impact Statement which identifies changes to program codes which effect FFP, as well as the quarterly estimated FFP impact of the Waiver changes.

In order to reduce the size of this document, and considering we have been operation for a full year using the two new RMTS for eligibility in Human Services and Health Care, we will start including the RMTS material only when there is a change to the materials. We will include a statement in section XI. Time Tracking and Time Study Information indicating that there were no changes in the quarter being submitted to affirm this understanding. The time study information will be retained in our CAP files and will be available upon request.

Please contact Jill Gould at (802)-241-0442 or Jill.Gould@Vermont.gov if you have any questions.

Sincerely,

Al Gobeille
Secretary
Agency of Human Services

IV. INTRODUCTION

The Vermont Agency of Human Services (AHS) mission is to improve the conditions and well-being of Vermonters and protect those who cannot protect themselves. Whether helping a family access health care or child care, protecting a young child from abuse, supporting youth and adults through addiction and recovery, providing essential health promotion and disease prevention services, reaching out to elder Vermonters in need of at-home or nursing home assistance, enabling individuals with disabilities to have greater independence, or supporting victims and rehabilitating offenders, AHS serves Vermonters with compassion, dedication, and professionalism. AHS has operated since 1969 to serve as the umbrella organization for all human service activities within state government.

The Departments under AHS are: Department of Children and Family Services (DCF), Department of Disabilities, Aging and Independent Living (DAIL), Department of Vermont Health Access (DVHA), Vermont Department of Health (VDH), Department of Mental Health (DMH), and the Department of Corrections (DOC). Appropriate costs allocated as benefitting the Secretary's Office are further reallocated across all other agency-specific benefitting objectives, as described throughout this narrative.

For the administration of the CAP, AHS and the Departments use a web-based software tool to calculate the quarterly CAP results. AHS and each of the Departments have their own unique version of the application to run their costs through the software. Effective 7/1/2015, AHS switched to the web-based, proprietary cost allocation software, AlloCAP™; therefore, the quarter ending 9/30/2015 is the first quarter that will be processed using the software. The software was configured specific to the needs of AHS and each of the Departments' expenditures to appropriately allocate costs as described in the CAP narrative herein. The AlloCAP™ software is hosted on the vendor's server; the vendor is Public Consulting Group, Inc. (PCG). AHS is responsible for processing the CAP and does so at the close of each quarter using the vendor's software.

AlloCAP™ allows the user to import quarterly expenditure data. The data is coded according to the codes assigned to the costs in the state's accounting system and utilized to identify costs in the CAP narrative. These common cost pools are then applied against the appropriate statistics for allocation purposes, as described in the rest of this CAP narrative. Statistics allocate cost pools (Program Codes) using a four step-down methodology. Cost pools and assigned allocation statistics are identified further in this CAP narrative. Statistics used include time study results, total cost methodologies, case counts, position counts, etc. Through AlloCAP™, AHS and the Departments also have access to reports that describe where the money gets allocated to, which allocation methods are used for each cost pool, and what statistics are assigned for each allocation method.

IX. COST ALLOCATION METHODOLOGIES AND DEPARTMENTAL ORGANIZATIONAL CHARTS

This Narrative is organized by Department

AHS Secretary's Office

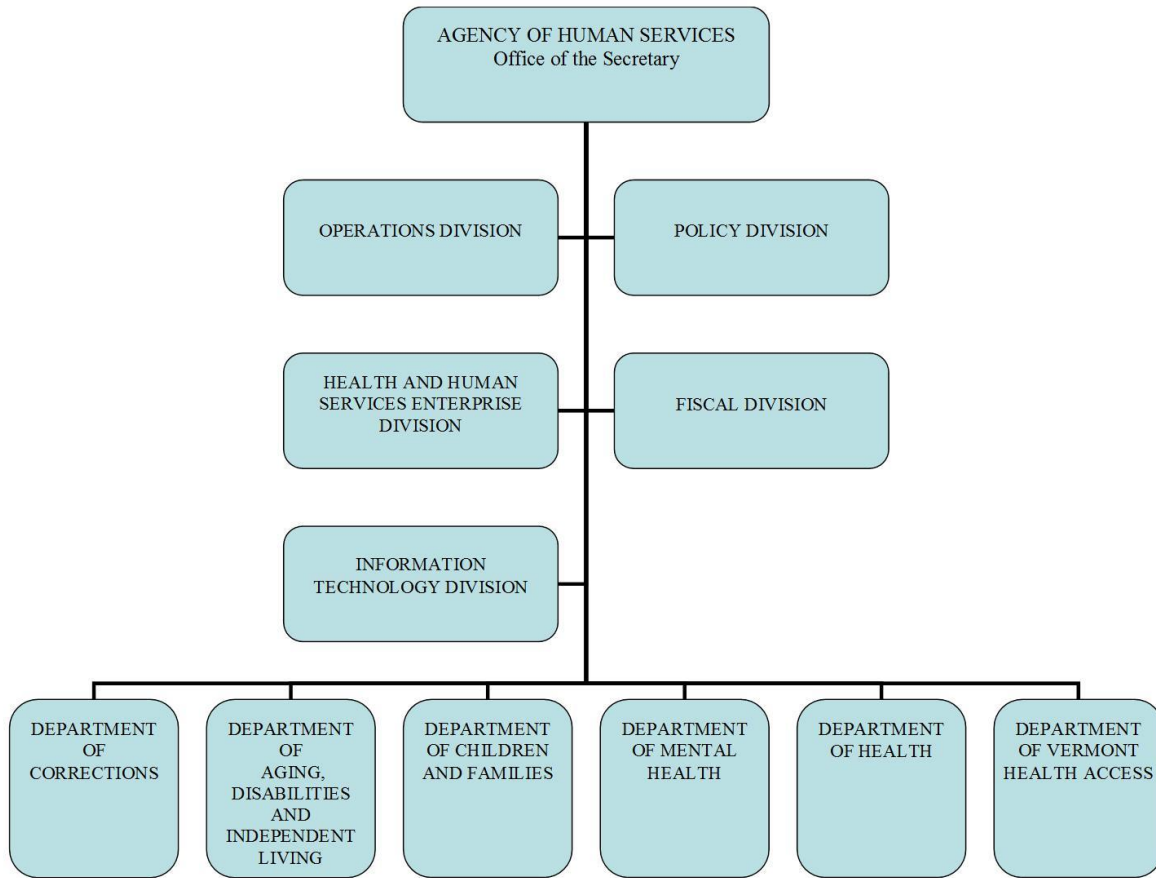

I. Introduction

The following narrative represents the cost allocation plan (CAP) for the State of Vermont, Agency of Human Services (AHS). For purposes of this narrative, AHS is also referred to as the "Office of the Secretary", as it is the Secretary's Office, which through its six member Departments and a network of community partners and providers, is responsible for the implementation and delivery of all human service programs within the state. Each Department has a distinct area of focus and responsibility and contributes to the creation and sustenance of an entire system of human service supports. As a single entity, the Agency builds a continuum of care that protects and supports vulnerable Vermonters, addresses individual, family and regional crises as they arise, develops and promotes whole population approaches to physical and behavioral health works to build economic self-sufficiency and keeps Vermont communities safe. The Departments are: Department of Children and Family Services (DCF); Department of Disabilities, Aging and Independent Living (DAAIL); Department of Vermont Health Access (DVHA); the Vermont Department of Health (VDH); Department of Mental Health (DMH) and the Department of Corrections (COR). Appropriate costs allocated as benefitting the Secretary's Office are further reallocated across all other agency-specific benefitting objectives.

The Agency of Human Services strives to improve the health and well-being of Vermonters today and tomorrow and to protect those among us who are unable to protect themselves. In carrying out this mission, the Agency vision to ensure this is to:

- The reduction of the impacts of poverty in our state and the creation of pathways out of poverty
- The promotion of health, well-being and safety in our communities
- An enhanced focus on accountability and effectiveness in achieving our goals
- The assurance of high quality health care for all Vermonters

I. Organizational Chart

II. Secretary's Office Cost Allocation Methodologies

With the January 1, 2017 extension of the Global Commitment to Health 1115 Waiver, administrative costs are not included in the budget neutrality agreement. Administrative costs will be reported on the appropriate CMS-64.10 Base reporting line. However, administrative costs associated with investments that are strictly administrative in nature are subject to the budget neutrality limit and are reported on the "Investments" or "DSR investments" waiver forms. Investment administrative costs for Green Mountain Care Board, Health Research and Statistics, Patient Safety Adverse Events, and Area Health Education Centers (AHEC) receive 50% FFP.

Department of Children and Family Services (DCF)

I. Introduction

The following narrative and supporting schedules represent the public assistance cost allocation plan for the State of Vermont, Agency of Human Services (AHS), Department for Children and Family Services (DCF). DCF is the “single state agency” for the Title IV-E, Title IV-B, Title IV-D, Temporary Assistance to Needy Families (TANF), and Food Stamps programs.

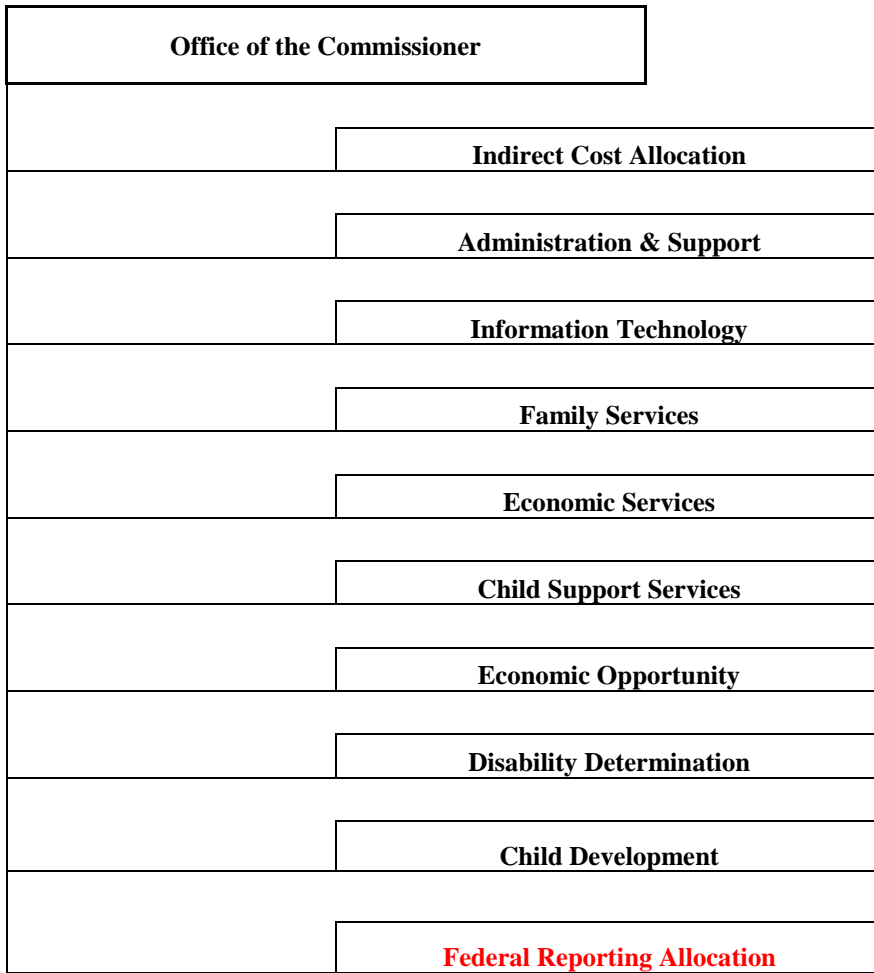

It is the mission of DCF to promote the social, emotional, physical, and economic wellbeing and safety of Vermont’s children and families. This work is done through the provision of protective, developmental, therapeutic, probation, economic, and other support services for children and families in partnership with schools, businesses, community leaders, service providers, families, and youths statewide.

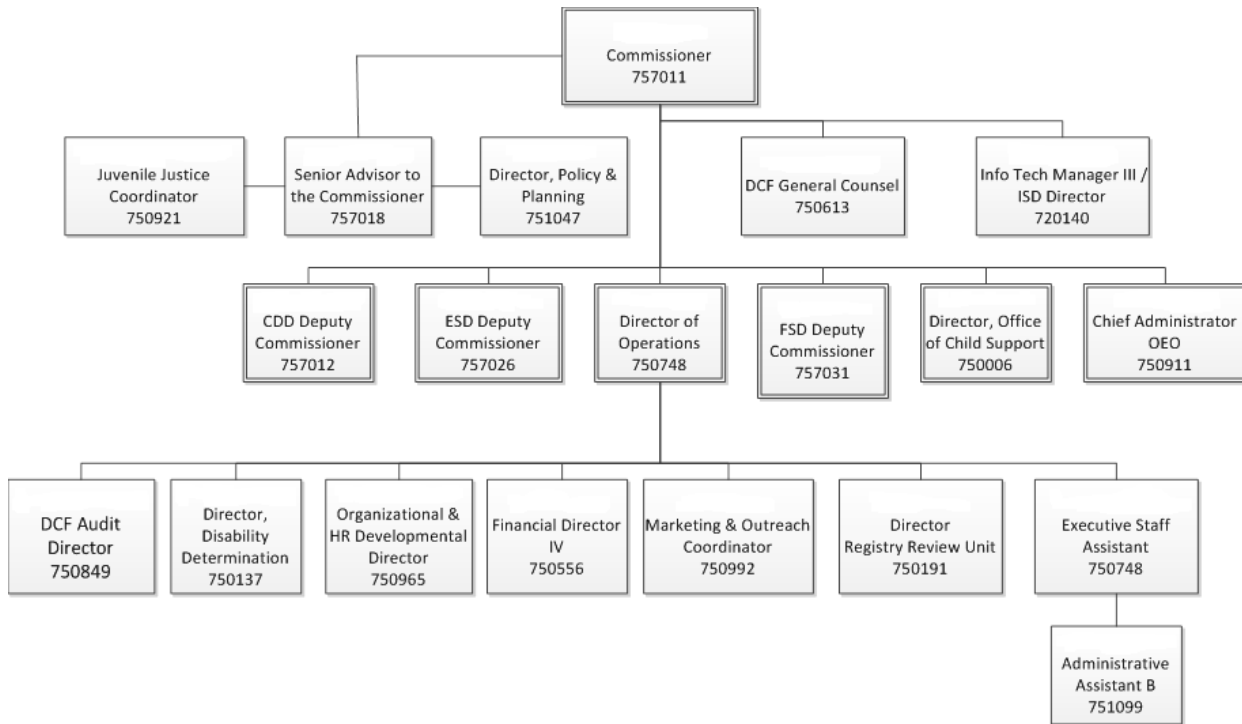

The major Divisions and Offices within DCF are the Child Development Division (CDD), the Office of Child Support (OCS), the Family Services Division (FSD), Economic Services Division (ESD), Disability Determination Services (DDS), and the Office of Economic Opportunity (OEO).

Within this document, we have included an overview of DCF’s organizational structure and a list of the specific functions performed by DCF, referred to as plan departments or cost pools, and the allocation method for each function. Please note that cost pools are developed based on VISION program codes. VISION is the State of Vermont’s accounting system.

III. DCF Department for Children and Families Cost Allocation Methodologies

With the January 1, 2017 extension of the Global Commitment to Health 1115 Waiver, administrative costs are not included in the budget neutrality agreement. Administrative costs will be reported on the appropriate CMS-64.10 Base reporting line. However, administrative costs associated with investments that are strictly administrative in nature are subject to the budget neutrality limit and are reported on the “Investments” or “DSR investments” waiver forms. Investment administrative costs for Green Mountain Care Board, Health Research and Statistics, Patient Safety Adverse Events, and Area Health Education Centers (AHEC) receive 50% FFP.

DAIL Mission Statement

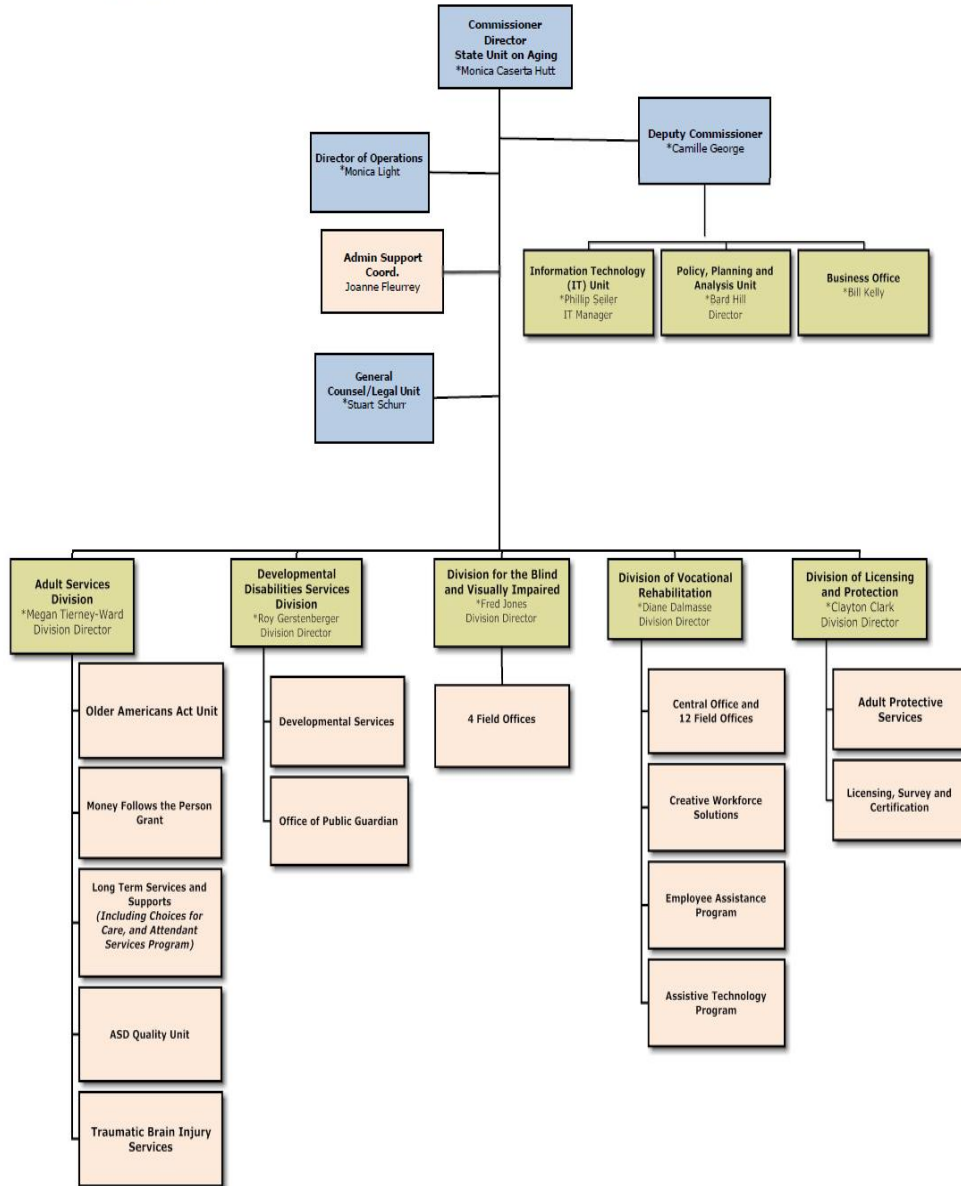

The Department of Aging and Independent Living is the center of the Agency of Human Services' program management and policy development with respect to older persons and persons with disabilities. The Department has the following goals:

- Assist older persons and adults with physical disabilities to live as independently as possible.
- Assist persons with disabilities to find and maintain meaningful employment.
- Assure quality of care and life to individuals receiving health care and/or long term care services from licensed or certified health care providers and protect elderly and disabled adults from abuse, neglect and exploitation.

Within this document, we have included an overview of DAIL's organizational structure and a list of the specific functions performed by DAIL, referred to as plan departments or cost pools, and the allocation method for each function.

III. Department of Disabilities, Aging and Independent Living Cost Allocation Methodologies

With the January 1, 2017 extension of the Global Commitment to Health 1115 Waiver, administrative costs are not included in the budget neutrality agreement. Administrative costs will be reported on the appropriate CMS-64.10 Base reporting line. However, administrative costs associated with investments that are strictly administrative in nature are subject to the budget neutrality limit and are reported on the “Investments” or “DSR investments” waiver forms. Investment administrative costs for Green Mountain Care Board, Health Research and Statistics, Patient Safety Adverse Events, and Area Health Education Centers (AHEC) receive 50% FFP.

Organizational Unit 1: Indirect Cost Allocations

Department of Vermont Health Access (DVHA)

I. Introduction

The DVHA is the State office responsible for the management of Medicaid, the State Children's Health Insurance Program (CHIP), and other publicly funded health insurance programs in Vermont. Eligibility and Enrollment into Vermont's publicly funded programs is managed by the DVHA through the Health Access Eligibility and Enrollment Unit (HAEEU). The DVHA is the largest insurer in Vermont in terms of dollars spent and the second largest insurer in terms of covered lives.

The mission of the DVHA is to:

- Assist beneficiaries in accessing clinically appropriate health services.
- Administer Vermont's public health insurance system efficiently and effectively.
- Collaborate with other health care system entities in bringing evidence based practices to Vermont Medicaid beneficiaries.

During the fall of 2005, the State received approval from the Centers for Medicare and Medicaid Services (CMS) for a Section 1115 Medicaid Waiver known as "Global Commitment to Health Waiver." The Waiver allows the State to fundamentally restructure the Medicaid program and imposes a cap on the amount of federal funding available for services for the Medicaid population. The State exchanged the risk of operating under a capped funding arrangement for the opportunity to use federal Medicaid funds for non-Medicaid health programs.

The goals of the Waiver include:

1. Financial and programmatic flexibility to help maintain public health care coverage and provide for more effective services.
2. To lead in exploring new ways to reduce the number of uninsured.
3. Foster innovation within health care by focusing on health care outcomes.

The Waiver became effective October 2005, and allows the State to deviate from traditional federal Medicaid law and regulations in the following key ways:

1. Imposes a ~~global~~ **per member per month** cap on federal funds.
2. Establishes the DVHA as a ~~managed care entity (MCE)~~ **non-risk pre-paid inpatient health plan (PiHP)**.
3. Allows the State to use federal Medicaid funds for state fiscal relief and non-Medicaid health programs.
4. Provides flexibility to reduce benefits, increase cost sharing, and limit enrollment for optional and expansion populations with some limits.

Within the Agency of Human Services (AHS), the Waiver will allow cross-departmental initiatives to obtain the greatest value from scarce health care dollars. The flexibility of the Waiver allows the State to effectively manage public resources, provide the tools necessary to make health care programs fiscally sustainable, and improve the Vermont health care system.

Under the Global Commitment to Health Waiver, the DVHA is an ~~MCE~~ **non-risk pre-paid inpatient health**, and must meet rules for Medicaid ~~MCEs~~ **managed care**. The DVHA has intergovernmental agreements (IGAs) with the AHS and AHS departments that make them part of the ~~MCE~~ **non-risk pre-paid inpatient health** within the framework of the Global Commitment to Health Waiver. **The AHS departments are: DAIL, VDH, DMH, DCF.** The State desires to use the Global Commitment to Health Waiver flexibility to integrate a Chronic Care Management Program (CCMP) into a system of care that can be used to benefit Medicaid beneficiaries, providers, and the DVHA.

Other Departmental Claiming

The following AHS Departments also claim allowable administrative to the Medicaid program, such as school-based and child welfare related costs:

~~Social and Rehabilitative Services (SRS), now DCF~~

- ~~Percentage of Social Worker time spent on allowable Medicaid administrative activities.~~

~~Department of Mental Health~~

- ~~The Mental Health Department contracts with 11 designated community agencies (DAs) to provide services to children and adults who are experiencing an acute mental health crisis.~~
- ~~The contracted designated agencies also operate the mental health Emergency Services Programs which are available 24 hours a day, seven days a week, responding to any individual experiencing a mental health crisis.~~
- ~~Emergency programs screen situations to determine if there is need for admission into involuntary and/or acute care arrangements.~~
- ~~Inpatient psychiatric services at Brattleboro Retreat, Rutland Regional Medical Center, University of Vermont Medical Center, and Vermont Psychiatric Care Hospital (VPCH at the Morrisville location) provide involuntary emergency examinations and commitments in which adults have become dangerous to themselves or others or for psychiatric evaluations of competency to stand trial in criminal cases. Vermont opened a new twenty-five bed acute care hospital called Vermont Psychiatric Care Hospital (VPCH at the Berlin location) on July 3, 2014.~~

~~Department of Aging and Independent Living (DAIL)~~

- ~~Grants to designated agencies for local administration of HCB waiver.~~
- ~~Grants to Area Agencies on Aging to assist elders in Medicaid outreach.~~
- ~~Division of Advocacy and Independent Living staff time on administering waivers and fulfilling Medicaid state plan requirements.~~
- ~~NATAC Registry and Administration.~~
- ~~Licensed Nursing Facilities Survey, Licensure, and Complaints.~~
- ~~ICF/MR Licensure.~~
- ~~Level III Homes Licensure.~~
- ~~Home Health Hotline.~~
- ~~Auditing MDS+ Forms.~~
- ~~Prior authorization personnel.~~
- ~~Developmental Services administration.~~
- ~~Vocational Rehabilitation staff administering traumatic brain injury HCB waiver.~~

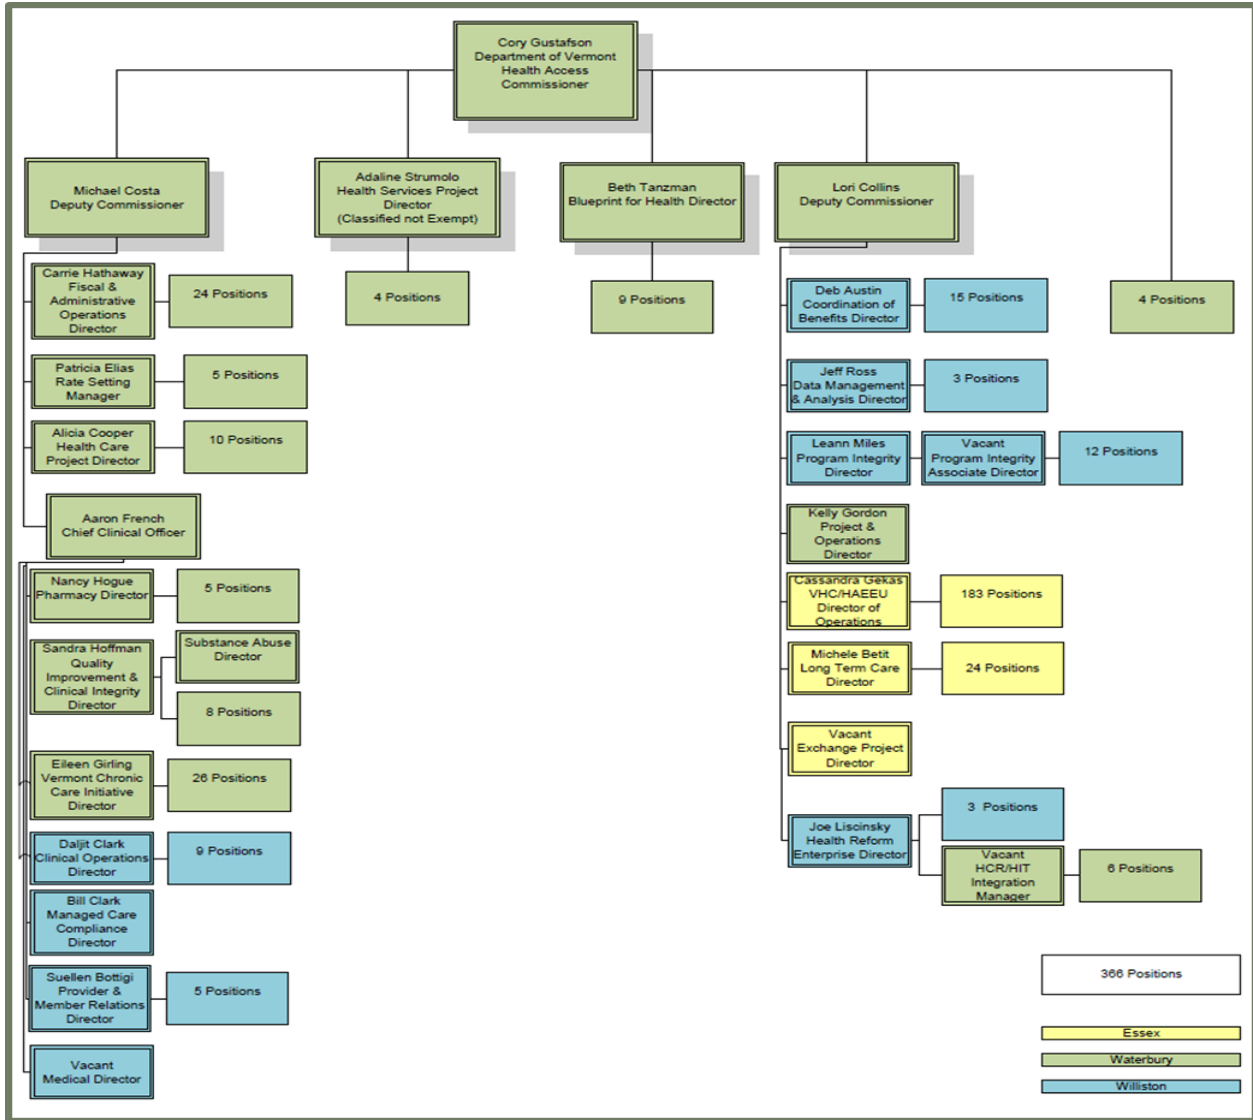

~~Vermont Department of Health (VDH)~~

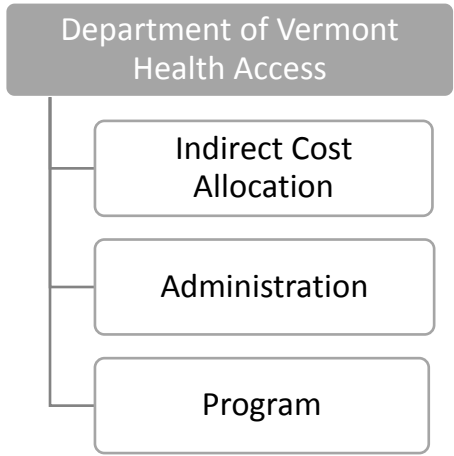

- ~~Medicaid outreach and eligibility.~~
- ~~Medical Practice Division (Quality Assurance).~~
- ~~Selected Skilled Professional Medical Personnel.~~

Costs for these activities are included in each Department's plan and included on the CMS-64 as appropriate.

Organizational Unit 2: Administration

Nature and Extent of Services: The following program codes, descriptions, and allocation methods are for costs associated with the Commissioner's Office; Information Technology Services; Health Planning; Department Operations, and the Business Office. It had been standard practice that any staff person in the department can code costs to any program code in the department if that code is the most appropriate description of the cost until the May 16, 2013 payday. At that time the State of Vermont converted to a new payroll system. The only Cost Allocation implication of this new payroll system is that employees are given a limited number of program codes from which to choose. However, the practice is to add program codes to employees' list of available codes upon request so that any program code is made available to any employee. There have not been changes in the pattern of time reporting as a result. These program codes are shown within this Division as an approximate guide to the most likely users of these codes.

Detailed explanations of individual functions are included below.

Program Code	Program Name	Description	Allocation Method
37999	SIM YR 3 Testing – Staff	Direct Staff and operating costs that are related to SIMS activities for YR 3 testing	Per Approved SIM NOA

(It is standard practice that any staff person in the department can code costs to any program code in the department if that code is the most appropriate description of the cost. These program codes are shown within this Division as an approximate guide to the most likely users of these codes.)

The Maternal and Child Health Division includes the School Based Medicaid Administration Claiming (MAC) program, code 39758. A key element in this program is the web-based random moment time study (RMTS) designed and implemented by the University of Massachusetts, our contractor, in cooperation with the Vermont Department of Health (VDH). VDH submitted descriptions of the RMTS to the Division of Cost Allocation and then to CMS in 2010 and 2011. There were a series of phone conversations with CMS and revisions and re-submission of documents describing the implementation of the RMTS during 2011. A letter approving Vermont's RMTS was sent by CMS Region I on May 16, 2013. Vermont did not receive this letter, however, until a copy was forwarded by DCA on November 25, 2014. The CMS letter approved the RMTS subject to ten conditions. Vermont accepts these conditions. Specifically,

1. Vermont agrees to amend this Cost Allocation Plan whenever there is a change from the RMTS methodology approved by CMS.
2. Vermont agrees that any CMS guidelines related to RMTS or other elements of our claims will be promptly incorporated into our program on a prospective basis.
3. Vermont agrees to seek CMS advance review of any forms or documents that are subsequently developed for this program.
4. Vermont agrees to continue to monitor the overall implementation of the RMTS and to review all claims submitted.
5. Vermont agrees to monitor the RMTS for appropriateness of the use of activity codes by coders and for the proper implementation of the RMTS methodology.
6. Vermont agrees to report to CMS any changes in: the number of RMTS moments to be included in the sample (as described in the "VDH Implementation Guide for Statewide RMTS," Section 1(B) and Appendix A, Section II); the statistical validity of the sample selection and sample results; any changes in the criteria for inclusion of contractual staff in the sample; and any changes in services or administrative activities performed.
7. Vermont agrees to provide oversight of any outside entity contracted to operate or monitor the time study, as described in the "VDH Implementation Guide for Statewide RMTS," Section II, "Oversight and Monitoring."
8. Vermont agrees to submit any changes from the approved plan to CMS prior to implementation. Any such changes will be submitted as a change to this Cost Allocation Plan.
9. Vermont agrees that any costs claimed are subject to review or audit.
10. Vermont agrees to monitor the time study to assure proper use of activity codes and proper application of the methodology.

Department of Mental Health (DMH)

I. Introduction

The Department of Mental Health (DMH) was established by the state legislature effective July 1, 2007.

Within this document, we have included an overview of DMH's organizational structure and a list of the specific functions performed by DMH, referred to as plan departments or cost pools, and the allocation method for each function. Please note that the plan department numbers correspond to internal AHS program codes, from the state accounting system.

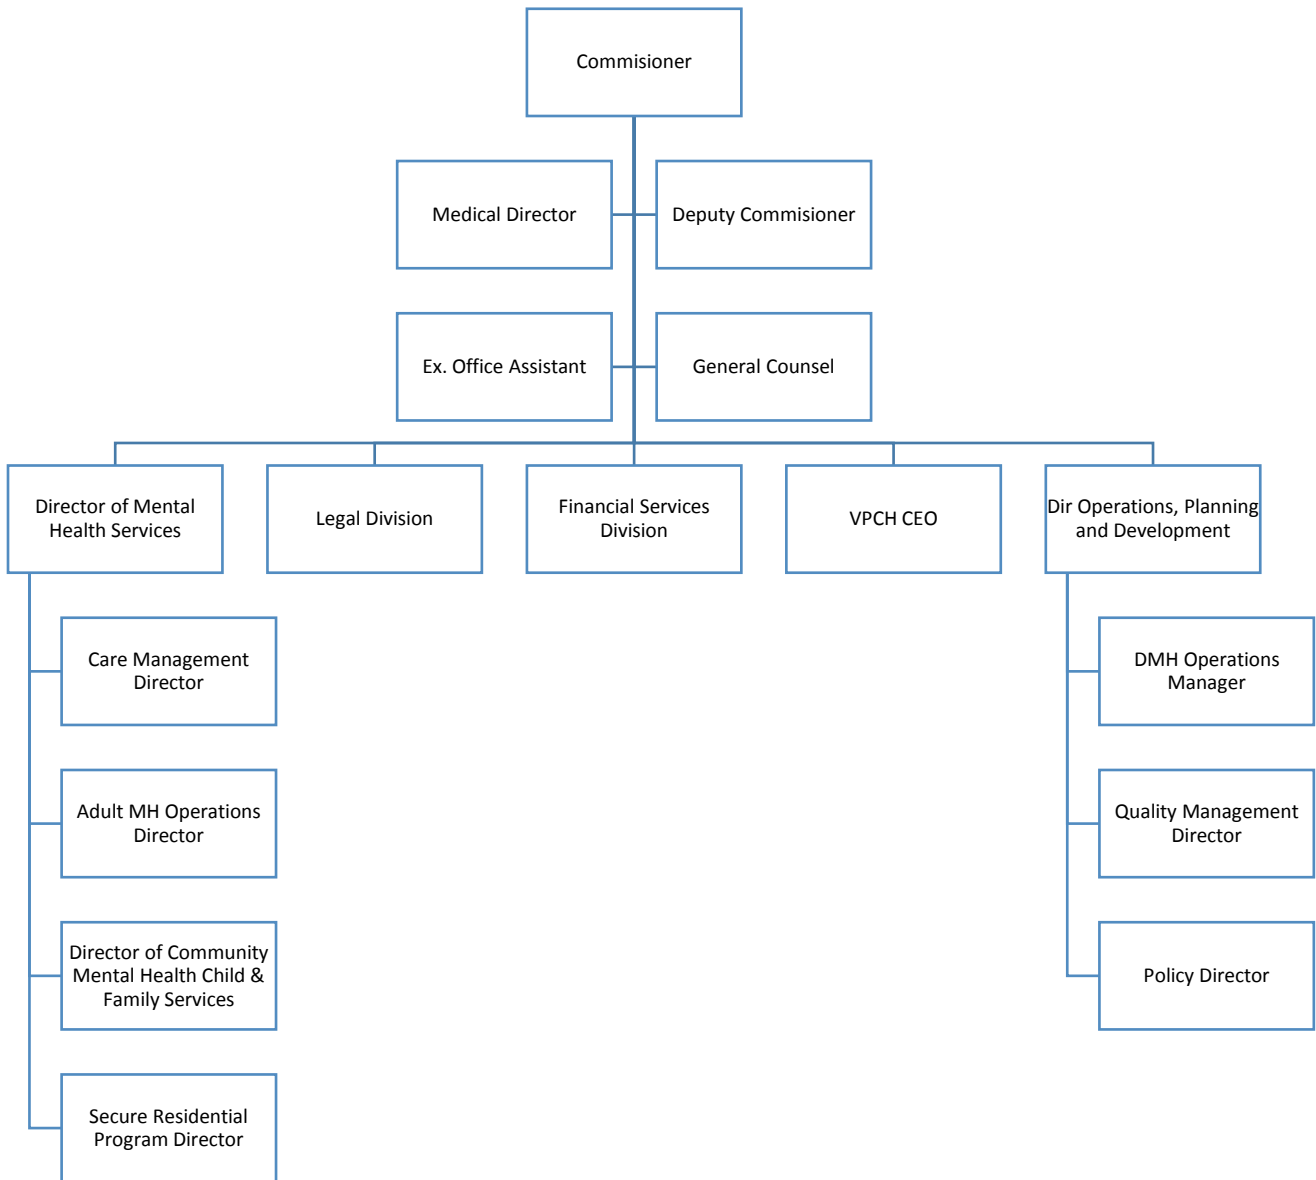

Our cost allocation plan (CAP) narrative is broken out into organizational areas called "cost centers" that are based on the sections of our organizational chart. Cost centers are comprised of various plan departments or units of cost that fall under each cost center.

Staff at DMH direct code their time to the programs they support throughout their work day. DMH staff enters their time into the state's payroll system. When staffs enter timesheet information, they "direct code" their time and the data feeds the VISION accounting system. Staff performing support functions will use their assigned VISION code unless they work on a specific function where they are required to direct code their time to a specific function or program. Staff who works across multiple programmatic and direct service areas will code their time appropriately to multiple VISION codes. 100% of staff time is recorded. As a result, the staff costs in each VISION code are from staff recording their time, and an individual's cost may appear in more than one code, though it cannot exceed the total cost of that employee.

VI. Organizational Chart

DMH has set up our cost allocation plan narrative to mirror the organizational structure under which it operates. Section VI of this document describes, in narrative form, our cost allocation process. We have included a table that breaks out each of our cost pools, which mimic the boxes below on the organization chart; the narrative and organizational chart crosswalk to one another, and the narrative further describes the programs that the units within DMH administer.

DEPARTMENT OF MENTAL HEALTH

VII. Vermont Department of Mental Health Cost Allocation Methodologies

With the January 1, 2017 extension of the Global Commitment to Health 1115 Waiver, administrative costs are not included in the budget neutrality agreement. Administrative costs will be reported on the appropriate CMS-64.10 Base reporting line. However, administrative costs associated with investments that are strictly administrative in nature are subject to the budget neutrality limit and are reported on the “Investments” or “DSR investments” waiver forms. Investment administrative costs for Green Mountain Care Board, Health Research and Statistics, Patient Safety Adverse Events, and Area Health Education Centers (AHEC) receive 50% FFP.

Department of Children and Family Services

Quarterly Child Subsidy Case Count:

Using the Excel file (CAP FYXX) in the email received monthly from CDD Operations, enter the unduplicated count in cell D1, then use formula (Count of party ID Child/Grand Total of Count of party ID Child) to determine the percentage of each case count. Then use the formula (Unduplicated count * Percentage obtained in previous formula) to determine unduplicated case count for the month, and enter these figures under the reporting month in the cells corresponding to the program code in the CAP FYXX file received. This entry in CAP is a three month total.

Quarterly Child Subsidy Duplicated Case Count:

Using the Excel file (CAP FYXX) in the email received monthly from CDD Operations, enter the “Count of Party ID Child” amounts under the reporting month in the cells corresponding to the program code in the CAP FYXX file received. This entry in CAP is a three month total.

Central Processing Unit (CPU) Usage Commands:

Using the Excel file in the email received monthly from DCF Systems Analyst Dan Hegarty, which can also be found here: \AHS ALL SHARE\DCF Shared Financial Information\DII Billing\Fiscal Year 2016, enter the amount listed next to “Commands” in the reporting month column in the cells corresponding to the systems listed in column A. This entry in CAP is a three month total.

Case Count Across TANF, SNAP Benefits Issued, Fuel, and WIC:

Using the Excel file in the email received monthly from the EBT Director, enter the figures for the reporting month as follows: 3 squares VT + FSCO under Food Stamp-Issue, Fuel under Fuel, Cash under TANF (RU), and WIC under Direct to WIC. This entry in CAP is a three month total.

Total Hours Reported by Program for TANF, SNAP & GC:

Using the email received from Fraud and Claims Unit Supervisor monthly, enter the total hours into tab J1 in the DCF Cap Stats file. Then update the Fraud Unit Quality Assurance tab in the file per procedures. This will update the Total allocation formulas, then transfer the updated allocation figures to the Statsum spreadsheet. This entry in CAP is a three month total.

IV-D Cases Vs Non IV-D Cases:

Using the Case Stats tab on the Excel file in the email received quarterly from the DCF Business Office Finance Manager I, take the quarterly number of IV-D Cases highlighted, then enter this number on the Statsum spreadsheet in the corresponding cell to Title IV-D. Take the quarterly number of Non IV-D/Registry cases highlighted, then enter this number on the Statsum spreadsheet in the corresponding cell to State Funded. This entry in CAP is a three month total.

IV-D Customer Contacts vs Non IV-D Customer Contacts:

Using the Case Stats tab on the Excel file in the email received quarterly from the DCF Business Office Finance Manager I, take the quarterly number for sub-total IV-D under column mnth totals, and enter this number on the Statsum spreadsheet in the corresponding cell to Title IV-D. Take the quarterly number for sub-total non IV-D under column mnth totals, and enter this number on the statsum spreadsheet in the corresponding cell to State Funded. This entry in CAP is a three month average.

Total Cost across EA and GA (allocated to TANF and State Fund):

Use a detailed expenditure query from our account system, VISION, to determine cost. Run Vision query VT_Account_Exp_AllFields_DTL_C using reporting month's dates, GL Business Unit 03440, and Department 344006%. Copy all data in query from column A to column X down to the last line with data on it, then paste this into the GA and EA Statistic QX spreadsheet for the corresponding month found here:

\\ahs\ahsfiles\CO\Share\DCFBusinessOffice\FISCAL\SFY1X Files\CAP Stats FY20XX\QX SFYXX Month 201X\GA & EA (Method E). Update pivot table by changing data source to include all new data pasted from query. Enter GA Sum in State Funded cell under corresponding month on Statsum spreadsheet. Enter TANF Sum in TANF (RU) cell under corresponding month on Statsum spreadsheet. This entry in CAP is a three month total.

Quarterly number of paid claims for GC, CHIP and All Other benefiting Programs:

Using the Excel file in the email received quarterly from DVHA, use the total amount listed under the Paid Claims count from the tab labeled Qtr Stats. This total will be the sum of Draw Sections: GC and Former CFC + CHIP. The entry in CAP is a three month total.

Quarterly Count of Case by Program:

Using the Fraud cost Allocation Formula Report received monthly from the Fraud and Claims Supervisor, enter the amounts from the allocation column to the statsum sheet as: FS-Food Stamp Issue, RU-TANF (RU), EP-AABD, HC-Global Commitment Admin, SF-Home Heating program/Liheap, GA-State Funded. The entry in CAP is a three month total.

Quarterly Count of Eligible Cases Across Title IV-E &, Global Commitment, & State Fund:

Using the Sofhie2.ace report provided by the Financial Specialist III in the DCF Business Office quarterly, enter the amounts in the correct month within the table titled Method-Title IV-E & Medicaid Eligibility Rate in the FSD Stats tab as follows: Gen-State Funds, Title IV-E Foster Care Case Planning/Management, and Global Commitment. These figures will also post in the Statsum tab to complete this entry. The entry in CAP is a three month average.

Title IV-E Foster Care Eligibility Rate:

Using the Frepay.ace and Frepay4e.ace reports provided monthly by the Financial Specialist III, enter the amounts from the lines marked totals for each category in the FSD Stats tab. The total amount will update monthly when these entries are made, and will update the Statsum tab throughout the quarter. The entry to CAP is a three month average.

Total Global Commitment eligible population compared to total population:

Open monthly statewide foster care payroll listing (payelst.pdf) found here: Y:\AHS ALL SHARE\Reports\FSD District SSMIS docs\Business Office\Foster Care Monthly Reports\20XX-XX-XX. Search for Woodside Juvenile Rehab information in report. Add the number of days for clients with \$0 in the total column, then input this number as Regular (Non-Medicaid) amount under the corresponding month in the Statsum sheet. Subtract the above number of days from the total number of days for Woodside residents, then input this number in the GC (Medicaid) cell for the corresponding month. The entry to CAP is a three month total.

Quarterly Results of the Legal Time Study:

Using the Excel file in the email received quarterly from the AAG Administrative services coordinator; enter the hours worked into the AAG Time Study tab in the corresponding cells. The entry to CAP will be a total of the hours for the quarter.

Duplicated Case Count across Economic Services:

Open file copy of copy of DupCaseloadcount_ESD updated monthly by the Performance Manager found here: Y:\AHS ALL SHARE\DCF Shared Financial Information\Financial_Monitoring\ADMIN & ESD Bnfts\ESD Caseloads_CAP. Update Statsum sheet with three most recent months, if quarter is not complete, email ESD Process and Performance manager for update. When update is made to Excel file you can update Statsum sheet. The entry to CAP is the total for the quarter.

Title IV-E Adoption Assistance Rate and Title IV-E Guardianship Rate:

Using the Frepay.ace and Frepay4e.ace reports provided by the Financial Specialist III in the DCF Business Office monthly, enter the total amount in the sub adoption category from the Frepay.ace report under Method-Title IV-E Adoption Assistance Rate (Total in Custody) in the FSD Stats tab. Enter the amounts from the lines marked totals on the Frepay reports for each category in the FSD Stats tab in the Method-Title IV-E Eligibility Rates table, then enter the total amount in the sub adoption category from the Frepa4e.ace report in the IV-E Eligible table as Subsidized Adoption All. Using the Guardianship Cases Spreadsheet provided quarterly by the Financial Specialist III in the DCF Business Office input the number of guardianship cases in the corresponding month to the Method – Title IV-E Adoption Assistance Rate table as Total in Guardianship IVE Eligible to complete the formula for IV-E Eligible cases. The total amount will update monthly when these entries are made, and will update the Statsum tab throughout the quarter. The entry to CAP is a three month average.

Economic Services Case Count across Reach Up (TANF and State Fund):

Open file copy of copy of DupCaseloadcount_ESD updated monthly by the Performance Manager found here: Y:\AHS ALL SHARE\DCF Shared Financial Information\Financial_Monitoring\ADMIN & ESD Bnfts\ESD Caseloads_CAP. Update Statsum sheet with three most recent months, then using only the RU totals, updated the RU case count method. This entry in CAP is a three month total.

Quarterly Results of Family Services Time Study:

Using the email received from ssdb@ahs-ssmis-prod1.ahs.state.vt.us after generating the Random Moment Timer Statistic (RMTS) report in the SSMIS data base using the following method: Click on the link to the SSMIS data base to gain access, login with username and current password. Press <enter> to continue, input number 1 then press <enter> input the pay period dates for report required using the following format: Enter the first working day and the last working day in the date range you are requesting (!getts 00/00/0000 00/00/0000) press <enter>. Press the letter e to return to the main menu. Type exit to log out of the SSMIS data base. Once these steps are completed an automatic e-mail is generated providing the RMTS data for the period. Enter the numbers in the email next to the corresponding letters on the FSD Stats tab monthly and reallocate general admin and leave. This will also post to the Statsum tab. Entry to CAP is total for the quarter.

Quarterly Results of the Economic Assistance BPS RMTS:

Copy the entire Sample Results Report from EasyRMTS™ into the first tab of the Excel Results template. Using the spreadsheet used to review subsample responses throughout the quarter, copy only the incorrect subsample responses into the Subsample Invalidations tab. Make sure the value in cell C17 says “CHECK” before proceeding on the results matrix tab. In the Allocap tab in column D subtract one from each incorrect response from the subsample invalidations tab. Make sure the value in cell I141 says “CHECK” before proceeding. The formulas on the “AlloCAP” tab of the spreadsheet reallocate general admin & general training and paid time off to all other activities. Enter the amounts in Column H to the CAP. The entry to CAP is a total for the quarter.

Economic Services Reach Up E&T Case Count:

Using the e-mail from Karolyn White, ESD. Update Statsum sheet with caseload data for the current period. This entry in CAP is a three month total.

Quarterly Employee Count Across ESD District Office Staff:

~~Obtain on a monthly basis from Pam Dalley, DCF Operations;~~ Obtain on a quarterly basis from Melanie Smit in ESD,

a head count of ESD employees versus LTC employees in the following ESD District Office locations (Note-these are the only districts location with LTC staff): Barre, St. Albans, Burlington, Rutland, Springfield and Morrisville. The entry into CAP is specific to each district office location, and is the average number of ESD employees for the period, and the average number of LTC employees for the period.

Recipient Count by Funding Source:

Using recipient data emailed from Karolyn White, enter the number of recipients for the quarter by their appropriate funding source. This entry in CAP is a three month total.

Department of Vermont Health Access

PU - CMS HIT 83% HIT Fund 17%:

This method is used to allocate contractual costs for Health Information Exchange contracts, specifically agreements using HIT Fair Share funds. It is updated periodically per the IAPD Program Code allocation guide sent by AHS Central Office, and a change is only made if indicated in red font.

PU – ~~MCO Investment~~ Blueprint State Pop %:

This method is used for Administrative and Contractual costs for the DVHA Blueprint for Health Program. This attributed population distribution is ~~dictated by AHS Central Office based on clients receiving services from the Blueprint providers~~. It has been set up as a periodic update if a decision is made to change it, ~~but has been unchanged since its creation~~.

PU - ~~MCO Investment~~ VITL State Pop %:

This method is used for Health Care Reform and HIT Grants and Contracts. It is dictated by AHS Central Office ~~and is similar to the method described above~~ – the exception is that the “~~MCO Investment~~ – Vermont Blueprint for Health” final receiver is replaced by “~~MCO Investment~~ - Vermont Information Technology Leaders/HIT/HIE/HCR.”

PU - MMIS 48.24%, E&E90 38.34%, CMS-HIT 13.42%:

This allocation is used for HSE PMO Staff and Contractual expenses. It is updated periodically per the IAPD Program Code allocation guide sent by AHS Central Office, and a change is only made if indicated in red font.

QU - Quarterly combined AHS and VHC Enrollment for Global Commitment, CHIP, Designated State Health Programs (DSHP) and QHP:

This method is used to allocate costs to DVHA’s Enrollment Broker Services contract. It is updated every quarter according to the average enrollment count for CHIP, Global Commitment, and QHP populations specifically with Vermont Premium Assistance (VPA). The source data comes from the VHC Effectuation Report and AHS Central Office Enrollment Report.

QU - Quarterly Enrollment for Global Commitment, CHIP, and all other benefiting programs:

This method is used for the admin costs of a variety of different units within DVHA, including: Data Unit, Program Integrity, Clinical Unit, VCCI, the Reimbursement unit, etc. This data is updated quarterly according to the average enrollment count for Global Commitment, CHIP and QHP populations without VPA. The source data comes from the VHC Effectuation Report and AHS Central Office Enrollment Report.

QU - Quarterly number of paid claims for Global Commitment, CHIP, and All Other benefiting Programs:

This method is used to allocate dollars paid to DVHA’s Fiscal Intermediary. The method is updated quarterly and utilizes paid claim counts to Global Commitment and CHIP. The data is sourced from Hewlett-Packard Enterprise’s Draw Summary files.

QU - Quarterly number of Pharmacy Claims paid for Global Commitment, CHIP, and All Other benefiting Programs:

This method is used to allocate costs to the DVHA Pharmacy unit and Pharmacy Benefit Manager. The method is updated quarterly and utilizes pharmacy paid claim count to Global Commitment and CHIP. The data is sourced from an MMIS-based query that is run by the DVHA Business Office.

QU - Quarterly VHC enrollment for GC, DSHP (75% FMAP), CHIP and QHP:

This method is similar to “Case Count between CHIP, VHC, and Medicaid 75%” with the exception that the final receiver is labeled “OAPD”, and is used for OAPD related contractual and staff costs.

QU - Quarterly VHC Enrollment for Global Commitment, CHIP, Designated State Health Programs (DSHP) and QHP:

This method is used to allocate costs to DVHA VHC Operations program codes. This data is updated quarterly according to the average enrollment count for Global Commitment, CHIP and QHP populations with VPA. The source data comes exclusively from the VHC Effectuation Report.

QU - Quarterly VHC enrollment for MAGI and DSHP (90/10) and QHP Level 1C:

This allocation method is used for Exchange Level 1 and Level 2 EBCP Contracts and Staff. The data is updated quarterly according to the average enrollment of QHP without VPA (allocating to Level 1C Final Receiver). A second line contains Medicaid, CHIP, and QHP with VPA which allocates to a 90/10 Integrated Eligibility IAPD. The source data comes exclusively from the VHC Effectuation Report.

Quarterly Results of the HAEEU RMTS:

Due to the varying nature of HAEEU's work, CMS and AHS Central Office agreed to the utilization of a Random Moment Time Study (RMTS) to allocate staff costs based activity. Each activity corresponds with a specific set of funding sources by population or by direct activity type. Throughout the quarter HAEEU staff are required to populate a randomized study and are prompted with questions about their most recent activities. These Sample Results from EasyRMTS™ feed into a spreadsheet that is used to manually populate intermediate codes in AlloCAP™ by activity type. A designated HAEEU supervisor reviews subsample responses throughout the quarter and invalidates incorrect responses. Based on the percentage splits in the intermediate codes, the funding is broken out by final receiver and program code. The data source for these samples is EasyRMTS™, and the data is uploaded quarterly. It becomes available on the first business day of the month after the end of a quarter.

Quarterly Results of the HAEEU RMTS - Not Enhanced:

This allocation method is identical to the one described above, with the exception that only non-enhanced Global Commitment activities are included in the data. Some examples of enhanced activities NOT included in the data are VHC eligibility determinations, case reviews, eligibility notices, etc. This method is updated quarterly, and the data source for samples is EasyRMTS™.

Total hours across all program codes:

This allocation method is used to distributed indirect costs for AHS Central Office. Based on a distribution of the DVHA staff hours per program code, the AlloCAP™ system is set up to group those codes by the appropriate Final Receiver. This data is updated quarterly, and is populated by the State of Vermont's VTHR system data.

Total hours across all program - less BO:

This allocation method is used for the DVHA Business Office and functions as described above, however the hours from the Business Office itself are removed as to not skew the distribution.

Total hours across all program - less Commissioner's Office:

This allocation method is used for the DVHA Commissioner's Office and functions as described above, however the hours from the Commissioner's Office itself are removed as to not skew the distribution.

~~Allocated to GC-MCO Investments and state funds per AHSCO determined rate.~~

Allocated to Substance Abuse Block Grant and to ~~Global-Commitment~~ Investments (STC-79) - Substance Use Disorder Treatment (30) based on availability of Substance Abuse Block Grant funding.

Expenses are charged direct to Substance Abuse Block Grant first. If those funds are exhausted, the remaining quarterly expenses are allocated to ~~GC-MCO~~ Investments and state funds per AHSCO determined rate.

Allocated to Substance Abuse Grant and ~~Global-Commitment Medicaid~~ Admin based on Medicaid allowable share of costs.

The Medicaid allowable share of costs is based on the number of Medicaid eligible students as a percent of the entire student population in the supervisory union or district.

Allocated to WIC Admin and ~~Global-Commitment~~ Investments (STC-79) - WIC Coverage (37) based on availability of WIC Admin grant award.

Expenses are charged direct to WIC Administration grant first. If those funds are exhausted, the remaining quarterly expenses are charged to ~~GC-MCO~~ Investments.

Allocated to WIC MIS Planning & Implementation and ~~Global-Commitment~~ Investments (STC-79) - WIC Coverage (37) based on availability of WIC MIS Planning & Implementation grant award.

Expenses are charged direct to WIC MIS Planning & Implementation grant first. If those funds are exhausted, the remaining quarterly expenses are charged to ~~GC-MCO~~ Investments.

Total Salaries Across ADAP Program

Expenses related to ADAP Administration are allocated based on a ratio of total salary costs expended in ADAP in the quarter by VDH staff.

Total Salaries Across Environmental Health.

Expenses related to Environmental Health Administration are allocated based on a ratio of total salary costs expended in Environmental Health in the quarter by VDH staff.

Total Salaries Across Health Promotion & Disease Prevention

Expenses related to Health Promotion & Disease Prevention Administration are allocated based on a ratio of total salary costs expended in Health Promotion & Disease Prevention in the quarter by VDH staff.

Total Salaries Across Health Surveillance Program

Expenses related to Health Surveillance Administration are allocated based on a ratio of total salary costs expended in Health Surveillance in the quarter by VDH staff.

Total Salaries Across MCH/~~OLH~~

Expenses related to MCH Administration are allocated based on a ratio of total salary costs expended in MCH in the quarter by VDH staff.

Total Salaries across Office of Public Health Preparedness. Expenses related to Office of Public Health Preparedness Administration are allocated based on a ratio of total salary costs expended in Office of Public Health Preparedness in the quarter by VDH staff.

Total Salaries Across VDH Expenses related to AHSCO and OLH and VDH Administration are allocated based on a ratio of total salary costs expended in the quarter by all VDH staff.

Department of Mental Health

Allocated to Data Infrastructure and all DMH programs:

DMH statistical unit's time and travel is direct coded to 42771. A journal entry is done in the business office to move the amount relating to statistic's time and travel in the amount of the quarterly letter given to the department for payment received from Behavioral Health Services Information System in accordance with Synectics for one quarter of the federal \$ to 42005. The statistic allocates the remainder of DMH's statistical unit's time to 42015.

Allocated to direct Secure Res Recovery Operating (MTCR) and Adult General (VPCH) cost centers based on FTE count:

This statistic allocates costs of staff time associated with VPCH Nursing Administration to MTCR based on # of FTE of direct care staff at each facility.

Allocated to direct Secure Res Recovery Operating (MTCR) and Adult General (VPCH) cost centers based on meal count:

This statistic allocates costs associated with VPCH dietary costs to MTCR based on # of meals for the facility.

Full Time Equivalent Count across Housing, Utilization Review, and Employment Supports:

This statistic is the allocation of 42305 costs to 42015, 42306, and 42648 by FTE count in each program code.

Mental Health Distribution for Entire System of Care:

This statistic allocates costs from 42014 to all receivers that are in that statistic as a % of each receiver.

Mental Health Distribution Including Community Care:

This statistic allocates costs from 42015 to all receivers that are in that statistic as a % of each receiver.

Statewide Medicaid Eligibility Rate:

This statistic allocates 42301, 42302, and 42306 to Global Commitment program vs **MCO** Investment by patient by new admissions to level 1 for the quarter.

Total Cost of All Adult Programs:

42648 is allocated to all adult programs. This statistic is created from actual quarterly cost from department dept Id 3150070500. It is spread as a % of the total costs in 3150070500.

Total Cost of All Children's Programs, Including Community Health:

42649 is allocated to all children's programs. This statistic is created from actual quarterly cost from department dept Id 3150070600. It is spread as a % of the total costs in 3150070600.

Total Costs of All Inpatient Programs:

42321 is allocated to all inpatient programs. This statistic is created from actual quarterly cost from department dept Id 3150070300, 3150070700, and 3150070800. It is spread as a % of the total costs in 3150070300, 3150070700, and 3150070800.

Total Salaries across DMH Staff:

AHS indirect costs are allocated by this statistic. Costs are provided by AHS

XI. TIME TRACKING AND TIME STUDY INFORMATION

ESD Time Study

The random moment time study (RMTS) is a survey process that includes all of the activities performed by the Economic Services Division (ESD), Benefit Programs Specialists (BPS) within the Vermont Department for Children and Families (DCF). An updated study begins on July 1, 2015. Participating staff are those who support multiple programs administered by DCF in ESD. Based on these observations, the total effort of a group of employees is determined with a high degree of confidence that approximates the same results as having observed employees for 100% of their time at work. The results of the RMTS are used in the quarterly cost allocation plan (CAP) to allocate department costs to reimbursable and non-reimbursable areas. This level of detail is required for DCF to participate in federal claiming efforts.

The RMTS must be conducted on a continuous basis to support quarterly claiming efforts.

We thank participants in advance for their time and cooperation. Please direct all questions to either Public Consulting Group, Inc. (PCG) at vtdefbbs@pcgus.com or DCF at AHS.DCFESDOverdueReport@Vermont.gov. Participants may also call the PCG hotline at 866-912-2983.

How to Complete the Random Moment Time Study

Participants receive an e-mail that directs them to a website via a web link. Participants log in to the system and then answer several different questions. Depending on the answers to the questions, they select from a list of individual activity and program codes.

After answering all of the questions provided, the user selects a Submit button to respond to the survey. The surveys must be completed within 72 hours. Participants receive a reminder e-mail 24-hours and 48-hours after each moment if the survey has not yet been completed. If a participant is working on a case, the worker is asked to provide the client's first initial, last name, and last four digits of the client's social security number (SSN) as a unique case identifier.

The RMTS is mandatory and must be completed in a timely manner. Every survey that is assigned must be completed! Moments stay 'live' in the system for 72 hours so if a participant is on leave for a short time, they must still complete the moment upon their return.

RECORDING VHC ACTIVITIES

DCF BPS staff may connect Medicaid applicants to the Vermont Health Connect (VHC, the State's Health Insurance Exchange) to seek enrollment in a qualified health plan and premium tax credit and cost sharing reduction programs through the federal exchange. Staff activities in support of Medicaid or VHC eligibility determinations are considered to be part of the Medicaid program for the purpose of completing this time study.

For example: If participants direct a client to VHC, provide them with the website or phone number for VHC, connect them with HAEU staff, or provide the applicant with information on how to apply for the health insurance programs offered by the VHC, participants would select the following activity and program code combination:

Case Specific Activity Code: Referrals to Medicaid and/or Medical/Behavioral Health Services ~~Eligibility~~
Program Code: Medicaid or SSI

ROOT QUESTION

The following describes each of the activities available to RMTS participants. Activities performed and programs administered on behalf of the client are described below. *Please note that meetings, phone calls, e-mails, filing, driving, and similar other administrative tasks should be tied to the activity that they are in support of; these are not general administrative activities unless they are truly not tied to a case.*

The first question a participant is asked when completing the time study is: Were you working on a Case or on behalf of a client? The participant responds Yes or No.

For the purpose of the RMTS, a case is any client where you are actively working on assisting the client to access or continue accessing state or federal benefit programs. Please review the following examples for clarity.

- 1. If you are performing lobby monitoring to assist a potential client apply for a federal or state assistance program, regardless of whether a case has been opened, it is considered a case-related activity; select the Eligibility Determination and Redetermination activity and then select the federal or state program to which the client is applying.*
- 2. If you are performing lobby monitoring and directing a potential client to the Vermont Health Insurance Exchange, it is considered a case-related activity; select the Eligibility Determination and Redetermination activity and then select the Medicaid program.*
- 3. If you are performing lobby monitoring and there is no one in the lobby at the time of your assigned moment, it is not considered a case-related activity; select General Administrative and General Training Activities as your activity and you will not be asked to select a program(s) that the effort was in support of.*

After selecting Yes or No, the participant is asked to first identify their activity, and then select the program(s) the activity is associated with.

CASE SPECIFIC ACTIVITY CODES

Please select the activity you are performing at the time of your moment, not the type of case.

1. Eligibility Determination or Redetermination

This activity includes all efforts made to determine or redetermine eligibility for a program on behalf of a client. Examples include:

- a. Scheduling and conducting client initial interviews;
- b. Reviewing case records for initial eligibility determination or redetermination;
- c. Verifying documents;
- d. Conducting verification requests;
- e. Verifying factors related to eligibility;
- f. Preparing calculation entries or computations;
- g. Data entry for eligibility purposes (including filling out forms specifically used for Reach Up Financial Assistance);
- h. Issuing vouchers for prescriptions, dental emergencies, or durable medical equipment (specifically for General Assistance clients);
- i. Completing necessary online forms to determine eligibility;
- j. Discussing eligibility determination requirements with a client or a DCF case participant; and
- k. Following up on “To-Do’s” related to eligibility determination or redetermination requirements.

These activities may be completed when the client is present or on the telephone. Meetings, phone calls, collateral calls, e-mails, filing, driving, mailing, contact with case managers, working in ININ, and other similar administrative tasks associated with this activity should also be coded here.

2. Utility Eligibility, Outreach, and Referrals

This activity includes all efforts made to determine or redetermine eligibility for Vermont Gas or Green Mountain Power. This activity should also be used for outreach or referrals to a utility program. This activity should only be used when performing these activities related to Vermont Gas or Green Mountain Power. ***Please note that the only Program allowed for selection after choosing this activity is “Utility Discount”.*** Meetings, phone calls, collateral calls, e-mails, filing, driving, mailing, contact with case managers, working in ININ, and other similar administrative tasks associated with this activity should also be coded here.

3. Active Case Updates/Changes

This activity should be selected when documenting case notes or a change to the case in a client record. Examples include but are not limited to any of the following:

- a. Documenting changes regarding employment status;
- b. Documenting changes regarding the number of children in the household;
- c. Supporting an audit request/case read by rerunning/correcting budgets or producing documents missing from the file;
- d. Reviewing or performing a case read for accuracy;
- e. Processing a 218E;
- f. Splitting a case or transferring a case to another worker, county, or district;
- g. Processing over/under payments;
- h. Performing QA variances;
- i. Cleaning up the case file;
- j. Generating, printing/copying, and/or mailing notification letters to clients; and
- k. Closing a case or previewing a pending closure case due to “unable to locate”.

Time spent following up on “To-Do’s” or “Dailys” related to updates or changes on active cases should also be coded here. Meetings, phone calls, collateral calls, e-mails, filing, driving, mailing, contact with case managers, working in ININ, and other similar administrative tasks associated with this activity should also be coded here.

4. Fraud Referrals

This activity includes all tasks involved in processing fraud referrals and responses. This activity includes:

- a. Referring to and communicating about potential fraud to a Supervisor, the Fraud Unit, or the Investigations Unit at DCF;
- b. Gathering information and documenting the referral for submission;
- c. Processing over/under payments; and
- d. Conducting QA variances due to potential fraud.

Meetings, phone calls, collateral calls, e-mails, filing, driving, mailing, contact with case managers, working in ININ, and other similar administrative tasks associated with this activity should also be coded here.

5. Fair Hearings and Appeals

This activity involves all worker tasks related to fair hearings and appeals, including but not limited to:

- a. Responding to fair hearing requests;
- b. Meeting with the client for pre-hearing conferences;
- c. Attending administrative hearings;
- d. Testifying at administrative hearings;
- e. Attending an appeals case; and
- f. Preparing pre-process or post-hearing paperwork or other documentation for any of these scenarios, including the 113 report.

Meetings, phone calls, collateral calls, e-mails, filing, driving, mailing, contact with case managers, working in ININ, and other similar administrative tasks associated with this activity should also be coded here.

6. Reach Up Sanctions

This activity should be selected when performing activities related to Reach Up Sanctions, including processing payments to landlords on behalf of the Reach Up client until the client complies with penalties and attends a follow up meeting with the BPS. Meetings, phone calls, collateral calls, e-mails, filing, driving, mailing, contact with case managers, working in ININ, and other similar administrative tasks associated with this activity should also be coded here. ***Please note that the only Program allowed for selection after choosing this activity is “Reach Up”.***

7. Reach Up Controlled Vendor Payments

This activity should be selected when monitoring and making controlled vendor payments for various expenses, including money mismanagement or processing payment requests from the client. Meetings, phone calls, collateral calls, e-mails, filing, driving, mailing, contact with case managers, working in ININ, and other similar administrative tasks associated with this activity should also be coded here. ***Please note that the only Program allowed for selection after choosing this activity is “Reach Up”.***

8. Outreach and Education Activities

This activity should be used when performing activities related to outreach about the assistance programs offered by DCF. This activity includes any time spent:

- a. Conducting outreach about services offered by the programs BPS administers;
- b. Educating potential clients about the benefits and availability of services;
- c. Encouraging clients to access state and federal services and programs;
- d. Compiling and distributing educational materials about assistance programs; and
- e. Assisting a client fill out a program application.

Meetings, phone calls, collateral calls, e-mails, filing, driving, mailing, contact with case managers, working in ININ, and other similar administrative tasks associated with this activity should also be coded here.

9. Referrals to Medicaid and/or Medical/Behavioral Health Services

This activity includes referral of a client to Medicaid or other governmental or private agencies for Medical/Behavioral Health services that are not part of the services offered by BPS. This activity includes time spent:

- a. Working with Community Connections related to the medical needs of the client;
- b. Connecting clients with medical/behavioral health services; and
- c. Coordinating medical/behavioral health services for the client.

Meetings, phone calls, collateral calls, e-mails, filing, driving, mailing, contact with case managers, working in ININ, and other similar administrative tasks associated with this activity should also be coded here. ***Please note that the only Program allowed for selection after choosing this activity is “Medicaid” or “SSI”.***

10. Referrals to Non-Medicaid/Non-Medical, Community Services

This activity includes referral of client to social services, housing agencies, Family Services, or other governmental or private agencies for Non-Medical services that are not part of the services offered by BPS. This activity includes time spent:

- a. Working with Community Connections related to the non-medical needs of the client;
- b. Connecting clients with non-medical/non-behavioral health services such as social or religious groups or affiliations; and
- c. Coordinating non-medical/non-behavioral health services for the client.

This activity should not be used to record activities associated with the utility programs. Meetings, phone calls, collateral calls, e-mails, filing, driving, mailing, contact with case managers, working in ININ, and other similar administrative tasks associated with this activity should also be coded here.

NON-CASE SPECIFIC ACTIVITY CODES

1. Program Specific Training or Reporting

This activity should be used for program specific trainings related to your job as a BPS participant. This activity should also be used for any time you spend creating, editing, or updating program specific reports. The trainings and reports can be on any specific program you support clients with. Examples include trainings and reports on topics such as:

- a. Reach Up Financial Assistance;
- b. 3Squares;
- c. Fuel;
- d. Medicaid;
- e. SSI;
- f. General Assistance/Emergency Assistance;
- g. Essential Person;
- h. Utility Discount;

You will be asked to select which program(s) the training or report covered. Any administrative efforts related to this activity should also be coded here.

2. General Administrative and General Training Activities

This code includes activities performed not related to case work and specific clients but necessary for your job. Please use this activity code for tasks such as:

- a. Attending work-related conferences within your office;
- b. Attending conferences or one-on-ones with your supervisor to discuss non-case related issues;
- c. Attending general trainings not specifically related to your job as a BPS participant, such as:
 - a. Domestic Violence;
 - b. Long Term Care;
 - c. Eligibility Redetermination;
 - d. Interview Training;
 - e. Using the ININ phone system;
 - f. Email system usage;
 - g. Fire drills;
 - h. RMTS training;
 - i. General office procedures trainings; or
 - j. Mentoring New Workers on any of these programs.
- d. Bathroom or Personal Breaks;
- e. Cleaning or organizing your workspace;
- f. Completing your timesheet;
- g. Filling out or looking at the "Daily Duties" spreadsheet;
- h. Preparing for or involvement in office functions;
- i. Covering the front desk (greeting clients and answering phones);
- j. Filling out personnel forms for human resources;
- k. Attending general staff meetings not related to your cases;
- l. Processing general mail/faxes/e-mails not related to a case;
- m. Testing computer systems or working with IT to fix a computer problem; and
- n. Reading new office policies not specific to any of the programs you work with.

You will be asked to describe the activity in your own words, and this activity should not be used for any phone call, collateral calls, e-mail, documentation activity, travel to/from meetings with clients or required trainings that you attend, or filing activity if you can tie it to a specific case. Any administrative efforts related to this activity should also be coded here.

NON-WORK RELATED ACTIVITY CODES

1. Paid Time Off (Annual/Sick/School/Administrative Leave/Comp)

This activity is used when the participant is not working but is being paid for the time off. Examples include using regular annual leave for vacation, sick time, Family Medical Leave Act (FMLA), banked leave time, union leave, or approved personal educational leave. Paid days not working due to a weather emergency would also be recorded here.

2. Unpaid Time Off: Lunch or Not Scheduled to Work/Flex Time

Any approved leave you take that you are not paid for should be coded here. Use this activity code if you were either not scheduled to work at the time of the observation, (i.e., it is before your regular start time, or after your regular end time, or the sample is received at a time when you are not scheduled to work due to your adjusted work schedule). For example,

- a) you flex on Monday and the sample is received on Monday.
- b) the sample is before or after your regular work hours (e.g., at 7:49 a.m. and you do not start until 8:00 a.m.).

Sick, vacation, annual leave, and “snow or weather” days should not be coded here unless you are not paid for the time off.

3. Non-DCF Activity or Other Emergency Situation

This activity should be used when the participant performs an activity unrelated to any responsibility that they would normally have as an employee of DCF. Examples may include performing a function for another state agency or working on non-human services activities in the event of a natural disaster. Participants are required to provide a brief description of the activity being performed when this activity is chosen.

PROGRAM CODES

Please select the program/program combinations you are supporting at the time of your moment. If you are assisting a client with one activity that supports multiple programs, please select the appropriate combination of programs.

1. Reach Up

Reach Up provides temporary cash and financial assistance to families with children and pregnant women who meet certain financial and nonfinancial eligibility factors in order to help them pay for living expenses such as rent, heat, utilities, clothing, food, and personal care items. This program includes two-parent families and incapacitated families, and also includes time spent on Reach First and Reach Ahead.

2. 3 Squares

3Squares provides temporary food assistance benefits to eligible households and individuals with low income to increase their food purchasing power.

3. Fuel

The Fuel program assists applicants with safe, decent, affordable housing and other essential needs, as well as assistance to help with household heat, electric, and home repair costs, when an emergency situation arises.

4. General Assistance (GA) and Emergency Assistance (EA)

General Assistance provides financial assistance to disabled adults who are not eligible for Reach Up to meet their basic personal and shelter needs such as dental and housing assistance.

5. Essential Person (also called “Aid to the Aged, Blind, and Disabled (AABD)”)

Essential Person provides financial assistance to help aged, blind, and disabled people who have little or no income with a cash benefit to help contribute to the cost of having someone live with them to provide essential care.

6. Medicaid

The Medicaid program provides medical assistance to those who meet the financial and nonfinancial eligibility factors to ensure that essential health care services are made available to those who otherwise would not have financial resources to purchase them.

7. Social Supplemental Security Income (SSI)

SSI is a Federal income supplement program designed to help aged, blind, and disabled people who have little or no income with a cash benefit to provide for basic needs such as food, clothing, and shelter.

8. Utility Discount

The Utility Discount programs through Green Mountain Power and Vermont Gas provide financial assistance to eligible households with low income to help with household energy and natural gas.

9. Reach Up/3 Squares

Includes activities in support of a Reach Up/3 Squares multi-program case or application, when the worker is assisting a client with both programs with the same activity.

10. Reach Up/GA and EA

Includes activities in support of a Reach Up/GA and EA multi-program case or application, when the worker is assisting a client with both programs with the same activity.

11. Reach Up/Fuel

Includes activities in support of a Reach Up/Fuel multi-program case or application, when the worker is assisting a client with both programs with the same activity.

12. Reach Up/3 Squares/Fuel

Includes activities in support of a Reach Up/3 Squares/Fuel multi-program case or application, when the worker is assisting a client with the three programs with the same activity.

13. Reach Up/3 Squares/Fuel/GA and EA

Includes activities in support of a Reach Up/3Squares/Fuel/GA and EA multi-program case or application, when the worker is assisting a client with the four programs with the same activity.

14. 3 Squares/Fuel

Includes activities in support of a 3 Squares/Fuel multi-program case or application, when the worker is assisting a client with both programs with the same activity.

15. 3 Squares/Essential Person

Includes activities in support of a 3Squares/Essential Person multi-program case or application, when the worker is assisting a client with both programs with the same activity.

16. 3 Squares/GA and EA

Includes activities in support of a 3Squares/GA and EA multi-program case or application, when the worker is assisting a client with both programs with the same activity.

17. 3 Squares/Fuel/Essential Person

Includes activities in support of a 3Squares/Fuel/Essential Person multi-program case or application, when the worker is assisting a client with the three programs with the same activity.

18. 3 Squares/Fuel/GA and EA

Includes activities in support of a 3Squares/Fuel/GA and EA multi-program case or application, when the worker is assisting a client with the three programs with the same activity.

19. 3 Squares/Fuel/GA and EA/Essential Person

Includes activities in support of a 3Squares/Fuel/GA and EA/Essential Person multi-program case or application, when the worker is assisting a client with the four programs with the same activity.

20. Fuel/GA and EA

Includes activities in support of a Fuel/GA and EA multi-program case or application, when the worker is assisting a client with both programs with the same activity.

21. Fuel/GA and EA/Essential Person

Includes activities in support of a Fuel/GA and EA/Essential Person multi-program case or application, when the worker is assisting a client with the three programs with the same activity.

22. GA and EA/Essential Person

Includes activities in support of a GA and EA/Essential Person multi-program case or application, when the worker is assisting a client with both programs with the same activity.

23. All Programs: Reach Up/3 Squares/Fuel/GA and EA/Essential Person

Includes activities in support of a Reach Up/3Squares/Fuel/GA and EA/Essential Person multi-program case or application, when the worker is assisting a client with the five programs with the same activity.

RANDOM MOMENT TIME STUDY PROCEDURE MANUAL

Benefit Program Specialists

NOTE: THIS INFORMATION IS NOT FORWARDED TO TIME STUDY PARTICIPANTS

Introduction

The purpose of this random moment time study (RMTS) is to measure the level of effort spent on various eligibility activities performed by Benefit Programs Specialists (BPS) in the State of Vermont. These staff, who are all state employees, perform integrated eligibility determination activities on behalf of residents in the state and clients served by the Department for Children and Families (DCF) and other Departments within the Agency of Human Services (AHS) umbrella. Organizationally, BPS staff work in the Economic Services Divisions (ESD) of DCF.

The time study is administered using EasyRMTS™, which is a tool that has been developed by Public Consulting Group, Inc. (PCG). EasyRMTS™ is an automated, web-based RMTS application that gives users a comprehensive tool for administering a time study for federal claiming, cost allocation, or other similar activities. Fully customizable for an individual agency or school district's specific requirements, EasyRMTS™ gives an administrative user the capability to assign random moments, monitor staff participation, update respondents' information, create and produce reports for federal claiming and other purposes, and view and analyze tabulated responses from participating staff. Participants of an EasyRMTS™ administered time study only need to have access to the Internet and an e-mail address in order to receive and complete their assigned random moments.

The application serves its state and local government or school district users by allowing for a timely and effective system to record staff activities performed, especially with respect to key federal programs that are supported by their staff. The automated RMTS application was developed to comply with all federal rules and regulations related to cost allocation practices and claiming for reimbursement of federal dollars. The software supports accurate reporting of reimbursable administrative activities, which are generally required by federal approving agencies to be measured through a time study. EasyRMTS™ puts the least administrative burden on staff as possible while allowing users to measure their time and claim for federal revenue. The system allows participants to indicate directly, via a series of survey questions in the software, the activities and programs they are supporting.

The purpose of this manual is to provide step by step explanation of how to complete the Vermont DCF BPS RMTS. It has been created to assist DCF in managing and administering the RMTS. It serves as a procedural guide and instructional tool for sustaining the RMTS for its ongoing support of the cost allocation plan (CAP) process.

Please note that DCF is a state administered system. The use of the word "county" or "local office" indicates where the participant is physically located. The reference is still a person employed by the state.

Operation

There is a single RMTS (with 2,804 moments per quarter) operated for ESD BPS staff. PCG provides the EasyRMTS™ system (via a web-hosted service), generates each quarterly sample, provides assistance to DCF with monitoring participant responses, and provides customer service. The sample is generated using data from the payroll system on a quarterly basis. Participants are responsible for selecting activity and program codes when they respond to the RMTS. Initial training is provided by PCG, while annual refresher and ongoing new worker training is conducted by DCF. The following table displays the responsibilities of PCG and DCF when it comes to RMTS administration.

Sampling Population

The sampling population includes eligibility workers within DCF. These participants work to assess the need and determine eligibility for multiple public assistance programs. Specifically, workers included in the RMTS are Economic Services Division (ESD) Benefit Programs Specialists (BPS) within DCF.

BPS staff ensure that each person or family that applies for public assistance receives the type and level of assistance that they are eligible for. The BPS reviews the application and decides which forms and verifications are needed. The specialists then evaluate the information contained in all documents and uses complex policies and procedures to determine eligibility. The BPS also assess the needs of each person/family and provide appropriate information; making any referrals and/or contacts to persons/agencies to help them meet their needs. The BPS provide all families with information about the expectations and goals of DCF programs and maintaining eligibility. These positions also process changes as necessary on active cases.

Supervisors are not included in the RMTS.

On a quarterly basis, DCF updates the information for all staff members participating in the RMTS to account for new staff, terminated staff, and staff on long-term leave and updates the actual sample on a quarterly basis (for each new quarterly sample). Throughout the quarter and before the subsequent quarterly sample is drawn, RMTS administrators at DCF collect additions, deletions, and schedule changes and update the software system accordingly (note that these changes have no effect on the current sample). Changes are accepted by DCF until the sample is drawn for the next quarter. If a person leaves mid-way through the quarter, their supervisor notifies the RMTS administrators, and the leave information is noted so as to not initiate additional follow up. RMTS administrators change that individuals e-mail to a “dummy” e-mail address to stop e-mails from going out, but there is no type of replacement in the system. These moments are counted as non-responses.

It is important to note the DCF participants who have participated in the RMTS in the past, but whom are no longer in the sample selection (e.g., retired, left position), are not deleted from the EasyRMTS™ database but are deactivated so that prior quarter data is available for audit trail purposes.

Sampling Unit

An RMTS asks a participant what they are doing at a specific moment in time (e.g., 11:48 a.m.). The RMTS sampling unit is defined as a single minute, or sixty second length of time, randomly selected within the workday of each participant. The moments for the participants occur between the work schedules assigned to the individual workers. The moments are drawn from the core hours for each working day in a quarter, exclusive of official state holidays. Participants receive the e-mail within a few minutes after their assigned random moment time. There is no pre-notification of when a participant will have a moment assigned to them.

Responses and Response Time

Participants have 72 hours to respond to all moments. If the participant does not respond to their moment within the first 24 and 48 hours, reminder e-mails are sent to both the participant and their supervisor, requesting that they answer their moment. The moment expires after 72 hours. Reminder e-mails do not include the participant's username and password to ensure that only the participant has access to their unique login credentials and that no one other than the participant responds to their moments.

DCF RMTS administrators are cc'd on all reminder e-mails and follow-up with non-responders as needed. If a specific individual is identified as a non-responded, the RMTS administrators notify the specific supervisor so that person may be further trained on the importance of completing the RMTS. If a systemic issue is identified, communication is sent to all participants. PCG and DCF may also send out occasional e-mails over the holidays or other times when participation may be less to ensure that individuals are responding to the RMTS whenever possible.

Sampling Period

The sampling period is a calendar quarter.

Confidence and Precision Level

This level is kept at 95% confidence level with +/- 2% precision for all activities. This level is consistent with federal regulations for statistical validity. Cost Allocation Services (CAS, formerly the Division of Cost Allocation or DCA) determines that statistically validity is met when the minimum number of moments received (responded to) as determined in the formula below.

Sample Size

DCF generates 2,804 moments per quarter for the RMTS. This number is to ensure that 2,000 valid observations are obtained and is in compliance with the federally-required formula below. Specifically, the Public Assistance Cost Allocation Plan Review Guide states that:

The sample size needed may be determined from the formula included in the State Guide. The State Guide specifies that a minimum 2,000 valid observations per sample period be obtained. A “valid observation” is defined as any observation other than a “non-strike”. A “non-strike” occurs whenever a selected employee could not be contacted at the selected moment, i.e., the employee no longer works in the office, the employee is on a flex-schedule and not at work at the time of the observation, etc.

The formula used to determine the baseline number of moments is as follows:

$$N = \frac{P(1-P)}{\left(\frac{SE}{T}\right)^2}$$

Where	N	=	Sample Size
	P	=	Anticipated Rate of Occurrence of the Activities Being Observed
	SE	=	Desired Sample Precision
	T	=	Confidence Level Factor (1.96 for 95%)

With the updated system, DCF will update the maximum rate of occurrence and adjust the sample size as needed but also ensure the floor of moments responded to (2,000), as required by CAS.

Sample Calculation

Solving for N (with a maximum rate of occurrence of **54%**):

$$N = \frac{.54(1-.54)}{\left(\frac{.02}{1.96}\right)^2} = 2,459$$

XII.

XIII. *As mentioned above, this formula will be recalculated and updated on an annual basis. If the formula indicates a number less than 2,000 at any point, DCF will generate enough moments to still maintain 2,000 valid samples.*

Please note that because the BPS RMTS is a new process, the above formula is truly a sample calculation. Once the first quarter has been completed, the sample calculation will be updated with the actual maximum rate of occurrence.

Standard Observation Form and Definitions

A standard observation form has been developed that includes numerous questions, up to 15 distinct activity codes and 23 program codes (including combinations of more than one program) that encompass the universe of activities that the population being surveyed performs.

- The sample is generated (e.g., moments are assigned to participants) just prior to the beginning of the quarter.
- E-mails are sent to the participant, indicating that they have been selected to report their activity for the moment shown (e.g., 10:12 a.m. on 1/5/14).
- The e-mail contains a username and password and link to the website to respond to the moment.
- The participant selects the link to the website. At the website, they logon and have access to the questions and activity/program codes.
- The participant answers the questions and selects the appropriate activity and program (client specific activities require the client's last name and last four digits of the client's social security number (SSN)).
- There is no advance notification of moments.

Participants are sent 24 and 48-hour reminder e-mails (if the participant has not yet responded) and have 72 hours to complete each moment for it to be considered valid. Participants are not able to respond to moments once they have expired. Expired/non-response moments are not included in the RMTS activity percentage calculations.

A participant is asked numerous questions in the time study. The root question is "Were you working on a Case or on behalf of a client?" (Y/N). Below, is the sequence of questions depending on how they answer the root (first) question.

For answering "Yes" to case-related activity.

1. Please select the activity you are performing at the time of your moment, not the type of case.
2. Please select the program(s) you were supporting at the time of your moment.
3. Please provide the client's first initial, last name, and last four digits of the client's social security number (SSN).

For answering "No" to case-related activity.

1. Please select the activity you were performing at the time of your moment.

Below are the case specific activity codes:

Case Specific Activity Codes

1. Eligibility Determination or Redetermination
2. Utility Eligibility, Outreach, and Referrals
3. Active Case Updates/Changes
4. Fraud Referrals
5. Fair Hearings and Appeals
6. Reach Up Sanctions
7. Reach Up Controlled Vendor Payments
8. Outreach and Education Activities
9. Referrals to Medicaid and/or Medical/Behavioral Health Services
10. Referrals to Non-Medicaid/Non-Medical, Community Services

Below are the non-case specific activity codes:

Non-Case Specific Activity Codes

18. 3 Squares/Fuel/GA and EA
19. 3 Squares/Fuel/GA and EA/Essential Person
20. Fuel/GA and EA
21. Fuel/GA and EA/Essential Person
22. GA and EA/Essential Person
23. All Programs: Reach Up/3 Squares/Fuel/GA and EA/Essential Person

Please note that the activity and program codes are not numbered in the system. In addition, the program codes are only options if the participant selects a particular activity. Some activity codes are also only shown for case-related work, while others only appear for non case-related or non work-related activities. Not all program codes are available for every activity selection.

Please refer to the allocation matrix for the valid combinations of activity/program codes available to participants through the decision tree nature of the EasyRMTS™ software. Additionally, the following graphic represents the questions participants are walked through in order to select an activity/program combination; this graphic is provided to participants are part of the training presentation.

Date Stamp

The moment date/time is provided to the participant in the e-mail notification and is viewed by the participant when they log in to EasyRMTS™ to complete their moment. Each response is date stamped when the participant responds to the moment.

Help Desk

A Help Desk is operated where participants can call (via an 800 number) and speak to PCG if they have questions. This number is contained in all e-mails and on the RMTS system when participants log in to the system. If someone is unavailable, they can leave a message. All messages related to questions asked about activities are logged. Participants can also respond to the e-mail that they receive and receive an e-mail response.

Training

Employees must participate in a web-based training before completing their first random moment. Training sessions occur for all participants on an annual basis. Quarterly sessions are also held for workers who would like to attend or are required to attend additional trainings (participants who regularly fail to respond) as necessary. Periodic newsletters or memos are also sent to participants.

Analysis of Results

On a monthly basis, the results of the RMTS are compared to previous months to determine if there are any significant variances in the responses. If a significant variance is discovered, a review is conducted in order to determine the reason for the variance. If the reason for the variance is due to bias or improper technique, it will be determined whether to make a change to the RMTS form. Additional training may also be conducted. The state will also, as necessary, send communication and memorandum to participants to clarify any common issues.

On a monthly basis, reports are forwarded to the BPS RMTS coordinators so that they can follow up with non-responsive participants. Individual supervisors are involved as necessary. The system generates 24 and 48 hour follow-up e-mails. Additional follow-ups will be employed as necessary.

Evaluation and Modification of the System

The RMTS system, observation form, and distribution procedures are continuously evaluated to identify necessary modifications in order to improve their efficiency and effectiveness. If modifications are determined necessary, they are made promptly.

Subsample Process

For the entire BPS time study, 10% of all moments are randomly selected as part of the subsample process. Participants who are selected for the subsample are required to answer one additional question when responding to their moments, requiring them to write in their own words the activity they were performing. The RMTS administrators generate a report detailing those moments that have been selected as part of the subsample on the 18th day of the month (for moments that occurred in the first two weeks of the month) and 3rd day of every month (for moments that occurred in the second two weeks of the month). RMTS administrators will then review the reports, comparing the activity selection to the participants own description of their task to ensure that they match appropriately. If the activity selection does not match, RMTS administrators will contact the participants. If validation is not confirmed on any moments within the 10% subsample for whatever reason, these moments will be reallocated direct to state general fund. The RMTS statistic will be updated accordingly.

Documentation

All aspects of the RMTS process are documented. This documentation includes but is not limited to the following:

- Assigned moments e-mailed;
- Data related to tabulations;
- Analysis of sample results; and
- Final computation of results that are used in the cost allocation plan.

Procedural documentation is also kept on the procedures used.

Quality Control

Quality control is performed on the RMTS on an ongoing basis. Some codes require the participant to enter the client's first initial, last name, and last four digits of the client's social security number (SSN) during their random moment to ensure those cases are active for the department. For codes that require the participant to provide a description, those descriptions are reviewed by PCG and DCF to ensure the participants are using them appropriately. This information, along with other common participant errors recognized by PCG and DCF, is used to determine training needs.

The decision-tree setup of EasyRMTS™ ensures that participants cannot select incompatible combinations (please refer to the allocation matrix). If new activities are added or removed from the time study, EasyRMTS™ is reviewed and updated accordingly to ensure edits have been made correctly. Edits to the system are effective the first day of the quarter, in line with an accompanying CAP amendment. All amendments related to the RMTS process are prospective.

The following items, at a minimum, are reviewed throughout the quarter and prior to sample generation for the subsequent quarter:

- Identification of upcoming Vermont state or observed federal holidays (excluded from the sample).
- Data related to participant contact information, including full name and e-mail address.
- Participant roster updates to reactivate an employee who may have been on extended leave or to deactivate someone who will be on extended leave or no longer working in the BPS position at DCF.
- Workers who select the wrong activity (based on their own description of their work) are e-mailed directly to explain what the appropriate selection was so that the mistake does not continue to occur (either from reviewing the subsample moments or general observations regarding common mistakes made by participants).

Any employee on extended leave (exceeding six weeks during a single quarter) will be deactivated from the system until further notice. All other instances of leave will be determined on a case-by-case basis by RMTS administrators.

Quarterly Calculation of Results

DCF calculates the quarterly results based on the total number of moments received, minus the number of not scheduled to work (NSTW), and no response moments. Therefore, if 3,000 moments are generated and 500 of those moments received are a combination of unpaid time off or NSTW the denominator for the calculation is 2,500. All responses in the system, inclusive of NSTW, count as "responses" in determining the overall response rate.

Contingency Plan

In the event of a technical failure or emergency situation, when staff are not able to receive or respond to moments for longer than 5 days, DCF will take the following steps to ensure that a valid sample can still be obtained and that the time study's statistical validity is not compromised:

1. Upon resumption of the RMTS, DCF will determine how many moments were affected. DCF will then generate a concurrent sample, starting on the day the RMTS is resumed or shortly thereafter, containing the same number of moments that were affected by the outage through the end of the sample period. For example, if 200 moments were affected due to a technical failure DCF will generate a second sample of 200 moments, to run concurrently with the original sample through the end of the sample period.
2. If the situation occurs closer to the end of the quarter and a concurrent sample is not possible or if the issue will be prolonged, the prior quarter RMTS results will be used for the affected quarter.

Any situation where either option is considered will be communicated with CAS and the appropriate cognizant agencies and documented in the RMTS backup and the backup for all claims prepared using

HAEEU Time Study – Training Materials

The random moment time study (RMTS) is a survey process that includes all the activities performed by the Economic Services Division (ESD), Health Access Eligibility and Enrollment Unit (HAEEU) workers within DVHA. The time study began on July 1, 2015. Participating staff are those who support multiple programs administered by DVHA in HAEEU. Based on these observations, the total effort of a group of employees is determined with a high degree of confidence that approximates the same results as having observed employees for 100% of their time at work. The results of the RMTS are used in the quarterly cost allocation plan (CAP) to allocate department costs to reimbursable and non-reimbursable areas. This level of detail is required for DVHA to participate in federal claiming efforts.

The RMTS must be conducted on a continuous basis to support quarterly claiming efforts.

We thank participants in advance for their time and cooperation. Please direct all questions to either Public Consulting Group, Inc. (PCG) at vtdvhahaeu@pcgus.com or DVHA at AHS.DCFHAEUSupervisor@vermont.gov AHS.DCFHAEUSupervisor@state.vt.us. Participants may also call the PCG hotline at 866-912-2984.

How to Complete the Random Moment Time Study

Participants receive an e-mail that directs them to a website via a web link. Participants log in to the system and then answer several different questions. Depending on the answers to the questions, they select from a list of individual activity and program codes that fall under their subsequent programs.

After answering all of the questions provided, the user selects a Submit button to respond to the survey. The surveys must be completed within 72 hours. Participants receive a reminder e-mail 24 hours and 48 hours after each moment if the survey has not yet been completed. If a participant is working on a case, the worker is asked to provide the client's contact ID from VHC or UID from ACCESS as a unique case identifier.

The RMTS is mandatory and must be completed in a timely manner. Every survey that is assigned must be completed! Moments stay 'live' in the system for 72 hours so if a participant is on leave for a short time, they must still complete the moment upon their return.

Root Questions

The following describes each of the activities available to RMTS participants. Activities performed and programs administered on behalf of the client are described below. The RMTS is a decision-tree based process whereby the response provided to each question determines what the subsequent question is.

Please note that meetings, phone calls, e-mails, filing, driving, service requests, and similar other administrative tasks should be tied to the activity that they are in support of; these are not general administrative activities unless they are truly not tied to a case.

The first question a participant is asked when completing the time study is: Were you working on a Case or on behalf of a current or potential customer at the time of your moment?

The participant responds Yes or No.

If the participant selects “Yes”, the second question asks: Which eligibility system were you working in at the time of your moment?

The participants responds “Vermont Health Connect (VHC)” or “ACCESS”.

After selecting one of the two responses, the participant is asked to identify their activity. Of the “Case Specific Activity Codes”, only certain activities are available for selection in the RMTS system when the worker selects VHC or ACCESS.

Please refer to the table following the “Case Specific Activity Codes” section for a crosswalk.

Participants are also asked to provide a Case Identifier. In VHC, this is the Contact ID; in ACCESS, this is the UID.

If the participant selects “No”, the participant is asked to choose from a “Non-Case Specific Activity” or “Non-Work Related Activity”.

Case Specific Activity Codes

Please select the case-specific activity you are performing in the eligibility system at the time of your moment.

1. Collection, Review, and Reconciliation of Application and Data

This activity includes conducting interviews, preliminary review of application forms, verification of documents, data entry, and documenting application/data in VHC or ACCESS. Any other related work that can be conducted in the office, in the field, by mail, or by telephone should also be coded here, including receiving information from others who may be filling out or compiling application on behalf of the client. This activity should only be selected if the worker is physically performing these activities, or related administrative tasks, within the VHC or ACCESS system.

2. Processing Change of Circumstances and/or Updating a Case

This activity should be selected when (documenting case notes or) processing a change of circumstance to the case (in a client record). Related to factors such as changes in employment status or number of children, supporting an audit request/case read by rerunning/correcting budgets or producing documents missing from the file, reviewing or performing a case read for accuracy, splitting a case, processing over/under payments (performing QA variances), or cleaning up the case file. This activity also includes generating notification letters and printing/copying and/or mailing notification letters to clients. This activity should only be selected if the worker is physically performing these activities, or related administrative tasks, within the VHC or ACCESS system.

3. Issuing Eligibility Notices to Customers

This activity should be selected when generating or printing eligibility notices to send to clients, including using the manual notification tool (MNT). This includes annual review (per year requests), term letters, denial letters, or a letter request for more information. This activity should only be selected if the worker is physically performing these activities, or related administrative tasks, within the VHC or ACCESS system.

4. On-going Case Reviews or Renewals

This activity includes reviewing case records, scheduling and conducting client interviews for renewal purposes, verifying documents, answering verification requests, data entry for eligibility renewal purposes, completing necessary online forms for eligibility reviews and renewals, and discussing eligibility review and renewal with a client or a DVHA case participant. This activity can be completed when the client is present or on the telephone. This activity should only be selected if the worker is physically performing these activities, or related administrative tasks, within the VHC or ACCESS system.

5. Processing Cases for Eligibility Determinations

This activity includes scheduling and conducting client intake, reviewing case records, verifying documents, answering verification requests, preparing calculation entries or computations, data entry for eligibility purposes, completing necessary online forms to determine eligibility, and discussing eligibility determination requirements with a client or a DVHA case participant. This activity can be completed when the client is present or on the telephone. This activity should only be selected if the worker is physically performing these activities, or related administrative tasks, within the VHC or ACCESS system.

6. Customer Service and E-mail/Portal Response Processing related to Eligibility Determination Issues

This activity should be selected when reviewing or responding to client's comments and questions via phone or e-mail/ helpdesk portal. This includes time spent researching and reviewing the client's case, as well as researching policy regarding eligibility to make clear to the client what they qualify for. This activity can be completed when the client is on the telephone, through e-mail, or through the VHC portal inbox. This activity should only be selected if the worker is physically performing these activities, or related administrative tasks, within the VHC or ACCESS system.

7. Customer Service Response Processing related to General Processing Issues (not related to Eligibility Determinations)

This activity should be selected when reviewing or responding to client's comments and questions. This includes time spent researching and reviewing the client's case, answering questions related to premium processing, reconciling payment discrepancies, as well as researching policy specific to the question or concern being dealt with. This activity can be completed when the client is on the telephone, or through e-mail. Meetings, phone calls, e-mails, filing, driving, mailing, contact with case managers, service requests, and other similar administrative tasks associated with this activity should also be coded here.

8. Documenting, Initiating, Answering Case-related Questions for, or Testifying about Appeals (for the Appeals Unit to Process)

This activity involves responding to fair hearing requests, meeting with the client for pre-hearing conferences, attending administrative hearings, testifying at administrative hearings, attending an appeals case, or preparing pre-process or post-hearing paperwork or other documentation for any of these scenarios, including the 113 report. Meetings, phone calls, e-mails, filing, driving, mailing, contact with case managers, service requests, and other similar administrative tasks associated with this activity should also be coded here.

9. On-going Case Maintenance related to Plan Choice, including Referring Customers to Carriers

This activity should be selected when educating and advising a client on the plan options available to them. This also includes any time you spend researching the plans and providing the client with the contact information for the providers. Meetings, phone calls, e-mails, filing, driving, mailing, contact with case managers, service requests, and other similar administrative tasks associated with this activity should also be coded here.

10. Policy Development and Research related to Eligibility Determination Standards and Methodologies

This activity should be selected when reading, reviewing, or researching policy related to eligibility determination for a client. Meetings, phone calls, e-mails, filing, driving, mailing, contact with case managers, service requests, and other similar administrative tasks associated with this activity should also be coded here.

11. Phone-based Assistance to Fill Out Applications

This activity should be selected when assisting a client over the phone with filling out an eligibility related form or application, including answering any client questions about the form or necessary backup and supplemental documentation for the VHC system. Meetings, phone calls, e-mails, filing, mailing, contact with case managers, service requests, and other similar administrative tasks associated with this activity should also be coded here.

12. Referring Customers to Navigators

This activity should be selected when referring a client to a navigator for additional assistance in learning about their health insurance options and select/enroll in a health insurance plan. Meetings, phone calls, e-mails, filing, mailing, contact with case managers, service requests, and other similar administrative tasks associated with this activity should also be coded here.

13. General Outreach and Marketing Activities, related to Open Enrollment

This activity should be used when performing activities related to education and outreach about the assistance programs offered by DVHA. This activity includes any time spent educating clients about the benefits and availability of services, attending community events or fairs to speak to Vermonters about VHC, as well as encouraging clients to access the services and programs. This activity also includes all time spent compiling and distributing educational materials about the assistance program or assisting a client fill out a program application. Meetings, phone calls, e-mails, filing, driving, mailing, contact with case managers, service requests, and other similar administrative tasks associated with this activity should also be coded here.

14. Premium Tax Credit Form (1095-A) Processing

This activity involves reviewing all 1095-A forms to ensure accuracy (dates, premiums, address, etc.) and to also ensure every form is mailed to clients. This activity also includes following up with client complaints regarding their 1095-A, correcting errors, and resending the form if necessary. Meetings, phone calls, e-mails, filing, mailing, contact with case managers, service requests, and other similar administrative tasks associated with this activity should also be coded here.

15. Referrals to Medicaid and/or Medical/Behavioral Health Services

This activity includes referral of client to medical or other governmental or private agencies for Medical/Behavioral Health services that are not part of the services offered by HAEEU. Meetings, phone calls, e-mails, filing, driving, mailing, contact with case managers, service requests and other similar administrative tasks associated with this activity should also be coded here.

16. Referrals to Non-Medicaid/Non-Medical, Community Services

This activity includes referral of client to social services, housing agencies, or other governmental or private agencies for Non-Medical services that are not part of the services offered by HAEEU. This activity includes time spent working with Community Connections and Community Partners. Meetings, phone calls, e-mails, filing, driving, mailing, contact with case managers, service requests, and other similar administrative tasks associated with this activity should also be coded here.

Non-Case Specific Activity Codes

1. Delivery of or Participation in HAEEU -Specific Training and Staff Development

This activity should be used for trainings related to your job as a Vermont Healthcare Service Specialist (formerly HAEEU worker). These trainings can be on any specific program you support clients with. Examples include trainings on topics such as Siebel, ADA, ACCESS, Health Plan Selection, Customer Service, Eligibility Rules, Paper Application Processing, Wex, professional development trainings, ININ phone system training, New Worker training, email system usage, fire drills, time study trainings, general office trainings. You will be asked to select which program/topic the training covered. Any administrative efforts related to this activity should also be coded here.

2. All Staff or Supervision Meetings

Please use this activity code for work-related conferences within your office or one-on-one with your supervisor to discuss non-case related issues. All meetings related to clients should be coded to a Case-Specific Activity Code. Any administrative efforts related to this activity should also be coded here.

3. General Administrative Activities

This activity includes activities performed not related to case work and specific clients but necessary for your job. Examples include cleaning or organizing workspace, timesheet completion, preparation for or involvement in office functions, filling out personnel forms for human resources, mentoring new staff without a client present, general staff meetings not related to your cases, processing mail/faxes/e-mails not related to a case, testing computer systems, working with IT to fix a computer problem, reading new policies, completing general service requests not related to your cases, etc. You will be asked to describe the activity in your own words, and this activity should not be used for any phone call, email, documentation activity, travel to/from meetings with clients or required trainings that you attend, or filing activity if you can tie it to a specific case. Any administrative efforts related to this activity should also be coded here.

Non-Work Related Activity Codes

1. Paid Time Off (Annual/Sick/School/Administrative Leave/Comp)

This activity is used when the participant is using regular annual leave for vacation, sick hours, Family Medical Leave Act (FMLA), banked leave time, union leave, or approved personal educational leave. Paid days not working due to a weather emergency would also be recorded here.

2. Lunch/Break

Scheduled or unscheduled breaks (bathroom trips, lunch break, coffee breaks, and personal phone calls) should be coded here.

3. Not Scheduled to Work/Flex

Use this activity code if you were either not scheduled to work at the time of the observation, (i.e., it is before your regular start time, or after your regular end time, or the sample is received at a time when you are not scheduled to work due to your adjusted work schedule.) For example, you flex on Monday and the sample is received on Monday. The sample is before or after your regular work hours (e.g., at 7:49 a.m. and you do not start until 8:00 a.m.). Sick, vacation, annual leave, and “snow or weather” days should not be coded here.

4. Unpaid Time Off

Any leave you take that you are not paid for should be coded here.

5. Non-HAEEU Activity or Other Emergency Situation

This activity should be used when the participant performs an activity unrelated to any responsibility that they would normally have as a HAEEU worker at DVHA. Examples may include performing a function for another state agency or working on non-human services activities in the event of a natural disaster.

Participants are required to provide a brief description of the activity being performed when this activity is chosen.

HAEEU Random Moment Time Study Procedure
Random Moment Time Study Procedure Manual
Health Access Eligibility Unit Workers

Introduction

The purpose of this random moment time study (RMTS) is to measure the level of effort spent on various eligibility activities performed by the Health Access Eligibility and Enrollment Unit (HAEEU) workers in the State of Vermont. These staff, who are all state employees, perform Medicaid eligibility determination activities on behalf of residents in the state and clients served by DVHA and other Departments within the Agency of Human Services (AHS) umbrella. Organizationally, HAEEU staff work within the Medicaid Policy, Fiscal & Support Services Division of DVHA.

The time study is administered using EasyRMTS™, which is a tool that has been developed by Public Consulting Group, Inc. (PCG). EasyRMTS™ is an automated, web-based RMTS application that gives users a comprehensive tool for administering a time study for federal claiming, cost allocation, or other similar activities. Fully customizable for an individual agency or school district's specific requirements, EasyRMTS™ gives an administrative user the capability to assign random moments, monitor staff participation, update respondents' information, create and produce reports for federal claiming and other purposes, and view and analyze tabulated responses from participating staff. Participants of an EasyRMTS™ administered time study only need to have access to the Internet and an e-mail address in order to receive and complete their assigned random moments.

The application serves its state and local government or school district users by allowing for a timely and effective system to record staff activities performed, especially with respect to key federal programs that are supported by their staff. The automated RMTS application was developed to comply with all federal rules and regulations related to cost allocation practices and claiming for reimbursement of federal dollars. The software supports accurate reporting of reimbursable administrative activities, which are generally required by federal approving agencies to be measured through a time study. EasyRMTS™ puts the least administrative burden on staff as possible while allowing users to measure their time and claim for federal revenue. The system allows participants to indicate directly, via a series of survey questions in the software, the activities and programs they are supporting.

The purpose of this manual is to provide step by step explanation of how to complete the Vermont DVHA HAEEU RMTS. It has been created to assist DVHA in managing and administering the RMTS. It serves as a procedural guide and instructional tool for sustaining the RMTS for its ongoing support of the cost allocation plan (CAP) process.

Operation

There is a single RMTS (with 2300 moments per quarter) operated for HAEEU workers. PCG provides the EasyRMTS™ system (via a web-hosted service), generates each quarterly sample, provides assistance to DVHA with monitoring participant responses, and provides customer service. The sample is generated using data from the payroll system on a quarterly basis. Participants are responsible for selecting activity and program codes when they respond to the RMTS. Initial training is provided by PCG, while annual refresher and ongoing new worker training is conducted by DVHA. The following table displays the responsibilities of PCG and DVHA when it comes to RMTS administration.

Sampling Population

The sampling population includes eligibility workers within DVHA. These participants work to assess the need and determine eligibility for Medicaid. Specifically, workers included in the RMTS are Health Access Eligibility and Enrollment Unit (HAEEU) workers.

HAEEU staff ensure that each person or family that applies for health care programs, including health insurance exchange programs, through the Vermont Health Connect (VHC), the state's health insurance exchange (HIX) eligibility system. HAEEU workers determine eligibility for Medicaid and work regularly in VHC. Customers are ultimately determined eligible for Medicaid, CHIP, or other insurance coverage through a qualified health plan. HAEEU staff review the application and decides which forms and verifications are needed. The specialists then evaluate the information contained in all documents and uses standard policies and procedures to determine eligibility. HAEEU staff provide all families with information about the expectations and goals of the Medicaid program. These positions also process changes as necessary on active cases.

Supervisors are not included in the RMTS.

On a quarterly basis, DVHA updates the information for all staff members participating in the RMTS to account for new staff, terminated staff, and staff on long-term leave and updates the actual sample on a quarterly basis (for each new quarterly sample). Throughout the quarter and before the subsequent quarterly sample is drawn, RMTS administrators at DVHA collect additions, deletions, and schedule changes and update the software system accordingly (note that these changes have no effect on the current sample). Changes are accepted by DVHA until the sample is drawn for the next quarter. If a person leaves mid-way through the quarter, their supervisor notifies the RMTS administrators, and the leave information is noted so as to not initiate additional follow up. RMTS administrators change that individuals e-mail to a "dummy" e-mail address to stop e-mails from going out, but there is no type of replacement in the system. These moments are counted as non-responses.

It is important to note the DVHA participants who have participated in the RMTS in the past, but whom are no longer in the sample selection (e.g., retired, left position), are not deleted from the EasyRMTS™ database but are deactivated so that prior quarter data is available for audit trail purposes.

Sampling Unit

An RMTS asks a participant what they are doing at a specific moment in time (e.g., 11:48 a.m.). The RMTS sampling unit is defined as a single minute, or sixty second length of time, randomly selected within the workday of each participant. The moments for the participants occur between 8:00 a.m. to 4:30 p.m., and the moments are drawn from the core hours for each working day in a quarter, exclusive of official state holidays. Participants receive the e-mail within a few minutes after their assigned random moment time. There is no pre-notification of when a participant will have a moment assigned to them.

Responses and Response Time

Participants have 72 hours to respond to all moments. If the participant does not respond to their moment within the first 24 and 48 hours, reminder e-mails are sent to both the participant and their supervisor, requesting that they answer their moment. The moment expires after 72 hours. Reminder e-mails do not include the participant's username and password to ensure that only the participant has access to their unique login credentials and that no one other than the participant responds to their moments.

DVHA RMTS administrators are cc'd on all reminder e-mails and follow-up with non-responders as needed. If a specific individual is identified as a non-responded, the RMTS administrators notify the specific supervisor so that person may be further trained on the importance of completing the RMTS. If a systemic issue is identified, communication is sent to all participants. PCG and DVHA may also send out occasional e-mails over the holidays or other times when participation may be less to ensure that individuals are responding to the RMTS whenever possible.

Sampling Period

The sampling period is a calendar quarter.

Confidence and Precision Level

This level is kept at 95% confidence level with +/- 2% precision for all activities. This level is consistent with federal regulations for statistical validity. Cost Allocation Services (CAS, formerly the Division of Cost Allocation or DCA) determines that statistically validity is met when the minimum number of moments received (responded to) as determined in the formula below.

Sample Size

DVHA generates 2,300 moments per quarter for the RMTS. This number is to ensure that 2,000 valid observations are obtained and is in compliance with the federally-required formula below. Specifically, the Public Assistance Cost Allocation Plan Review Guide states that:

The sample size needed may be determined from the formula included in the State Guide. The State Guide specifies that a minimum 2,000 valid observations per sample period be obtained. A “valid observation” is defined as any observation other than a “non-strike”. A “non-strike” occurs whenever a selected employee could not be contacted at the selected moment, i.e., the employee no longer works in the office, the employee is on a flex-schedule and not at work at the time of the observation, etc.

The formula used to determine the baseline number of moments is as follows:

$$N = \frac{P(1-P)}{(SE/T)^2}$$

Where

- N = Sample Size
- P = Anticipated Rate of Occurrence of the Activities Being Observed
- SE = Desired Sample Precision
- T = Confidence Level Factor (1.96 for 95%)

With the updated system, DVHA will update the maximum rate of occurrence and adjust the sample size as needed but also ensure the floor of moments responded to (2,000), as required by CAS.

Sample Calculation

Solving for N (with a maximum rate of occurrence of **30%**):

$$N = \frac{.30(1-.30)}{(.02/1.96)^2} = 2,038$$

As mentioned above, this formula will be recalculated and updated on an annual basis. If the formula indicates a number less than 2,000 at any point, DVHA will generate enough moments to still maintain 2,000 valid samples.

Please note that because the HAEEU RMTS is a new process, the above formula is truly a sample calculation. Once the first quarter has been completed, the sample calculation will be updated with the actual maximum rate of occurrence.

Standard Observation Form and Definitions

A standard observation form has been developed that includes numerous questions, up to 24 distinct activity codes that encompass the universe of activities that the population being surveyed performs.

1. The sample is generated (e.g., moments are assigned to participants) just prior to the beginning of the quarter.
2. E-mails are sent to the participant, indicating that they have been selected to report their activity for the moment shown (e.g., 10:12 a.m. on 1/5/14).
3. The e-mail contains a username and password and link to the website to respond to the moment.
4. The participant selects the link to the website. At the website, they logon and have access to the questions and activity/program codes.
5. The participant answers the questions and selects the appropriate activity and program (client specific activities require a patient identification number and/or name).
6. There is no advance notification of moments.

Participants are sent 24 and 48-hour reminder e-mails (if the participant has not yet responded) and have 72 hours to complete each moment for it to be considered valid. Participants are not able to respond to moments once they have expired. Expired/non-response moments are not included in the RMTS activity percentage calculations.

A participant is asked numerous questions in the time study. The root question is “Were you working on a Case or on behalf of a current or potential customer at the time of your moment?” (Y/N). Below, is the sequence of questions depending on how they answer the root (first) question.

For answering “Yes” to case-related activity.

1. Which eligibility system were you working in at the time of your moment?
 - a. Vermont Health Connect (VHC)
 - b. Access
2. Please select the activity you were performing at the time of your moment.
3. Please provide the client’s contact ID from VHS or UID from ACCESS.

For answering “No” to case-related activity.

1. Please select the activity you were performing at the time of your moment. Below are the

case specific activity codes:

Case Specific Activity Codes

1. Collection, Review, and Reconciliation of Application and Data
2. Processing Change of Circumstances and/or Updating a Case
3. Issuing Eligibility Notices to Customers
4. On-going Case Reviews or Renewals
5. Processing Cases for Eligibility Determinations
6. Customer Service and E-mail/Portal Response Processing related to Eligibility Determination Issues
7. Customer Service Response Processing related to General Processing Issues (not related to Eligibility Determinations)
8. Documenting, Initiating, Answering Case-related Questions for, or Testifying about Appeals (for the Appeals Unit to Process)
9. On-going Case Maintenance related to Plan Choice, including Referring Customers to Carriers
10. Policy Development and Research related to Eligibility Determination Standards and Methodologies
11. Phone-based Assistance to Fill Out Applications
12. Referring Customers to Navigators

- 13. General Outreach and Marketing Activities, related to Open Enrollment
- 14. Premium Tax Credit Form (1095-A) Processing
- 15. Referrals to Medicaid and/or Medical/Behavioral Health Services
- 16. Referrals to Non-Medicaid/Non-Medical, Community Services

Below are the non-case specific activity codes:

Non-Case Specific Activity Codes

- 1. Delivery of or Participation in HAEEU -Specific Training and Staff Development
- 2. All Staff or Supervision Meetings
- 3. General Administrative Activities

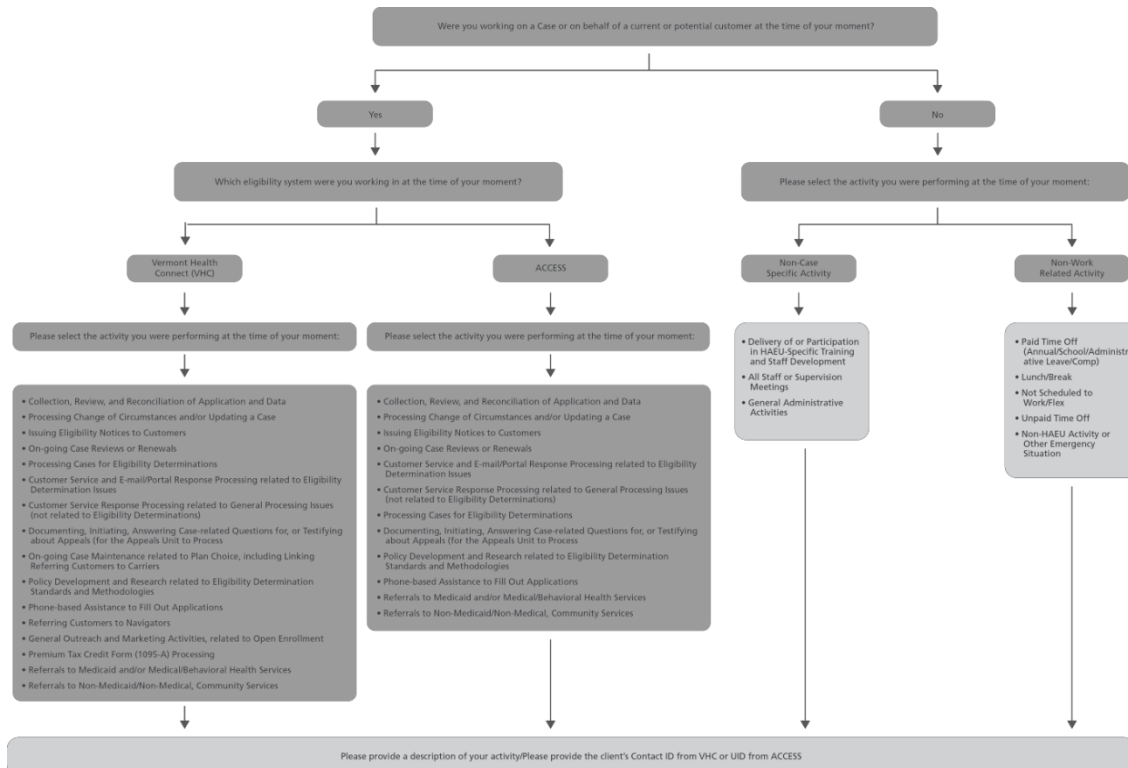

Below are the non-work related activity codes:

Non-Work Related Activity Codes

- 7. Paid Time Off (Annual/Sick/School/Administrative Leave/Comp)
- 8. Lunch/Break
- 9. Not Scheduled to Work/Flex
- 10. Unpaid Time Off
- 11. Non-HAEEU Activity or Other Emergency Situation

Please note that the activity codes are not numbered in the system. Some activity codes are also only shown for case-related work, while others only appear for non-case-related or non-work-related activities.

Please refer to the allocation matrix for the valid combinations of eligibility system/activity codes available to participants through the decision tree nature of the EasyRMTS™ software. Additionally, the following graphic represents the questions participants are walked through in order to select an activity/program combination; this graphic is provided to participants as part of the training presentation.

Date Stamp

The moment date/time is provided to the participant in the e-mail notification and is viewed by the participant when they log in to EasyRMTS™ to complete their moment. Each response is date stamped when the participant responds to the moment.

Help Desk

A Help Desk is operated where participants can call (via an 800 number) and speak to PCG if they have questions. This number is contained in all e-mails and on the RMTS system when participants log in to the system. If someone is unavailable, they can leave a message. All messages related to questions asked about activities are logged. Participants can also respond to the e-mail that they receive and receive an e-mail response.

Training

Employees must participate in a web-based training before completing their first random moment. Training sessions occur for all participants on an annual basis. Quarterly sessions are also held for workers who would like to attend or are required to attend additional trainings (participants who regularly fail to respond) as necessary. Periodic newsletters or memos are also sent to participants.

Analysis of Results

On a monthly basis, the results of the RMTS are compared to previous months to determine if there are any significant variances in the responses. If a significant variance is discovered, a review is conducted in order to determine the reason for the variance. If the reason for the variance is due to bias or improper technique, it will be determined whether to make a change to the RMTS form. Additional training may also be conducted. The state will also, as necessary, send communication and memorandum to participants to clarify any common issues.

On a monthly basis, reports are forwarded to the HAEEU RMTS coordinators so that they can follow up with non-responsive participants. Individual supervisors are involved as necessary. The system generates 24 and 48-hour follow-up e-mails. Additional follow-ups will be employed as necessary.

Evaluation and Modification of the System

The RMTS system, observation form, and distribution procedures are continuously evaluated to identify necessary modifications in order to improve their efficiency and effectiveness. If modifications are determined necessary, they are made promptly.

Subsample Process

For the entire HAEEU time study, 10% of all moments are randomly selected as part of the subsample process. Participants who are selected for the subsample are required to answer one additional question when responding to their moments, requiring them to write in their own words the activity they were performing. The RMTS administrators generate a report detailing those moments that have been selected as part of the subsample on the 18th day of the month (for moments that occurred in the first two weeks of the month) and 3rd day of every month (for moments that occurred in the second two weeks of the month). RMTS administrators will then review the reports, comparing the activity selection to the participant's own description of their task to ensure that they match appropriately. If the activity selection does not match, RMTS administrators will contact the participants. If validation is not confirmed on any moments within the 10% subsample for whatever reason, these moments will be reallocated direct to state general fund. The RMTS statistic will be updated accordingly.

Documentation

All aspects of the RMTS process are documented. This documentation includes but is not limited to the following:

1. Assigned moments e-mailed;
2. Data related to tabulations;
 - a. Analysis of sample results; and
3. Final computation of results that are used in the cost allocation plan. Procedural documentation is also kept on the procedures used.

Quality Control

Quality control is performed on the RMTS on an ongoing basis. Some codes require the participant to enter the case number they are working on during their random moment to ensure those cases are active for the department. For codes that require the participant to provide a description, those descriptions are reviewed by DVHA to ensure the participants are using them appropriately. This information, along with other common participant errors recognized by DVHA, is used to determine training needs.

The decision-tree setup of EasyRMTS™ ensures that participants cannot select incompatible combinations (please refer to the allocation matrix). If new activities are added or removed from the time study, EasyRMTS™ is reviewed and updated accordingly to ensure edits have been made correctly. Edits to the system are effective the first day of the quarter, in line with an accompanying CAP amendment. All amendments related to the RMTS process are prospective.

The following items, at a minimum, are reviewed throughout the quarter and prior to sample generation for the subsequent quarter:

1. Identification of upcoming Vermont state or observed federal holidays (excluded from the sample).
2. Data related to participant contact information, including full name and e-mail address.
3. Participant roster updates to reactivate an employee who may have been on extended leave or to deactivate someone who will be on extended leave or no longer working in the HAEEU position at DVHA.
4. Workers who select the wrong activity (based on their own description of their work) are e-mailed directly to explain what the appropriate selection was so that the mistake does not continue to occur (either from reviewing the subsample moments or
5. general observations regarding common mistakes made by participants).

Any employee on extended leave (exceeding six weeks during a single quarter) will be deactivated from the system until further notice. All other instances of leave will be determined on a case-by-case basis by RMTS administrators.

Quarterly Calculation of Results

DVHA calculates the quarterly results based on the total number of moment received, minus the number of not scheduled to work (NSTW), and no response moments. Therefore, if 3,000 moments are generated and 500 of those moments received are a combination of unpaid time off or NSTW the denominator for the calculation is 2,500. All responses in the system, inclusive of NSTW, count as “responses” in determining the overall response rate.

Contingency Plan

In the event of a technical failure or emergency situation, when staff are not able to receive or respond to moments for longer than 5 days, DVHA will take the following steps to ensure that a valid sample can still be obtained and that the time study's statistical validity is not compromised:

1. Upon resumption of the RMTS, DVHA will determine how many moments were affected. DVHA will then generate a concurrent sample, starting on the day the RMTS is resumed or shortly thereafter, containing the same number of moments that were affected by the outage through the end of the sample period. For example, if 200 moments were affected due to a technical failure DVHA will generate a second sample of 200 moments, to run concurrently with the original sample through the end of the sample period.
2. If the situation occurs closer to the end of the quarter and a concurrent sample is not possible or if the issue will be prolonged, the prior quarter RMTS results will be used for the affected quarter.

Any situation where either option is considered will be communicated with CAS and the appropriate cognizant agencies and documented in the RMTS backup and the backup for all claims prepared using this data.

APPENDICES

1. Accounting System Chart of Accounts.

The State of Vermont Financial and accounting system VISION is used to meet the state's accounting and financial reporting responsibilities. VISION is an acronym for Vermont Integrated System for Information and Organizational Needs. VISION is a PeopleSoft product.

VISION-Financials is a Web based Oracle/PeopleSoft enterprise financial management system utilizing the following modules: Travel & Expense, General Ledger, Accounts Payable, Purchasing, Accounts Receivable, Billing, Asset Management, Inventory, and Sub recipient Grant Tracking (VT custom module). The system is managed by the Department of Finance & Management in conjunction with the Department of Information & Innovation.

The Chart of Accounts for VISION include the following fields:

Chartfield Name	Length	Description
Business Unit	5 numeric	Identifies the Governmental Agency/Department established Statutorily or Administratively.
Account	6 numeric	Classifies the nature of the operation transactions. Holds the detail coding values for assets, liabilities, equity, revenues, and expenses/expenditure transactions.
Fund	5 numeric	Maintains the fiscal and accounting entities in which financial resources and the use of those resources are grouped according to Statute, regulation, or current accounting standards.
Dept ID	10 numeric	Identifies Governmental Agency/Department operation unit subdivisions.
Program	5 numeric	Maintains a description and a set of objectives toward which activities and resources are directed. AHS uses this field for CAP cost pools.
Class	5 alpha/numeric	Used to track activities relating to programs across program lines based on departmental, administrative, or legislative needs.
Project	15 alpha/numeric	Captures and controls project or grant information which funding sources are applied.
Affiliate	5 numeric	Reference Business unit for intrastate transactions
